THE AGRA UNIVERSITY ACT, 1926.

[United Provinces Act No. VIII of 1926.]

[Passed by the local Legislature of the United

Provinces of Agra and Oudh]

Received the assent of the Governor of the United Provinces of Agra and Oudh on September 11, 1926, and of the Governor-General on October 20, 1926, and was published under Section 81 of the Government of India Act on October 30, 1926.

AN ACT TO ESTABLISH AND INCORPORATE A UNIVERSITY AT AGRA.

WHEREAS it is expedient to establish and incorporate a University at Agra for the purpose of affiliating the colleges associated with the University of Allahabad as reorganized by the Allahabad University Act, 1921, so as to set the University of Allahabad free to function as a unitary, teaching, and residential University by relieving it of the responsibility of controlling the quality and character of the teaching given in its name by the associated colleges and placing such responsibility upon an affiliating University at Agra,

AND WHEREAS the previous sanction of the Governor-General has been obtained under Section 80-A (3) of the Government of India Act, to the passing of this Act, it is hereby enacted as follows:—

1. (1) This Act may be called the Agra University Act, 1926.

Short title
and
commence-
ment.

(2) It shall come into force on such date as the local Government may, by notification in the Gazette, appoint in this behalf:

Provided that save as otherwise expressly provided herein, different provisions of this Act may come into force on such date or dates as the local Government may, by notification in the Gazette, appoint.

PART II

LAWS, STATUTES AND REGULATIONS
OF THE UNIVERSITY

N O T E

The extracts from the Act printed in the following Chapters are merely given for convenience.

It is *not* intended to suggest that no other portions of the Act have any bearing on these subjects.

PART II

CHAPTER I

THE UNIVERSITY

(1) The First Chancellor and Vice-Chancellor of the University, and the first members of the Senate, of the Executive Council, and of the Academic Board of the University, and all persons who may hereafter become such officers or members, so long as they continue to hold such office or membership, are hereby constituted a body corporate by the name of the Agra University. Section 3 of the Act.

(2) The University shall have perpetual succession and a Common Seal and shall sue and be sued by the said name.

Subject to such conditions as may be prescribed by or under the provisions of this Act, the University shall have the following powers, namely — Section 4 of the Act.

(1) to provide for instruction in such branches of learning as the University may think fit, and to make provision for research and for the advancement and dissemination of knowledge ;

(2) to confer degrees and other academic distinctions on persons who—

- (a) have pursued an approved course of study in an affiliated college and have passed the examinations of the University under conditions laid down in the Statutes or Regulations, or
- (b) are teachers in educational institutions under conditions laid down in the Statutes and Regulations, and have passed the examinations of the University, under like conditions, or
- (c) are inspecting officers in the Department of Education and fulfil the conditions laid down in the Statutes and Regulations

Section 4 of
the Act
—*contd.*

and have passed the examinations of the University under like conditions, or

- (d) have carried on independent research under conditions laid down in the Statutes, or
- (e) are women who have carried on private study under conditions laid down in the Statutes ;

(3) to confer honorary degrees or other distinctions on approved persons in the manner laid down in the Statutes ;

(4) to provide such lectures and instruction for and to grant, under conditions laid down in the Statutes, such diplomas to persons, not being students of an affiliated college, as the University may determine ;

(5) to admit to the privileges of affiliation, under conditions prescribed in the Statutes and Regulations, colleges in the United Provinces, Rajputana, Central India, and Gwalior .

Provided that it shall not be lawful for the University to affiliate any college situated within the limits of the Universities of Allahabad or Lucknow, or within a radius of ten miles from the Convocation Hall of the Benares Hindu University or from the University Mosque of the Aligarh Muslim University ;

(6) to inspect affiliated colleges and places approved by the University for the residence of students ;

(7) to co-operate with other Universities and authorities in such manner and for such purposes as the University may determine ;

(8) to supplement the work of teaching and research in affiliated colleges by instituting teaching posts at such centres as the University may determine, and to appoint persons to such posts ;

(9) to institute and award Fellowships, Scholarships, Exhibitions, Prizes, and Medals in accordance with the Statutes and Regulations; Section 4 of the Act —*concl'd.*

(10) to demand and receive such fees as may be prescribed in the Statutes ;

(11) to do all such other acts and things, whether incidental to the powers aforesaid or not, as may be requisite to further the objects of the University, and to cultivate and promote arts, science, and learning.

The University shall be open to all persons of either sex of whatever race, creed, or class, and it shall not be lawful for the University to adopt or impose on any person any test whatsoever of religious belief or profession in order to entitle him to a certificate, diploma, or degree of the University, or to serve as a teacher, or to hold any office in the University, or to enjoy or exercise any privileges thereof, except where such test is imposed in any testamentary or other instrument creating a benefaction which has been accepted by the University Section 5 of the Act.

Provided that nothing in this section shall be deemed to prevent persons (whether teachers or not) from giving religious instruction in affiliated colleges or hostels to those who are not unwilling to receive it.

CHAPTER II

THE VISITOR

(1) The Governor-General shall be the Visitor of the University Section 6 of the Act:

(2) The Visitor shall have the right to cause an inspection to be made by such person or persons as he may direct, of the University, and its buildings, and of any affiliated college or hostel, and also of the examinations, teaching and other work conducted or done by the University, and to cause an inquiry

Section 6 of the Act—*encl.* to be made in like manner in respect of any matter connected with the University. The Visitor shall, in every case, give notice to the University of his intention to cause an inspection or inquiry to be made, and the University shall be entitled to be represented thereat.

(3) The Visitor may address the Chancellor with reference to the results of such inspection or inquiry, and the Chancellor shall communicate to the Senate and to the Executive Council the views of the Visitor and shall, after ascertaining the opinion of the Senate and the Executive Council thereon, advise the University upon the action to be taken

(4) The Executive Council shall report to the Chancellor for communication to the Visitor such action, if any, as it is proposed to take or has been taken upon the results of such inspection or inquiry. Such report shall be submitted within such time as the Chancellor may direct, through the Senate, which may express its opinion thereon.

(5) Where the Executive Council does not within a reasonable time take action to the satisfaction of the Chancellor, the Chancellor may, after considering any explanation furnished or representation made by the Senate and the Executive Council, issue such directions as he may think fit, and the Executive Council shall comply with such directions.

CHAPTER III

THE CHANCELLOR

Section 8 of the Act.

(1) The Governor of the United Provinces shall be the Chancellor. He shall, by virtue of his office, be the head of the University and the President of the Senate, and shall, when present, preside at meetings of the Senate and at any Convocation of the University.

(2) Where power is conferred upon him by this Act or the Statutes to nominate persons to authorities and bodies, the Chancellor shall, to the extent necessary and without prejudice to such powers, nominate persons to represent minorities not otherwise adequately represented. Section 8 of the Act.
—*Concl'd.*

(3) The Chancellor shall have such other powers as may be conferred on him by this Act or the Statutes

CHAPTER IV

THE VICE-CHANCELLOR

(1) The Vice-Chancellor shall be an honorary officer, elected by the Senate from among three persons each recommended by a majority of the members of the Executive Council present at the meeting, subject to the confirmation of the Chancellor. Section 9 of the Act

(2) The term of his office shall be three years.

(3) Where any temporary vacancy in the office of the Vice-Chancellor occurs, by reason of illness or other cause, the Executive Council shall, as soon as possible, subject to the approval of the Chancellor, make such arrangements for carrying on the duties of the Vice-Chancellor as it may think fit. Until such arrangements have been made, the Registrar shall carry on the current duties of the Vice-Chancellor, but he shall not preside at meetings of the University authorities.

(1) The Vice-Chancellor shall be the principal executive and academic officer of the University, and shall, in the absence of the Chancellor, preside at meetings of the Senate and at any Convocation of the University. He shall be an *ex-officio* member and Chairman of the Executive Council and of the Academic Board, and shall be entitled to be present and to speak at any meeting of any authority or body of the University, but shall not be entitled to vote thereat unless he is a member of the authority or body concerned. Section 10 of the Act.

Section 10
of the Act
— *concl'd*

(2) It shall be the duty of the Vice-Chancellor to see that this Act, the Statutes, and the Regulations are faithfully observed, and he shall have all powers necessary for this purpose.

(3) The Vice-Chancellor shall have power to convene meetings of the Senate, the Executive Council, and the Academic Board; provided that he may delegate this power to any other officer of the University

(4) (a) In any emergency which, in the opinion of the Vice-Chancellor, requires that immediate action should be taken, he shall take such action as he deems necessary, and shall at the earliest opportunity thereafter report his action to the officer, authority, or other body who or which in the ordinary course would have dealt with the matter.

(b) When action taken by the Vice-Chancellor under this sub-section affects any person in the service of the University, such person shall be entitled to prefer an appeal to the Executive Council within fifteen days from the date on which such action is communicated to him.

(5) The Vice-Chancellor shall give effect to the orders of the Executive Council regarding the appointment, dismissal, and suspension of persons in the employment of the University, and shall exercise general control over the affairs of the University. He shall be responsible for the discipline of the University in accordance with this Act, the Statutes and the Regulations.

(6) The Vice-Chancellor shall exercise such other powers as may be prescribed by the Statutes and the Regulations.

Section 26
of the Act.

Subject to the provisions of this Act, the Statutes may provide for all or any of the following matters, namely .—

- * + + * †
- (d) the conditions of service of the Vice-Chancellor;

CHAPTER VI

THE DEANS

Section 21
of the Act. (3) There shall be a Dean of each Faculty, who shall be nominated by the Faculty subject to such conditions as may be prescribed by the Statutes and to confirmation by the Executive Council.

(4) The Dean of each Faculty shall be responsible for the due observance of the Statutes and Regulations relating to his Faculty.

* Statute. Each Faculty shall elect a Dean from among its members, provided that in the case of the Faculties of Arts, Science, and Commerce the person elected shall be either the Principal of an affiliated college or the head of a department of teaching in an affiliated college. The Dean of each Faculty shall preside at its meetings. He shall hold office for three years.

† Regulations 1. When a Dean is to be elected at the annual meeting of the Faculty, the Vice-Chancellor will preside at the meeting of the Faculty and will invite proposals. He will put to the meeting the proposals which are duly seconded. The voting will be by ballot and the person who receives the largest number of votes will be elected the Dean of the Faculty. When a vacancy in the office of Dean occurs at any other time and the Vice-Chancellor is of opinion that the election cannot wait till the annual meeting of the Faculty, he will hold the election of Dean by correspondence and the following procedure will be followed—

The Registrar shall send to each member of the Faculty a Voting Paper and ask him to propose for the office of Dean a person from among the members of the Faculty in accordance with the conditions laid down in the Statutes. The Voting Paper

such draft and pass the Statute, or may reject it or may return it to the Executive Council for reconsideration, either in whole or in part, together with any amendments which the Senate may suggest. After any draft so returned has been further considered by the Executive Council, together with any amendments suggested by the Senate, it shall be again presented to the Senate with the report of the Executive Council, and the Senate may then deal with the draft in such manner as it may think proper.

- (5) (a) When the Senate has passed a Statute, it shall be submitted to the Chancellor, who may assent to it, or may withhold his assent, or may refer it back to the Senate for further consideration
- (b) If the Senate rejects the draft of a Statute proposed by the Executive Council, the draft shall be submitted to the Chancellor, who may refer it back to the Senate for further consideration.
- (c) A Statute passed by the Senate shall not become valid until the Chancellor has given his assent thereto

(6) The Executive Council shall not propose the draft of any Statute or of any amendment of a Statute—

- (a) affecting the status, powers, or constitution of any authority of the University until such authority has been given an opportunity of expressing an opinion upon the proposal. Any opinion so expressed shall be in writing and shall be considered by the Senate and shall be submitted to the Chancellor ;
- (b) affecting the conditions of affiliation of colleges to the University except after consultation with the Academic Board.

(1) The Senate may, on the recommendation of not less than two-thirds of such members of the Executive Council as are for the time being in India, remove the name of any person from the register of graduates Section 31
of the Act.

(2) The Senate may remove any person from membership of any authority or Board of the University upon the ground that such person has been convicted by a court of law of an offence which, in the opinion of the Senate, is a serious offence involving moral delinquency or upon the ground that he has been guilty of scandalous conduct; and may upon the same grounds withdraw from any person any degree, diploma, or certificate conferred or granted by the University.

(1) The number of persons to be elected by the non-official members of the Legislative Council under ^{First} Statute 2, head (zi) of Section 14 () shall be three.

First
Statute 2.
—*contd.*

The procedure for the election shall be prescribed by Regulations

*(6) Every donor who makes a bequest of Rs. 10,000 or upwards may by or under his will, nominate one person who shall be a member for a period of six years from the receipt of the bequest.

†(7) Every person contributing to the University a donation of Rs. 6,000, shall be a member for a period of nine years from the date of the receipt of his donation.

†(8) Every person contributing to the University a donation of Rs. 60,000 or upwards, shall be a life-member from the date of the receipt of the donation and every such life-member may, by notice in writing to the Registrar, nominate one member to hold office for a period of six years.

†(9) Every Indian Prince or Chief, contributing a donation of one lac of Rupees or upwards shall be a life-member from the date of the receipt of the donation and after his decease his successor for the time being holding his position as such Prince or Chief shall be a life-member.

*(10) Every person who is a life-member by virtue of the above clause (9) may from time to time nominate one member. The member so nominated shall continue in office for such period as the nominator may specify, provided that the membership shall determine on the death of the nominator.

(11) Save as otherwise provided, members of the Senate, other than *ex-officio* members, shall hold office for a period of three years, and they shall be eligible for re-election, re-nomination, or re-appointment.

Provided that persons elected under heads (xv), (xvi), and (xv) of Section 14, sub-section (1) shall hold office so long only within the said period as they continue to be members of the Legislative Council, or members of the staff or of the Managing Committee of the affiliated colleges concerned.

*Added by the Senate on Nov 3, 1933.

For the Election to the Senate by Registered Graduates.

The procedure for election to the Senate by *Statute registered graduates shall be prescribed by Regulations.

1. In the year in which an election is to take place, the Registrar shall issue by registered post, on or about the 15th August, a notice together with a list of registered graduates, to every registered graduate at his registered address, stating the number of vacancies on the Senate to be filled by election by registered graduates and asking that graduates, who desire to seek election to the Senate from this constituency, should communicate their intention to the Registrar within a time to be named in the notice. Such time shall be not less than 15 days from the date on which the notice is posted. Such notice shall state the date and hour up to which intimation by registered graduates of their intention to seek election will be received by the Registrar at the University Office. Regulation.

2. Within the said time, any registered graduate, who wishes to seek election to the Senate, may notify to the Registrar his intention and ask for the inclusion of his name in the list of candidates for election.

3. On the expiry of the time fixed by the notice under Regulation 1, the Registrar shall, after scrutiny of the papers received from the registered graduates notifying their intention to seek election, prepare a list of all candidates who desire to seek election. This list, along with a blank voting paper and a statement of the number of vacancies, shall be posted by the Registrar, under a registered cover, to each voter at his registered address. The voting paper

* Vide Statute 18 of Chapter XXVI, passed by the Senate on Oct. 22, 1927.

† Passed by the Executive Council on Oct. 19, 1927, and amended on March 7 and April 20, 1934, and March 13, 1936.

Regulations shall state the time and date before which it must
—*contd.* reach the Registrar. The time and date thus notified must not be less than 21 days from the date on which the voting paper is posted.

A voting paper received after the date and time notified by the Registrar shall not be counted.

4. Each voter will both fill in and sign his voting paper in the presence of the Attesting Officer. The filling in shall be done by the voter giving, in his own handwriting, the registered numbers and the full names of the candidates for whom he decides to vote.

Provided that if on account of physical inability a voter is unable to fill in his own voting paper, he may be allowed by the Attesting Officer to have an amanuensis to fill it in his presence and this fact shall be certified by the Attesting Officer.

5. Each voter may vote for the election of as many candidates as there are vacancies, but he shall not be entitled to give more than one vote to any individual candidate.

6. (1) The Attesting Officer will be one of the following persons—

A.—In British India.

- (i) The Registrar of the University ;
- (ii) A Magistrate of the First Class or a Judicial Officer of a rank not lower than that of a Munsif ;
- (iii) Members of the All India Services ;
- (iv) Members of the Provincial Services ;
- (v) Principals of colleges affiliated to any recognised University or Board of High School and Intermediate Education ;
- (vi) Members of the Senate of the Agra University.

B.—*In an Indian State.*Regulations
—*contd.*

- (i) The Chief Educational Officer of the State ;
- (ii) Principals of colleges affiliated to any recognised University or Board of High School and Intermediate Education ,
- (iii) A Magistrate of the First Class or a Judicial Officer of a rank not lower than that of a Munsif ;
- (iv) Members of the Senate of the Agra University.

At places where none of the Officers, mentioned above is stationed, the attestation may be made by the Headmaster of a High School, recognised by the Board of High School and Intermediate Education, U. P., or the Board of High School and Intermediate Education, Rajputana, Central India and Gwalior.

(2) No person who is himself a candidate for the election will be authorised to attest the voting paper of any registered graduate.

No voter shall attest his own voting paper

(3) The officer, in whose presence the voting paper is filled in and signed by the voter, must attest the same with his signature and designation. He will also note the number of candidates for whom the voter has recorded his votes. Any alteration or correction in the filling in of the voting paper must be initialled at the time both by the voter himself and the Attesting Officer.

7. Each voter shall send his voting paper separately to the Registrar by registered post in a cover sealed with sealing wax and superscribed Voting Paper for Election to the Senate. Such voting papers shall be despatched so as to reach the Registrar in his office on or before the date and time fixed by the Registrar under Regulation 3.

Regulations
—*consolid*

8. (i) Any voting paper not complying with the above regulations shall be declared invalid ;

(ii) If two or more voting papers are received in one cover, they shall be declared invalid.

9. (1) Such voting papers shall be kept by the Registrar under lock and key in the sealed covers unopened, until the time and date fixed for their scrutiny

(2) Due notice of such time and date as also of the place of scrutiny shall be given by the Registrar and such of the voters as may wish to attend shall be at liberty to be present during the scrutiny.

(3) On the said day, the Registrar shall open the covers and scrutinise the voting papers and count the votes in the presence of a committee of three persons appointed by the Vice-Chancellor for that purpose.

(4) The Registrar shall prepare a return of the votes obtained by each candidate and such return shall be verified and signed by the members of the committee.

10. The candidate or candidates who have obtained the highest number of votes shall be declared to have been duly elected.

When two or more candidates have obtained an equal number of votes and the vacancies available are less than the number of such candidates, the Registrar shall report the case to the Vice-Chancellor, who shall determine by drawing lots, in such manner as he may consider advisable, which of the aforesaid candidates shall be deemed to have been elected.

11. No election shall be deemed to be invalid by reason of any communication or the voting paper posted to any voter not being delivered to him by the post office.

(For Registration of Graduates see Chapter XXVI
below.)

For the Conduct of the meetings of the Senate

12. The Senate shall, unless otherwise directed by the Vice-Chancellor, ordinarily meet once a year in or about November, and may adjourn from time to time to conclude any unfinished business. The meeting in or about November shall be deemed the Annual Meeting of the Senate.

Regula-
tions *

13. At the Annual Meeting of the Senate the budget for the ensuing financial year shall be presented and representatives of the Senate shall be elected to such authorities and bodies as include representatives of the Senate.

14. If both the Chancellor and the Vice-Chancellor are absent from any meeting, the members present shall elect a Chairman for the meeting.

15. At all meetings of the Senate fifteen members, inclusive of the Chairman, shall form a *quorum*.

16. If a *quorum* is not present fifteen minutes after the notified time of the meeting, the Chairman may declare that there shall be no meeting.

17. If in the course of a meeting, any member calls attention to the absence of a *quorum* the Chairman shall dissolve the meeting.

18. Notice in writing of meetings of the Senate shall be despatched to all members of the Senate not later than thirty days before the meeting and shall be further published by a notice posted on the notice board of the Registrar's Office.

19. Notice of a motion or resolution to be moved at a meeting of the Senate must be in the hands of the Registrar not less than twenty days before the meeting.

* Passed by the Senate on Oct. 22, 1937

Regulations 20. Notice of an amendment to a motion or
 —*contd.* resolution of which notice had been given must be in the hands of the Registrar at least ten days before the meeting of the Senate at which the motion or resolution is to be moved

21. No business other than that contained in the agenda paper shall be transacted at a meeting unless with the consent of the Chairman of the meeting and unless permission is given to introduce it by the vote of two-thirds of the members present

22. All questions as to whether proper notice of a motion or an amendment has been given shall be decided by the Chairman of the meeting, whose decision shall be final

23. (a) No motion or resolution of which due notice has not been given may be moved at any meeting of the Senate except—

- (1) to adjourn the debate ;
- (2) to adjourn the meeting ;
- (3) to dissolve the meeting ;
- (4) to change the order of business ;
- (5) to refer any matter to any authority of the University ;
- (6) to pass to the next item of business ,
- (7) to appoint a committee ;
- (8) to propose that the question be now put.

(b) A motion under (1), (2), (6), or (8) above shall be put to the vote without discussion.

(c) Motions under (1), (2), (3) and (4) shall be moved only with the consent of the Chairman.

24 No amendment of which due notice has not been given shall be moved to a motion or resolution before a meeting of the Senate unless — Regulations
—contd.

- (1) the Chairman rules it to be in order as arising out of the debate, and
- (2) permission to move the amendment is given by a majority of the members present.

25. The Chairman at a meeting of the Senate shall have a vote and a casting vote

26 Every motion shall be affirmative in form, and shall begin with the word "That".

27. Every motion must be seconded, otherwise it shall drop. The seconder of a motion may reserve his speech with the permission of the Chairman.

28. When a motion which is in order has been seconded, it shall be stated from the Chair, before it is discussed.

29. If no member rises to speak to the motion after it has been stated from the Chair, the Chairman shall proceed to put the question to the vote

30. Not more than one motion and one amendment thereto shall be placed before the meeting at the same time.

31 A motion once disposed of shall not be again brought forward at the same meeting, or at any adjournment thereof.

32. (1) Any proposal before the meeting may be amended (a) by leaving out a word or words, or (b) by leaving out a word or words in order to add or insert some other word or words, or (c) by adding or inserting a word or words.

(2) When an amendment is of the first kind, the form in which it shall be proposed and handed to the Chair will be, "That the words (mentioning them) be omitted".

Regulations (3) When an amendment is of the second kind.
—*contd.* the form will be, "That the words (mentioning them), be omitted and the words (mentioning them) be added (or inserted)".

(4) When an amendment is of the third kind, the form will be, "That the words (mentioning them) be added (or inserted)".

33. No amendment shall be proposed which would in effect constitute a direct negative to the motion.

34. Every amendment must be relevant to the motion upon which it is moved.

35. No amendment shall be proposed which substantively raises a question already disposed of by the meeting, or which is inconsistent with any resolution already passed by it.

36. The order in which amendments, of which previous notice has been given, are to be brought forward shall be determined by the Chairman.

37. An amendment must be seconded in the same way as a motion, otherwise it shall drop. A seconder of an amendment may reserve his speech with the permission of the Chairman.

38. When an amendment, which is in order has been moved and seconded, it shall be stated from the Chair.

39. The mover of an amendment or of a motion for dissolution or adjournment, has no right of reply.

40. No members shall be allowed to speak more than once in the course of the discussion on a motion except the mover of the original resolution who may reply at the end of the discussion.

41. No member shall speak to the question after the mover has entered on his reply.

42. A motion "That this meeting be now dissolved" or "That this meeting be now adjourned" may be moved at any time as a distinct question but not as an amendment, nor so as to interrupt a speech.

Regulations
—contd.

43. If a motion for dissolution is carried, the business before the meeting shall drop.

44. If a motion for adjournment is carried, the meeting shall be adjourned and the business shall be resumed at the adjourned meeting.

45. A motion "That the debate be now adjourned" may be moved in the manner prescribed in Regulation 42, and if it be carried shall have the effect of postponing the debate on the question under consideration, and the other items on the agenda paper shall be proceeded with. If the motion be negatived the debate shall be resumed.

46. A motion "That the meeting pass to the next business on the agenda paper" may be made at any time, in like manner and subject to the same rules as one for adjournment of the debate under Regulation 45. If such motion be carried the motion under consideration and the amendment thereon, if any, shall drop.

47. At any time after a motion or amendment has been made, a member may request the Chairman to put the question, and if it appears to the Chairman that there has been sufficient discussion, he may call upon the mover for his reply and may then put the question to the vote.

48. No member shall speak for more than fifteen minutes when proposing a motion or amendment, or for more than ten minutes when seconding or speaking to a motion or amendment, or when replying.

49. Proposals relating to the conferring of honorary degrees, votes of thanks, messages of

Regulations
—*contd.* congratulations or condolence, addresses, and other matters of a like nature may be moved from the Chair without previous notice.

50. The Chairman may at any stage in the proceedings, at his own discretion or at the request of a member, explain the scope and effect of the motion or amendment which is before the meeting.

51. If the Chairman desires to take an active part in a debate, he shall vacate the Chair until the vote on that debate shall have been taken. During such time the Chair shall be taken by a member present appointed by the Chairman. The acting Chairman shall, during the debate in question, exercise all the rights of the Chairman.

52. Any member may, with the permission of the Chairman, rise even while another is speaking, to explain any expression used by himself which may have been misunderstood by the speaker, but he shall confine himself strictly to such explanation.

53. Any member may call the Chairman's attention to a point of order even while another member is addressing the meeting, but no speech shall be made on such point of order.

54. The Chairman shall be the sole judge on any point of order, and may call any member to order, and may if necessary, dissolve the meeting, or adjourn it to some hour on the same or the following day.

55. A motion or amendment may be withdrawn by permission of the Chairman by any member who has given notice of such motion or amendment.

56. Any motion or amendment standing in the name of a member who is absent from a meeting may be brought forward by any other member.

57. On putting any question to the vote the Chairman shall call for an indication of the opinion of the Senate by a show of hands in the affirmative

and negative, and shall declare the result thereof according to his opinion.

Regulation
—contd.

58 Any six members may then demand a division except on a motion of the kind contemplated in Regulation 23. The Chairman shall thereupon give such directions for effecting the division as he shall consider expedient and shall nominate scrutineers to count the votes.

59. A motion for the appointment of a committee on a subject under debate may be made by any member at any time, and without the notice required by Regulation 20.

60 A motion for the appointment of a committee must define the purpose for which the committee is proposed and the number of members to compose it. Amendments for enlarging or restricting the number may be made without previous notice. If the motion is carried, the member moving shall name the persons whom he wishes to form the committee. It shall thereupon be open to members to propose and second other names. A ballot shall then be taken, if necessary, and the requisite number appointed from those who obtain the largest number of votes.

61. The *quorum* for a committee shall be not less than a majority of members appointed.

62. At the time of the appointment of a committee one of its members shall be elected as Chairman of the committee by the Senate.

63. In all cases of election other than those specifically provided for, the candidate shall be proposed and seconded. If no more candidates are nominated than there are vacancies to be filled, the Chairman shall declare those candidates to be elected. If the number of candidates exceeds the number of vacancies, the voters shall state on the ballot paper the names of the candidates they desire to vote for up to the limit of the number of vacancies.

64 No matter which has been decided by the Senate shall, within a period of twelve months, be

Regulations reconsidered, except at a special meeting of the Senate
—conold. convened for the purpose upon a requisition of not less than thirty members. No motion for revision shall be carried unless three-fourths of the members present at such meeting vote in favour thereof.

NOTE—For the purpose of this regulation the interval between two annual meetings of the Senate shall be counted as 12 months.

65. In any case not provided for by these regulations, the Chairman shall be entitled to give his own ruling as to procedure.

66. Representatives of the Press and Visitor may be admitted to meetings of the Senate, provided they have obtained the permission of the Vice-Chancellor.

67. Any member of the Senate shall, subject to the Regulations of the Senate, be entitled to put questions regarding any matter connected with the administration of the University. A member so putting a question, or any other member of the Senate, shall be entitled to put supplementary questions. Notice of questions to be answered shall be given not less than 20 days before the date of the meeting.

The Vice-Chancellor may decline to answer any question if he considers it contrary to the best interest of the University

of the Act.

Subject to the provisions of this Act, the Statutes may provide for all or any of the following matters, namely :—

* * * * *

(o) the admission of students to affiliated colleges ;

* * * *

Section 30
of the Act.

Students shall not be eligible for admission to a course of study for a degree unless they have passed the Intermediate examination of the Board of High School and Intermediate Education of the United Provinces, or of an Indian University incorporated by any law for the time being in force, or an examination recognised by the University as equivalent thereto, and possess such further qualifications (if any) as may be prescribed by the Statutes.

* Statutes

1. A student when applying for admission to an affiliated college shall bring with him a certificate as to his conduct signed by the head of the institution in which he was studying during the year previous to his joining the college :

Provided that a student who seeks admission as a private student shall in lieu thereof, furnish to the Principal of the college in which he desires to prosecute his studies, evidence of good conduct.

2. No candidate who wishes to enter upon a course of study prescribed for a degree of the University shall be admitted to an affiliated college unless he has (i) passed the Intermediate Examination of the Board of

High School and Intermediate Education, United Provinces, or of an Indian University incorporated by any law for the time being in force, or (ii) passed any other examination recognised by the University as equivalent thereto.

Statutes
—contd.

3. A student shall be recognised as a member of a college as soon as he has been accepted by the Principal and has paid the fee demanded by the college.

4. No student shall be allowed to migrate from one college to another without a leaving or transfer certificate in the form prescribed.

5. If during an academical year a student desires to leave the college of which he has become a member and to join another college, he shall—

- (1) give notice of his intention to leave ;
- (2) make payment of all college fees due up to date, and unless exempted as next herein-after provided, pay a further sum of Rs. 10 ; and
- (3) refund whatever scholarship or bursary has been paid to him from college funds, if required by the college to do so .

Provided that when it is proved to the satisfaction of the Principal of the college from which the student wishes to migrate that—

- (a) the parent or guardian, with whom the student has been residing, is transferred to another district, or
- (b) a change of residence has been recommended by a qualified medical practitioner ;

the Principal shall remit the additional sum of Rs. 10 prescribed by the last preceding Statute.

Statutes
—*amended*.

*6. When a student has made all payments required by these Statutes, the Principal shall grant a transfer or leaving certificate in the form prescribed.

7. Except with the permission of the Principal of the college of which the student is a member, a student shall be refused admission into a college situated in the same city or district as the college from which his transfer certificate was issued.

8. A student who, owing to his failure at a college terminal examination has not been allowed promotion, shall not be admitted into a higher class in another college.

9. (1) When a student has been guilty of grave misconduct, or of persistent idleness, the Principal of the college at which such student is studying may, according to the nature and gravity of the offence—

- (a) expel,
- (b) rusticate for a period not exceeding one academic year, or
- (c) disqualify such a student from appearing at the next ensuing examination.

(2) No student who has been so expelled shall be admitted into another college without the permission of the Principal of the aforesaid college, and no student, who has been so rusticated, shall be admitted into another college within the period of his rustication.

†(3) All cases of expulsion shall be reported to the Executive Council for confirmation. If the order of expulsion is not confirmed by the Executive Council the student who has been expelled may be admitted to another college of the University.

(For conditions of admission to the courses of study and the Examinations etc., see Chapters XXIX—XXXIII-B and Appendix 9.)

10. Upon receipt of the fee prescribed, the Registrar shall, if the candidate is admitted, furnish the candidate with an admission card, permitting him to appear at the examination.

11. Permission to appear at a University examination may be withdrawn for conduct which, in the opinion of the Executive Council, justifies the candidate's exclusion.

12. A candidate may not be admitted into the examination hall, unless he produces to the officer conducting the examination, his examination admission card or satisfies such officer that it will be produced.

*13. No student shall be allowed to appear at a University examination unless he has attended at least 75 per cent both of the lectures delivered and of the practical work done in each subject during the course of instruction for the examination, lectures in General English and English Literature for the B. A. course being counted separately.

Attendance at lectures and practical work referred to in this Statute will entitle a candidate to appear at a University examination at the end of the academic year in which he has completed such a course of study. If a candidate does not then appear at the examination he cannot be admitted to a subsequent examination unless, during the academic year at the end of which such examination is held, he has completed a further regular course of study for the examination.

B—Re-admission to University Examinations.

Section 26
of the Act.

Subject to the provisions of this Act, the Statutes may provide for all or any of the following matters, namely:—

* * * * *

- (k) The conditions under which students shall be admitted to the courses of study prescribed by the University, and to the examinations conducted by the University, and be eligible for degrees, diplomas, or certificates;

¶1. A candidate who has attended a regular course of study for two academical years in an affiliated college and who has failed once in the Final M. A. or M. Sc. or LL. B. Examination, may be allowed by the Executive Council to appear again at a subsequent examination, without attending any further regular course of study, provided that the Principal of the affiliated college in which he last studied recommends his application. Statutes

A candidate who has attended a regular course of study in an affiliated college and who has failed once in a University Examination, other than Final M. A. or M. Sc. or LL. B. Examination, from an affiliated college, may be permitted to re-appear at the next ensuing examination without attending a further regular course of study, in cases where the Principal of the college certifies that he was unable or unwilling to re-admit the student. The application for re-admission to the college in such cases must be made and the Principal's certificate obtained, within ten days of the commencement of the college session, at the end of which the candidate desires to appear at the said examination.

A candidate who has failed once in a degree examination, other than Final M. A. or M. Sc. or LL. B. and is not able to obtain the Principal's certificate referred to above, shall not be admitted to a subsequent examination, unless he has attended a regular course of study during the academical year in which the subsequent examination is held: provided that the Executive Council may, in exceptional cases, permit a

*6 A candidate who after obtaining the B.Sc. degree of the University or of an Indian University incorporated by any law for the time being in force has completed a regular course of study for one academical year in an affiliated college, shall be admitted to the Previous examination for the degree of Master of Science.

*7. A candidate who after passing the Previous M.Sc. Examination of the University has completed a regular course of study for one academical year in an affiliated college shall be admitted to the Final examination for the degree of Master of Science.

8. The examination for the degree of Master of Science shall consist of two parts :—

- (1) The Previous examination, and
- (2) The Final examination.

9. The examinations shall be partly by means of papers and partly practical. In Mathematics the examination shall be by papers only.

10. The subject of examination shall be one of the following :—

- (1) Mathematics.
- (2) Physics.
- (3) Chemistry.
- (4) Zoology.
- (5) Botany.

⁴Amended by the Senate on Nov. 3, 1933.

"Doctor of Science.

11. A candidate for the degree of D.Sc. must be either— Statutes
—contd.

(a) an M.Sc. (or an M.A. in Mathematics) of the University of at least three years' standing or an M.Sc. (or an M.A. in Mathematics) of the Allahabad University of at least three years' standing who at the time of passing the M.Sc. (or M.A. in Mathematics) Examination was a student of a college associated with the Allahabad University and now affiliated to the Agra University, or

†(b) an M.Sc. (or M. A. in Mathematics) of at least three years' standing of any other University recognised for this purpose by the Executive Council and incorporated by any law for the time being in force, who has been resident within the territorial limits of the Agra University for the three years' immediately preceding the date of his application.

12. The degree will be awarded on the basis of an original thesis submitted by the candidate upon any subject comprised within the Faculty of Science.

13. The thesis submitted must be satisfactory as regards its literary form and, if not already published, must be in a form suitable for publication.

*Passed by the Senate on Nov. 20, 1931.

†For purposes of admission to the D.Sc. degree of the University, the M.Sc. degree of the following Universities are recognised:—

1. Allahabad University.
2. Bombay University
3. Dacca University.
4. Hindu University, Benares
5. Lucknow University.
6. Muslim University, Aligarh.

(Vide Executive Council Resolution No. 226 of Mar. 17, 1933, and Vice-Chancellor's order, dated Oct. 9, 1933.)

Statutes
—contd.

14. A candidate may not submit as his thesis any paper on the basis of which a degree has already been conferred on him by this or any other University, but he shall not be precluded from incorporating work, which he has already submitted for a degree, in a thesis covering wider field, provided that he shall indicate the extent of the work so incorporated.

15. The candidate must indicate how far his thesis embodies the results of his own researches, and in what respects his investigations appear to him to advance the knowledge of Science; he should also state what authorities he has utilised in preparing his thesis and should submit in support of his candidature any paper, which he may have published independently or conjointly.

16. Every candidate, who intends to supplicate for the said degree, shall (on or before the 1st of October, in any year) submit his application to the Registrar, stating the special subject chosen by him for the original thesis and the lines upon which the subject is to be treated. No application for admission to the said degree shall be entertained, unless it is supported by two members of the Faculty of Science or by two Doctors of Science of the University or by two Doctors of Science of an Indian University, incorporated by any law for the time being in force, who shall have testified that the applicant is a fit and proper person to supplicate for the degree.

The application shall be accompanied by a sum of Rs. 50, which shall not be refunded unless the application is rejected by the University. The balance of the fee of Rs. 200, required for the admission to the degree shall be paid at the time of the presentation of the thesis.

17. The application shall be laid before the Faculty of Science which shall consider the suitability of the subject offered and, if the subject be approved, shall forward the application to the Executive Council with such recommendations, if any as it may wish to make. If the application is

entertained by the Executive Council, the Registrar shall inform the candidate accordingly.

Statutes
—*could*.

The candidate shall submit his thesis (three printed or typewritten copies) together with a sum of Rs. 150, the balance on account of the fee. The Council shall then call upon the Board of Studies in the subject concerned to recommend the names of three persons to be constituted as a Board of Examiners.

18. If the thesis is approved by the Board, the Board shall decide whether the candidate should be required to appear before a Board of two examiners approved by the Executive Council, in order to be tested orally or practically or by both these methods, with reference to the thesis and the special subject selected by him. The Board of two examiners shall report to the Executive Council the result of the examination of the thesis and of the oral and practical examination, if any; and if the Executive Council upon the report consider the candidate worthy of the degree of Doctor, they shall cause his name to be published in the Gazette.

CHAPTER XXXIV

PROVIDENT FUND

Section 38
of the Act

Subject to the provisions of this Act, the Statutes may provide for all or any of the following matters namely —

- (i) the constitution of a pension or provident fund for the benefit of the officers, teachers, and other servants employed by the University ;

Section 38
of the Act.

Where any pension or provident fund has been constituted by the University for the benefit of its officers, teachers, or other servants the Governor-General in Council may declare that the provisions of the Provident Fund Act, 1925, shall apply to such fund as if it were a Government Provident Fund.

*Statutes

1 In these Statutes—

- (a) "Salary" means monthly salary, and includes all fixed monthly allowances by way of pay, acting or personal allowances but does not include any other allowance.
- (b) "Servant" means every whole time officer or servant of the University, other than one whose services have been lent to the University by Government or who is on leave from a Government post, appointed permanently to a substantive appointment carrying a salary of Rs. 30 per mensem or more.

NOTE—Persons appointed on probation to permanent posts shall be eligible to subscribe to the Fund.

- (c) "Depositor" means a servant on whose behalf a deposit is made under these Statutes.

*Passed by the Senate on Oct. 22, 1927, and amended on Nov. 16, 1934, and Nov. 22, 1935.

(d) "Savings Bank" means the post-office savings bank.

Statutes
—contd.

(e) "Interest" means the interest which is paid on a deposit in the post-office savings bank, i. e., Rs. 3 per cent. per annum or such as may be determined from time to time for deposits in the post-office savings banks.

(f) "Dependent" means any of the following relative of a deceased subscriber to, or a depositor in, a Provident Fund, viz., a wife, husband, parent, child, minor brother, unmarried sister and a deceased son's widow and child, and where no parent of the subscriber or depositor is alive, a paternal grandparent.

2. Every servant of the University shall be compelled to subscribe to the Provident Fund at the rate of 8 per cent of his salary for which an account will be opened at the savings bank. The deduction shall be made by the University upon every salary bill presented. In the calculation of this deduction fractions of a rupee of a salary shall be omitted. Subscriptions by the depositors, when on leave on less than full pay, will be optional. The amount so deducted, together with the contribution by the University under Statute 3 below, will be deposited in the savings bank. The payments in respect of the monthly deductions and contributions shall, so far as possible, be made into the bank within two days of the receipt of the money in order that interest may accrue. The following procedure will be adopted.—

The post office will open individual accounts for all the subscribers to the Provident Fund. The University will arrange that all sums to be credited to these accounts shall be sent to the post-office accompanied by—

Statutes
—*amended*.

- (i) the post-office savings bank pass book, and
- (ii) a list in the form (APPENDIX A) appended to these Statutes showing in detail the amount to be credited to each account.

3. The University shall make a contribution at the rate of 12 per cent in the case of subscribers drawing a salary of Rs. 500 or less, 10 per cent in the case of subscribers drawing a salary of more than Rs. 500 but not exceeding Rs. 1,000 and 8 per cent in the case of subscribers drawing a salary of over Rs. 1,000.

4. Investment in post-office cash certificates or in Government securities, through the post-office, of the amount to the credit of a subscriber in his Provident Fund is also permissible, if the subscriber so desires, on the condition that no security of the face value of less than Rs. 100 is purchased at one time and that the securities are kept in the custody of the Accountant-General, Posts and Telegraphs, and the custody receipt is kept with the Registrar.

The post office cash certificates, if purchased, shall remain in the custody of the Registrar.

5. Subscribers to the Provident Fund on whose behalf accounts are opened at the post-office under the provisions of these Statutes will not be deprived of their right to open ordinary private accounts in the post-office savings bank or to purchase post-office cash certificates or Government securities through the post-office.

6. The Executive Council may, under such conditions as may be laid down by it, permit the payment of premia on Life Assurance Policy or Policies on the life of the subscriber out of his personal subscription to the Provident Fund Account under Statute 2 above. The amount to be deposited in the post-office in the Provident Fund Account of the subscriber shall be reduced to the extent of such premia.

7. Withdrawals will be permitted when a subscriber's services in the University come to an end by his retirement, resignation, death or otherwise, provided that—

Statutes
—*contd.*

- (i) no servant whose services have been dispensed with for what, in the opinion of the Executive Council, is gross misconduct, shall be entitled to receive the amount of the contribution made by the University on his behalf and the interest thereon ;
- (ii) no servant shall be entitled to receive the amount contributed by the University on his behalf and the interest thereon, unless he has been in the service of the University for at least twelve months from the date he has been allowed to subscribe to the Provident Fund and has been permitted to resign his appointment.

NOTE.—Any contribution and interest thereon withheld under this Statute shall belong to the University and shall be credited to the University account.

8. In the case of severe illness of a depositor or of a dependent, purchase of site for buildings, erection of and repairs to subscriber's own building and other urgent necessities to be decided by the Executive Council, the Executive Council may permit a depositor to draw temporarily out of the Fund from the amount subscribed by him and the interest thereon such amount as it may deem fit, provided that the sum advanced shall not exceed six months' pay of the subscriber or the sum subscribed by the depositor with the interest accumulated thereon, whichever is less.

NOTE.—The amount advanced under this Statute shall be such a sum as is divisible into twenty-four equal amounts in whole rupees.

9. The amount advanced under Statute 7 shall be refunded to the Fund by twenty-four equal monthly instalments. A subscriber may, however, at

CHAPTER XXXVI

CONDITIONS OF SERVICE, LEAVE, ETC., OF THE
SERVANTS OF THE UNIVERSITY

The Executive Council—

Section 18
of the Act.

* * * * *

- (f) save as otherwise provided in this Act or the Statute, shall appoint the officers (other than Chancellor and the Vice-Chancellor), teachers and other servants, of the University, and shall define their duties and the conditions of their service, and shall provide for the filling of temporary vacancies in their posts :

Provided that no teacher shall be employed by the University until provision has been made for his salary in the budget of the University ;

* * * * *

1. The regulations in this chapter apply to all permanent whole time servants of the University who are not allowed vacations, excluding those whose services have been lent to the University by Government or who are on leave from a Government post

Regulations.*

2. Leave is earned by duty only.

3 (1) A servant who resigns or is discharged from the employment of the University, cannot, if re-employed after an interval, count his former service towards leave without the permission of the authority re-appointing him

(2) A servant who is dismissed or removed from the University service, but is reinstated, is entitled to count his former service towards leave unless the authority reinstating him declares that he shall not so count it in whole or in part.

*Passed by the Executive Council on Oct. 19, 1927 and amended on April 20, 1934.

Regulations 4. Leave cannot be claimed as of right. When
- *contd.* the exigencies of the University service so require, discretion to refuse or revoke leave of any description is reserved to the authority empowered to grant it.

5. All orders recalling a servant to duty before the expiry of his leave should state whether the return to duty is optional or compulsory. If it is compulsory, the servant shall be entitled to travelling allowance to Agra but will get leave salary up to the date he joins his post.

6. A servant who remains absent after the expiry of his leave is not entitled to leave salary during the period of such absence. Wilful absence from duty after the expiry of leave involves forfeiture of appointment.

7. The power of granting leave will rest with the Executive Council. In regard to the clerical and menial staff the Executive Council may, by regulations, delegate its powers to the Vice-Chancellor and the Registrar.

8. For every servant a service-book or service roll and leave account shall be maintained by the University in the form in which they are maintained in Government offices, and the Registrar shall have them kept up-to-date.

9. Leave may be of the following kinds which may be combined with each other subject to limits laid down in these regulations :—

- (i) Leave on full pay.
- (ii) Leave on half pay.
- (iii) Leave on quarter pay (on medical certificate).
- (iv) Leave without pay.

NOTE 1 —Casual leave is not treated as regular leave and is not debited to the leave account. Casual leave shall not be combined with regular leave of any kind.

NOTE 2 —“ Pay ” means substantive pay and does not include acting allowance.

10. The leave on full pay which a servant earns is one-twelfth of the period he remains on duty. He also earns leave on half pay equal to one-twelfth of the period spent on duty. A servant on entering service must put in at least twelve month's service before he can be granted leave mentioned in clauses (i) and (ii) of Regulation 9.

Regulations
—*contd.*

11. It will be in the discretion of the sanctioning authority to grant leave on half pay even if leave on full pay is due, if it is necessary to do so in the interests of the University.

12. The maximum period of leave on full pay which a servant can take at any one time either separately or in combination with any other leave is four months.

13. The maximum period of leave with allowance (on full and half pay) which a servant can take at any one time is two years. This period may be extended by six months if the extension of leave is granted on quarter pay on medical certificate under Regulation 15

14. A servant on return from leave on full pay taken separately or in combination with any other leave must remain on duty for at least six months before he can again be granted leave on full pay.

15. When a servant applies for leave on medical certificate and no leave on full or half pay is due to him, leave on quarter pay may be granted to him subject to the condition that the total period for which such leave can be granted to a servant during the whole period of service shall not exceed two years.

NOTE.—The medical certificate shall be from the Civil Surgeon in cases in which the salary exceeds Rs 300. In cases where the salary does not exceed Rs. 300, the certificate shall be from a qualified medical practitioner whose name is borne on the register of medical practitioners registered under the United Provinces Medical Act (III of 1927).

Regulations
—*contd*

16. In case of necessity and when no other leave is due, leave without pay may be granted subject to the condition that no servant can be granted such leave for more than *two* years during the whole period of his service. No servant is *entitled* to leave without pay

17. Applications for leave, unless they are supported by a proper medical certificate as described in note to Regulation 15 should ordinarily be made at least three months before the date from which leave is applied for.

NOTE. The mere submission of a medical certificate shall not entitle the applicant to avail himself of the leave in anticipation of sanction unless the medical certificate clearly shows that the applicant is utterly unfit to attend to his work.

18. The amount of casual leave granted to an individual in a calendar year shall not exceed 15 days.

19. Casual leave may be taken in one or more instalments, as the applicant desires, but shall not ordinarily exceed 10 days at a time.

20. Casual leave shall not be combined with any other kind of leave, but it may be taken either at the beginning or end of holidays, provided the period of total absence does not exceed 15 days.

21. Servants belonging to the menial establishment may be granted leave under the preceding Regulations only so far as it can be done without imposing any extra cost upon the University. The leave salary of the absentee must not exceed what remains from his pay after provision has been made for efficient discharge of his duties. When the period of leave does not exceed one month in a year and the Registrar is satisfied that the leave is urgently required, extra expenditure up to a limit of half the pay of the post may be incurred.

*If casual leave is taken either between two holidays or both at the beginning and end of holidays the total period of absence shall be treated as leave.

CHAPTER XXXVII

B.—Colleges.

1—AGRA COLLEGE, AGRA.

In 1818 Pandit Ganga Dhar Shastri bequeathed to the East India Company the rents of certain lands in the districts of Aharh and Muttra for the promotion of education. In accordance with the Shastri's Will Agra College was opened in 1823 the endowment then yielding over Rs 22,000 a year. Subsequently Government added to the income and raised the College to its present status.

In 1883, the management was transferred to a Board of Trustees. At the time of the transfer the Trustees made an appeal to the noblemen and gentlemen of the province of Agra and a lakh of rupees was added to the endowment, while the capital of the Scholarship Fund was raised from Rs. 25 000 to Rs. 58,500.

The immediate control of the College is in the hands of a Committee, two of the members of which are officials, the rest nominated by the Trustees.

The College formerly consisted of two departments, viz., the College proper under a Principal, and the School under a Headmaster. But in July 1909, the School Department was handed over to Government by the Trustees in order that they might be free to devote all their resources to the benefit of the College.

The College with its hostels and playing-fields covers an area of 340 Bighas. The College proper is compactly situated on rising ground and consists of a central Arts block, housing also the administrative offices surrounded by five other blocks containing extensive Science laboratories, and the Meyton Hall, a fine assembly hall of good acoustic properties which can comfortably accommodate 800 persons.

The College is recognized by the University of Agra for the instruction of undergraduate and post-graduate students in English, History, Economics, Sanskrit, Hindi, Politics, Arabic, Persian, Philosophy, Mathematics, Chemistry, Physics, Botany, Zoology and Law; and by the Intermediate Board of the United Provinces for Biology, Logic and Drawing, in addition to the above.

In August 1936, there were 1005 students on the rolls

The Library contains some valuable Oriental manuscripts and has been recently reorganised. Books appertaining to Science are housed in the laboratories where they are under the direct supervision of the heads of their respective depart-

ments. The Reading Room is open in the evenings as well as during College hours.

The laboratories are extensive and are well equipped for teaching purposes, and for research.

The interests of the students outside the class-room are partly provided for by dividing them (whether hostellers or day-scholars) into 18 tutorial groups, each under one to three members of the staff. Every new student is allocated to a group and once in a group remains there throughout his College career, so that his tutor has a personal interest in him and is expected to act as his friend and his adviser.

This division into groups is also the basis of organised games and results in very keen competition. There is also a Day Scholars Common Room.

Compulsory Physical Training is being carried out for the benefit of those who do not play games. A simple, open air gymnasium has been installed and the services of a highly qualified whole-time instructor have been secured for this as well as for games and fistic sports.

The College Union, of which membership is compulsory, affords an outlet for the oratorical and histrionic abilities of the students, and a Magazine is published every term.

An Old Boys' Association after being dormant for many years has been revived.

There is a flourishing Staff Club. Although membership is voluntary, practically every member of the Staff joins the Club.

The Agra College Hostels provide accommodation for about 375 students supervised by one Warden, two Assistant Wardens, a Superintendent and twelve graduate monitors. The hostel life is a special feature of the College. The system has long been adopted of giving the students the greatest possible freedom and reducing supervision to the minimum compatible with administrative requirements. The students divide themselves into messes for the engagement of cooks and the purchase, cooking and serving of all their food, the authorities providing utensils and kitchens and medically inspecting the cooks.

The Thomson Hostel was built in 1907 at a cost of Rs. 65,000 of which about half was raised by subscription, the remainder being contributed by Government. It takes 70 students in four double-seated and the remainder in single-seated rooms. For purposes of administration it is divided into three wings, each under a monitor.

The Hewett Hostel was built in 1913 and is similar to the Thomson Hostel. It accommodates 76 students of whom 62 are in single seated rooms.

The Huntley Hostel, at one time an official residence, was purchased in 1917 and prepared for use as a hostel at a cost of

Rs. 28,500 It houses 60 students, mostly in single and double-seated rooms and is under the control of two monitors

The Bishambhar Nath Hostel was built in 1934 It costs Rs. 40,000 half of which was contributed by Government and half by the late Lala Bishambhar Nath in memory of his wife. It accommodates 30 students in single-seated rooms.

There are further three houses converted to the use of students under the shadow of the larger hostels; each is in the immediate charge of a monitor.

In addition to the above there are four caste hostels which though not directly under the control of the College are inhabited almost exclusively by its students and under the charge of members of the staff. These are the Vaish Hostel, Pathak Brindaban Vedic Ashram (commonly known as the Cnaube Hostel), the Bhargava Hostel and the Kayastha Hostel. These, like the College hostels, are adjacent to the College premises and playing-fields, and, though administratively distinct for all practical purposes, form part of the College.

The hostel fees vary from Rs. 2/8 in the case of the smaller hostels, where the students have to provide their own light, up to Rs. 6 in the largest, where electric light and other conveniences are provided; in all cases these figures include Reading Room fee and Medical attendance. Students pay for their own electric light.

The following games are played:—

Football, Hockey, Cricket, Tennis, and Volley-ball. There are two playing-fields and a College lawn, and most of the Hostels possess Tennis-courts. The College team also take part in local and outside Tournaments. Inter-tutorial matches in Football, Hockey and Cricket take place among the 18 tutorial groups. Athletic sports are encouraged. Funds are obtained from a special contribution of annas 12 p m levied on every student.

The Agra and St John's Colleges combine to form two platoons of the University Training Corps ("C" Company 3rd Battalion, A. F. I.), the other member of the Company belonging to Aligarh. At the last Annual Camp the "C" Company won the long Range Shooting Cup, the Annual Musketry Cup, and the Miniature Range Shooting Cup.

The Civil Surgeon of Agra is the ultimate medical authority for the hostels and there is also a Sub-Assistant Surgeon who visits all hostels daily and to whom all sick report. There is a medical inspection of all hostellers soon after the annual reopening of the College and the sight of new students is tested. Servants are inspected at more frequent intervals.

The College fees chargeable are:—

2 ST. JOHN'S COLLEGE, AGRA.

Numbers.—The total number of students in the College is 450, of whom 221 are reading in the University classes and 140 are residing in the College hostels. Through careful restriction in the numbers admitted, we have brought our total enrolment down to what we should regard as the normal total. In the interests of efficient teaching and real College life we hope that we shall be able to maintain this policy.

Women's Hostel.—This year there has been an increase in the number of College women students in the Davies House. The present number being 8 College women students, together with 16 women students of the E. T. C. class. Miss H. Lazarus and Miss Gibbs continue to be Warden and Sub-Warden respectively. There are 9 women day students who are attached to Davies House for games and supervision, and a separate retiring room is provided for women students in the College buildings.

Staff—The College staff now numbers 44 in all, including 12 professors with European qualifications, and there are in addition 12 student tutors and demonstrators. Thirteen members of the staff actually reside in the College premises.

Organisation—The organisation of the Day students continues the same, as last year. They are divided geographically into three circles, and each Circle has its Warden, Sub-Warden and Student Officers. Each Circle is further subdivided into five or six "Segments" to each of which a member of the staff is attached as "Tangent" to keep in touch with the students and to encourage their activities. Careful records are maintained by the Tangents of students in their Segments.

Library.—The number of volumes in the Library, including the separate Science Library, has now reached the total of 13,580. Some 540 volumes have been added since the last year.

The need for more adequate provision for books, particularly for standard works in connection with subjects of post-graduate study, for general reading (especially popular Science) for intermediate students, and for periodicals and journals in Science is still urgent, and cannot be met under present financial conditions.

Research.—Government has continued to award two Research scholarships in chemistry, one to be held by a student of Agra College and one by a St. John's student. This has been a welcome encouragement to the co-operative effort which our two colleges have been making, as well as to the development of research in our own Chemistry Laboratory.

The Zoology department is also continuing its research work and 13 papers have already been published.

The rural Economic research work of the College took a new turn this year when the invitation of the Collector of Agra to co-operate in the Government rural development drive by undertaking supervision or rural uplift in one of the six circles selected for the purpose in Agra district was accepted. The College was given a completely free hand to select its own circle of twelve villages and to determine its own programme of work with the support of all Government Departments.

Mr Dwivedi of the Economics staff camped in the circle from October to December, and Mr and Mrs Puxley from January to March, while a large number of students participated in the work at one time or another. Government has shown recognition of the value of the College's work by a substantial grant for the purchase of tents and camp equipment for use in future years.

A part of the non-recurring grant received from the Government at the end of the 1934-35 session has been used to build an improved transmitter with which research has been undertaken into the problems of Rural broadcasting. A special receiver has been constructed and in conjunction with the transmitter, reception has been tried out in villages around Agra with success.

General Knowledge. We are continuing the regular monthly periods for talks on 'World News' and lectures on General Knowledge given by members of the staff, and all under-graduate students take a paper in General Knowledge at the end of the Rains and Christmas terms.

Results — University Honours In the M. A. Final Examination in English, one of our students, though passing in the Second division stood second in the University.

In the M. Sc. Final Examination, one of our students passed in the First division in Mathematics, standing first in order of Merit and won the Krishna Kumari Gold Medal and two of our students, who passed the M. Sc. Final Examination in Zoology in the Second division, stood first and third in the University.

In the B. Com. Part II Examination, two of our students although passing in the Second division, stood third and fourth in order of Merit in the University.

In the B. Sc. Examination one of our students, passing in the First Division and standing Sixth in order of Merit, won the Srimati Umang Lakshmi Kanti Lal Pardya Gold Medal in Chemistry.

In the B. A. Examination one of our students won the Azizuddin Malcolm Hailey Gold Medal for Persian

The following is the percentage of passes secured.

B. A. 61.6; B. Sc. 62.5; B. Com. Part I, 81.2; B. Com. Part II, 100; Inter Arts 72.0; Inter Sc. 15.2; Inter Com 57.5

Athletics—This year, though our teams were not perhaps as successful as usual, there was a more general spirit of keenness to be seen. In Football, we won the Khandelwal Cup Match. In Sports we won the new Cup in the Triangular Contest between the Medical School, Agra College and St. John's. For the University Sports at Cawnpore there was more practice than before, but partly by due to lack of talents partly to bad luck, we did not put up a very good show.

Inter-hostel games have been carried on with spirit.

Rover Scouts—There has been a further increase in number to 48, and three members of the staff have assisted

University Training Corps.—The College has contributed two officers and 30 men to the half company to which the Agra Detachment is still limited. Local training has continued regularly on the College grounds. The detachment Band did very well in the Camp.

"C" Company again won the coveted Lona Range Cup, the annual Musketry Cup, Inter Platoon Shield, Taluqdar's Cup and several individual prizes in sports.

Social Service League.—The work of the Social Service League continues along the lines mentioned in last year's report.

A second Night School for Harijans has been started. Nine appeared for and passed the examination for First Aid to the Injured. A Home Hygiene class has been started.

The Mark Memorial Institute continues to be a centre for our Social Uplift work. Two rural Service camps were held, one at Akola in Dasehra holidays and the other at Saintha in Christmas holidays, when sports, meetings and lectures were organised.

A Health week was organised from January 24 to January 29, 1936, when a health exhibition, lantern lectures and a Baby Show were arranged for poor people.

3 —MAHARAJA'S COLLEGE, JAIPUR

History.—The Maharaja's College was founded in 1844, by His Highness Saamad-i-Raja-i-Hindustan Raj Rajendra Sri Maharaja Dhiraj Sri Sawai Ram Singhji Sahib Bahadur, G.C.S.I.

The College was recognised upto the Intermediate Standard by the Calcutta University in 1873. It was affiliated to the M A standard of the Calcutta University in 1896. On the creation of the Allahabad University in 1887, the College was also affiliated to the Allahabad University to the B.A. standard in 1888, to the M.A. Standard in 1900, and to the B.Sc. standard in 1905.

On the passing of the Indian Universities Act, 1904, the jurisdiction of the various Universities was defined, and the Maharaja's College, Jaipur, was cut off from the Calcutta University and went completely under the jurisdiction of the Allahabad University in 1904.

In pursuance of the provision of the Agra University Act of 1926, the College passed under the jurisdiction of the Agra University in 1927.

Control—The College is maintained and financed entirely by the Jaipur Darbar, and is managed and controlled by the Education Member of the Council of State.

Building and site—The New College Building stands in its own grounds outside the city and is a magnificent and imposing structure. It is surrounded by extensive playing fields, a botanical garden, a gymnasium and a Gas Plant.

Subjects taught—The Maharaja's College is affiliated to the Agra University upto the M A. and M.Sc. standards, and is recognised by the Rajputana Intermediate Board for the Inter-

mediate Examinations in Arts, Science, and Commerce. The College provides instruction in the following branches of study.—

Hostel.—The Maharaja's College Hostel is located, as a temporary measure, in a rented building, and is situated on Station Road. It is under the supervision of a resident Warden, who is a senior member of the College Staff. It has accommodation for about 50 boarders. The rooms are fitted with electric light, and the students make their own mess arrangements. A monthly rent of Rs. 3 is charged from each student.

Athletics—Every student is encouraged to take part in one or more of the out-door games, for which there is adequate provision.

Medical Inspection—The Medical Officer of the Education Department conducts a medical examination every year of all the students. The result is reported to the guardians and to the Director of Education.

Societies and Association.—The Council of State, Jaipur have sanctioned a recurring grant of Rs. 300, to each of the

History and Science Associations for Historical and Scientific excursions. There are the following associations and societies:—

1. General Assembly
2. Historical Association.
3. Science Association.
4. Hindi Sahitya Samaj.
5. Economic Association.
6. Commerce Association.
7. Dramatic Society.

All the societies continued to function satisfactorily

Library.—The College Library is classified according to the Dewey Decimal system with certain modifications. The Library is divided into Arts and Science sections and contains nearly 8,000 volumes. The annual recurring grant is Rs. 2,100. This year a sum of Rupees 1,130 was spent in addition, on the purchase of books of general interest, Science subjects and reference books.

Laboratories.—The Physics, Chemistry and Biology Laboratories are furnished with up-to-date equipment and apparatus, and are fitted with water taps, gas and electricity. There are spacious lecture theatres for Physics, Chemistry and Biology, and attached to them are a workshop under an experienced Mistry, and a Gas-Plant.

1.—MEERUT COLLEGE, MEERUT.

Introduction.—It was about the last decade of the 19th century that the Meerut College was founded through the liberal efforts of the gentry and the nobility of the Division, who created an endowment for the encouragement of higher education. It was affiliated in Arts in 1892, in Law in 1894, and in Science in 1906 to the Allahabad University. It entered into its career as a first grade college in 1924, when M. A. classes in English and History were started. Since then it has secured affiliation upto M. A. standard in five more subjects: Sanskrit, Persian, Philosophy, Economics and Mathematics. According to the Agr. University Act it retains its Intermediate classes, which it has been running since its very inception. In the Intermediate the once discontinued Commercial Diploma classes were re-started in 1933. The College also maintains a Business Department, which provides special training and grants diplomas for Typewriting, Shorthand and Book-keeping. It runs throughout the year. A special Drawing class has also been opened with a view to train students of the College going up for the Roorkee and other Engineering examinations.

Management and Control.—The general policy of the College is controlled by a Board of Management, consisting of 58 members, ten of whom are *ex officio* and 48 non-official, of whom two are nominated by the Government, one represents the Local

Bodies, and the rest are drawn from among the nobility and gentry of the Division, entitled as First class subscribers.

The immediate control of the College is in the hands of the Executive Committee with Dr Bhupal Singh, B.A., M.B., as its Secretary, and the Principal, Col T. F. O'Donnell, as its Joint Secretary. The Committee consists of 21 members, six of them being *ex-officio* three representing the Donors of Meerut, Saharanpur and Muzaffarnagar districts, and the rest elected by the Board of Management.

Building and Sites.—The College, occupying one of the healthiest sites in the city, stands on its own grounds covering about 63 Bighas in extent. For purposes of playgrounds the College has recently acquired the Victoria Park grounds measuring about 3½ acres. Wire fencing, caretaker's quarters and a pumping set have since been provided therein. A pavilion is under construction. The Building consists of (i) the College, (ii) two bungalows (iii) four quarters for Professors, (iv) the Old Hindu Hostel for 36 boarders, (v) the New Hindu House for 49 boarders, (vi) the New Blocks for 126 boarders, (vii) The Mohammadan Hostel for 76 boarders and (viii) Sir Sita Ram Gymnasium Pavilion and (ix) a Hospital building with a segregation ward, and compounder's quarters. The main college Building consists of two wings, one containing the Arts Block, including the Drawing Room and the other comprising the Science Block, including the Laboratories and the Science Lecture Rooms, with workshops and gas-plants. In the centre of the Arts and the Science Blocks there is the College Hall with the Library in its upper storey. A new Biology Laboratory has been added this year.

Financial Position.—As regards recurring expenditure, our finances, thanks to generous Government grants, are in a satisfactory condition. The present chief sources of income are the Government grant, the fee income, the District Board contributions, interest on investments and other miscellaneous heads of income. The total expenditure for the year 1935-36 was Rs. 1,81,713 0-11 and total income was Rs. 1,81,999-9-3, the opening balance on 1st April 1935 being Rs. 1,072-15-9, thus leaving a balance of Rs. 1,342-8-1 on the 31st March 1936.

The College maintains an efficient staff for the various faculties. In 1933-35 the following were the members of the staff:—

Library.—The College maintains an efficient Library, the total number of volumes amounting to about 16,000. The Library is divided into 33 sections and the books are generally arranged according to the author's name. A printed catalogue is kept upto date, copies of it have been distributed free to the members of the staff, and can also be had by the students on payment of annas 8 only. For locating books, the card index system has also been started. Books are issued on presentation of an Issue slip duly signed and giving the section and the number of the book. In order to secure judicious selection, books on Scientific and technical subjects are issued to students on approval by the professors concerned.

There are departmental Libraries in Physics, Chemistry, Drawing, Biology and Law. Books on these subjects are not kept in the General Library, but in the different departments themselves.

Laboratories.—Both the Laboratories of Physics and Chemistry are fairly well equipped though the space for practical work has fallen short of requirements.

CHEMISTRY.

The Practical Hall can accommodate 36 Intermediate and 24 B. Sc. students at a time, each student working separately. Each seat is provided with a gas and a water tap. Five fume chambers have also been provided. There is also a sufficient stock of chemicals and apparatus. To each student a set of apparatus is given in the beginning of the session, and is returned by him at the end of the session. There are 8 sartorius, 6 Sauters and 12 other chemical balances, with separate rooms for them all. The first are of a very high quality. There are besides 34 charts to demonstrate big chemical processes, 100 samples of natural ores, and a set of wooden models for steric isomerism in organic chemistry.

PHYSICS.

For B Sc students there is a dark room and a Practical hall accommodating 24 students at a time. For Intermediate Practical work there is an enclosed gallery and a small room accommodating in all 35 students at a time. The construction of the New Physics Laboratory has already started and the Laboratory will be shifted to the New Block as soon as the building is completed and equipped with the necessary Furniture and Fittings. The question of erecting a new gas plant to meet the demand of the Physics and Chemistry Laboratories is under consideration and it is hoped that the scheme would materialise in the near future.

There is no dearth of apparatus for the work of the students. Attached to the Laboratory there is an efficient workshop which turns out a fairly large part of the apparatus and attends to almost all the repair work. During the last two years a number of coloured slides on spectroscopy and a number of slides on wireless telegraphy have been obtained. A Radio receiving-set has also been installed.

BIOLOGY

A new Biological Laboratory has been added this year.

Magazine.—The College publishes a magazine, the largest contribution therein being from students. Hindi and Urdu supplements are published annually. The English Annual for 1936 also included a supplement of the College Chronicle. The Chronicle is a brief illustrated history of the college upto 1928 and the supplement published in the annual magazine gives an account of the last eight years.

Association.—The various sections of the College Society worked with zeal and evinced a keen interest for larger intellectual and social activities. The society is run by a General Secretary and Chairman of the various sections, all elected by the staff. They are assisted by the Secretaries of the various sections elected by the students. It comprises the following sections:—

1. *Literary Society.*—Three debates were held during the session, fairly largely attended both by students and the members of the staff. Two students were sent to take part in the Muslim University Debate. The Alakhidari Shield Debate, which is an Annual function of the society and which was held this year on the occasion of the College Annual Day celebrations, was an unqualified success. A large number of students took part in the debate. Many prominent persons from the town graced the function by their presence.
2. *Scientific Society.*—Arranged for short scientific excursions and lectures etc. The library of the society to which about 50 volumes were added continued to be very popular.

3. *Philosophical Society*—Was revived this year in the beginning of the session. Three meetings were held. Papers were read on and discussed. A debate was held and medals were awarded to two best speakers.
4. *Mathematical Association*—A longfelt need was fulfilled this year with the inauguration of the Association on February 27, 1936.
5. *Urdu Association*—Was started during this session. Several meetings were organised in which constitutions of the Association was passed and debates held. The annual function of the Association was held under the presidentship of the Principal, Training College, Muslim University, Aligarh. A debate was held in which the competitors from the Muslim University and from the Colleges in the Punjab and the Agra Universities took part.
6. *Hindi Society*—Had three ordinary meetings, in which papers on various subjects were read, and one special meeting to celebrate the Tulsī Jayanti. The Annual function of the society was held on December 15, 1935, under the presidentship of Mr J. K. Jain of Delhi. An All India debate was held in which competitors from three Universities took part. The Anant Ram Verma Shield was won by the Gurukul University.
7. *Sanskrit Parishad*—The proceedings of the meetings of the Parishad are conducted exclusively in Sanskrit. Six ordinary meetings were held during the session. The Annual function of the Parishad, which was presided over by the Hon'ble Sir Sita Ram, President, U. P. Legislative Council, was a great success.
8. *Law Society*—Organised two lectures. The first lecture was delivered by Mr. Sahani, Principal, Law College, Delhi, and the second by Pt. Pyare Lal Sharma, Advocate Meerut. Both the lectures were interesting, illuminative and instructive.
9. *The Athletic Association*.—The Athletic activities of the College are well co-ordinated under the Association which now controls all the games and runs the Annual sports in the College.
10. *Social Section*.—Arranged for a grand At Home after the Annual Prize Distribution Function and provided comfortable seating arrangements and other facilities during the local Nauchandi Fair.
11. *Freshers' Union*. Weekly meetings were held in which topical subjects were discussed and interesting satires were read. The house was newly organised on a party system each party in turn leading the House for the day. This made the debates lively and systematic.

12. *Old Boys Association* : It carried on various social and athletic activities and throughout maintained an intimate contact with the present generation of the college staff and students.
13. *Professors' Academy* It continued to serve as a platform for discussion of topics of academic interest, as also a means of promoting social life among the professors. Several papers were read on literary subjects, and a Tennis club was run.
14. *Commerce Association* : It arranged for lectures on Commercial subjects by eminent businessmen and economists.
15. *Historical Society* About four History students with one Professor went on a tour to several places of Historical and Archaeological interest.

Residence of Students.—This year there were three Hindu Hostels—the Old House, the New House, and the New Blocks, with a total accommodating capacity of 250 and one Mohamadan Hostel accommodating in all 76 boarders.

Generally the Hostels are run by the students themselves. Hostels are split up into wards and every ward has a Monitor and every Hostel a Senior Monitor. Monitor and Senior Monitors are in charge of general discipline. Cost of living is on the average moderate. Special care is taken to see that the messing charges do not exceed the normal. All the messes are supervised and controlled by a Mess Committee of the Hostellers, who draw up and enforce a Schedule of rations, and regularly check the mess registers with the result that the messing charges have been considerably brought down. All Hostels have their separate Reading Rooms, Debating Societies and Manuscript Magazines. The Libraries of all the Hindu Hostels have been combined into a Central Library and a whole-time library clerk has been appointed for the same.

Games and Physical Training.—The various games—Tennis, Volley-ball, Hockey, Cricket and Football were played with zeal.

Medical Inspection.—The College Medical Officer, who is a qualified hand, attended the resident students and professors. He visited the College almost daily, supervised sanitary arrangements and attended to emergent cases.

A regular record of weight of all the students was kept, and this created a keen competition among them to improve their health.

Discipline—Throughout the year the general tone and discipline of the institution remained excellent. The authorities paid due attention to the intellectual, physical and moral welfare of the students, and attempted to inculcate in them the three great S's namely, Self sacrifice, Self-respect, and Self-confidence; and the students in their turn observed due discipline and remained mannerly. The work of the staff and the managing bodies was

carried on with very great co-operation, mutual goodwill and harmony.

The general and the Academic Tutorial systems both worked with considerable success. The one was responsible for enforcing general discipline among the students and maintaining an intimate contact with them, while the other made it possible for the professors to pay individual attention to the work of the students in their subjects.

5—INDORE CHRISTIAN COLLEGE, INDORE.

This institution is maintained and controlled by the Central India Mission of the United Church of Canada. It was opened in 1884 as a High School, and became affiliated with the University of Calcutta to the intermediate standard in 1888, and the B. A. in 1893. Coming in 1904 under the jurisdiction of the University of Allahabad, it was affiliated in Arts to the B. A. standard in 1905, and to the M. A. in Philosophy in 1910.

Until October 1915, the College was known as the Canadian Mission College, but in that year its name was changed, and it has since been known as the Indore Christian College.

The Mission Council of the Central India Mission of the United Church of Canada is the Governing Board of the College, but, for all purposes of internal administration, the Governing Board delegates its authority to the Local Board which consists of (a) the Principal and Vice Principal *ex-officio*, (b) two elected representatives of the Mission Council who are not members of the College staff, (c) three elected representatives of the College staff, (d) one representative of the Indian Church. The Board has power to co-opt two other members. The Principal of the College is Chairman and Executive Officer of the Board. The Board appoints its own Secretary and Treasurer. The Board deals with all matters of policy, maintains buildings, makes appointments to the staff, and controls the finances of the institution.

In addition to the Local Board there is the Faculty which consists of all the senior teaching members of the staff. It concerns itself with the more strictly academic side of the institution's life and deals with such questions as preparation of time tables, examinations, promotions, discipline, etc.,

Most of the class-rooms, the library, the offices, and the retiring-rooms for lady students are located in the main building. It also contains the Branson Hall, a fine assembly room capable of seating about 450 persons, and a suite of rooms used as a residence by the Vice-Principal. In the building formerly occupied by the Indore Christian Collegiate School, which is in the same compound, there are quarters for the Hostel Warden, recreation rooms, hostel rooms, a sick-room and several class-rooms.

In the same compound there are the Hostels with a resident Superintendent and Assistant Superintendent. Altogether about 125 students can be accommodated in the Hostels. The charge for rooms is as follows:—

Single furnished room, Rs. 3 per month.

Double furnished room, Rs. 2 per month for each occupant.

A fully qualified doctor visits the Hostels regularly and looks after the physical well-being of the students. He also makes a physical examination of all students and advises where treatment is needed.

All Hostel students are required to join one of the Hostel messes, where food is supplied at from Rs. 10 to Rs. 13 per month

The College finances are derived from three sources.

- (a) An annual grant from the United Church of Canada which also pays the salaries of the Canadian members of the staff;
- (b) Donations from Canadian and other sources;
- (c) Fees.

The fees are as follows:

Tuition fees.

1st and 2nd years Rs. 72 per session

3rd „ 4th „ Rs. 96 „ „

All students are required to deposit Rs. 10 as caution money*

M.A. Students pay a tuition fee of Rs. 120 per session

Fees are payable in advance at the opening of each term, but students, if they show sufficient reason, may be permitted to pay their fees by instalments. In that case an additional Re. 1 is charged in each term.

For the Intermediate Examination, the College offers instruction in English, Logic, Economics, Civics, Sanskrit, Mathematics, Indian and European History. For the B. A. Examination, instruction is given in English, Philosophy, Economics, Sanskrit, Mathematics, Indian and European History. M. A. classes are conducted in Philosophy

The Staff consists of the following:

The Library is a large well-lighted room provided with good facilities for study. The books are catalogued according to the Dewey Decimal System. There are about 7,000 volumes in the Library. There is a full-time Librarian, and the Library is open to students for six and a half hours each day.

The College has no regular endowments, but is able nevertheless from gifts and other sources, to present prizes in General Proficiency on the results of the work of each session. A certain number of freeships are also granted to poor and deserving students.

Two term examinations are held during the year, and promotions to the 2nd and 4th years are made on the basis of these and a final examination held at the end of the session. In making promotions term work counts for 50% and the final examination for 50%.

There is a regularly appointed Superintendent of Games, and the athletic activities of the students are managed by a students' committee with a member of the staff as President. Hockey, Football, Cricket, Volleyball, Tennis, Badminton and Ping-Pong are all played. Practically all hostel students take part in games. This is true also of a large number of the day students.

Other organizations maintained by the students are an English Debating Society, the Chandrika Society (Hindi), the Taruna Maharashtra Mandal (Marathi), an Urdu Society, a Sanskrit Society and a Dramatic Association.

The Students' Helping Fund is an organization to which each student has to pay one rupee a session. The money so raised, supplemented by proceeds of dramas, etc., is distributed to poor students.

A magazine, known as "The Bulletin of the Indore Christian College" is published twice during the session. It has both English and vernacular sections. A manuscript Hostel Magazine is also published, and there are Hindi and Marathi manuscript journals.

During the session of 1935-36 there were in attendance 56 in the Third Year and 61 in the Fourth Year.

The Examination results for 1935 were as follows:

	M A. M. A.		B. A. Intermediate.	
	(Previous)	(Final)		
No. appeared	1	2	61	73
No. Passed	1	2	31	43
Percentage of passes	100	100	50.8	58.9

Social service work is carried on in the district known as Chhoti Gwalior and in the Mill area under the auspices of what is known as the "You and I Brotherhood", and good work is done along the lines of education and general enlightenment.

6.—HOLKAR COLLGE, INDORE.

Holkar College was founded in 1891 and is maintained by the Government of His Highness the Maharaja Holkar. Originally it was affiliated to the University of Calcutta, and since the re-organisation of Indian Universities in 1905, to the University of Allahabad. In 1927 it was transferred to the newly constituted University of Agra. At first it taught only up to the B A standard. In 1906 it also started teaching up to the B Sc standard. In 1927 it started M A classes in English and Economics. In 1928 it started LL.B. classes. In 1931 it started M Sc. classes in Chemistry.

The authorities of the College consist of the Darbar of Holkar State and it is directly under the Minister in charge of Education. The internal management is in the hands of the Principal, who is responsible to the Minister for the good administration of the College. The Principal is assisted by a Staff Council consisting of all teaching members of the staff, and Faculties of Arts, Science, and Law, which are subordinate to the Staff Council. The Staff Council is presided over by the Principal and the three Faculties by their respective Deans. Academic matters are managed by the Faculties. The Staff Council also appoints the following Standing Committees: (1) a Library Committee, and (2) a Results Committee, the former for making recommendations regarding matters concerning the Library and the latter for scrutinising the results of the terminal examinations of the College in the light of the rules framed by the Staff Council. There is a Staff Club for the promotion of social intercourse among the members of the Staff.

A Representative Body, consisting of about 50 students, elected by the various classes, helps the Principal in the organisations of social and athletic activities and the maintenance of discipline in the College. It is the constitutional link between the students and the College administration, aiming at their harmonious working, and keeping them generally informed about each other's aims and ideas. Being run on the lines of self-governing institutions, it further provides the students a lesson in practical life and trains them to be useful members of the society in future.

About a mile away from the city and a half mile from the Civil Areas the College buildings stand on an open space on the Agra-Bombay Road. They consist of the main College building flanked on one side by the Science Laboratories. There are four blocks of Hostels with the quarters of the Resident Superintendent who is a senior Professor, and of the Gymnastic Instructor. The Principal lives near the College as also another professor.

The subjects in which and the examination for which the College is recognised are:

M A.	...	English and Economics.
M Sc.	..	Chemistry
LL.B		Previous and Final
B.A	.	English Economics, Philosophy, History, Mathematics, Marathi, Sanskrit, Persian and Hindi.
B.Sc.	..	English, Physics, Chemistry, and Mathematics.

Teaching is actually carried on in all the above subjects, the groups allowed in the College being B A History Paper 1 and II(a) and B A Sanskrit Papers I, II(a) and III. In the Terminal Examinations of the College, a compulsory paper is set in General Knowledge for each of the undergraduate classes.

Effective tutorial instruction is provided for in three of the Arts subjects and in all the Science subjects and the teaching staff has been increased in English for this purpose.

The staff consists of the following

The Library is in charge of a Professor, who works in accordance with the general direction of the Principal. The books are classified on the lines of Dewey System, and catalogued by the card-index method in two cabinets, one subject-wise and the other author-wise. The Library has some special sections, such as (1) the Desai Vernacular Library which is managed by the Gymkhana, (2) the Poor Students' Library, (3) Chemistry Departmental Library, and (4) Economics Seminar Library. The Library is checked twice every session in October and in April, and in the latter month a complete stocktaking is held.

There is Reading Room, which is fully equipped with a large number of foreign periodicals and Indian magazines and newspapers of English and the vernaculars, such as Hindi, Marathi and Urdu.

The total number of volumes in the Library is 9,993 the numbers in the sections being as follows:

English	.. 1,976	Economics	.. 779	Hindi	.. 372
Philosophy	.. 320	Sanskrit	... 671	Law	.. 863
General	.. 798	Marathi	... 455	History	.. 1,981
Persian	.. 206	Natural Sc	... 1,272	(Physics, Mathematics, Chemistry).	

The number of books in the Desai Vernacular Library is 1,484.

The number of books in the Poor Students' Library is 650.

The College owns a nice collection of coins.

Physics Laboratory.—The Laboratory and the lecture room are housed in a separate building which consists of two storeys. The laboratory consists of two working rooms and a dark room for experiments in spectroscopy, galvanometers and optical benches, etc. Adjoining the lecture room is a demonstration room. The dark room can accommodate 6 students at a time and the two other working rooms can accommodate 25 students at a time.

Chemistry Laboratory.—The laboratory is housed in a two-storeyed building. On the ground floor are (1) a practical room with working benches for 24 students, (2) another practical room with working space for 8 students, (3) a balance room for Intermediate students, (4) a balance room for B Sc students, (5) a room for combustion, distillation, etc. as part of advanced work and (6) a professor's room with two working benches. On the first floor are (1) a lecture room, (2) another practical room, (3) Library room, and (4) a store room.

The College has secured a petrol gas plant which will meet the increasing demand on gas, which is at present being generated by two Mansfield's oil gas plants. This plant is housed in a separate shed adjoining the gas house.

The following papers have been published from the Chemistry Laboratory:

- (1) Synthesis of 2:6 diethyl 4 pyrone and of 2:6 di-n propyl 4 pyrone.
- (2) Synthesis and structure of dipropionyl acetone and of di-n-butryl acetone.
- (3) Reactivity of Carbonyl group in pyrone and in pyrones.
- (4) The concept of critical increment and Radiation hypothesis.
- (5) Limit of Variation of the relation between Intensity and Velocity of Photo-Chemical reactions
- (6) Mechanism der Zersetzung Komplexer oxalate in Licht

The College published a magazine twice a year. It is managed by the students under the supervision of the Principal.

There is an Economics Seminar of study in the College and a Historical Association under the charge of Professors of Economics and History respectively

The College Gymkhana is conducted by the students under the general supervision and control of the Principal. It spends about Rs. 9,000 a year. The departments under the Gymkhana are: Reading Room, Vernacular Library, Debates, Literary Society, Poor Students' Library, Co-operative Society, Scouting, Games, Gymnasium and Indian Akhada, Magazine, Urdu-Bazam-i-Adab, Dramatic and Musical Associations.

There are four blocks of hostels within the College premises directly under the supervision and control of the Superintendent. They accommodate about 80 boarders. One messing club is run under the control of the Superintendent and the boarders are allowed to run their own messing clubs if they like. The College charges Rs 2/8 per month for each room and its furniture, and the actual amount for the electric current consumed by the hostels. The messing charge varies according to the expenditure and is between Rs. 10 and Rs. 12

The Superintendent is in charge of discipline and maintenance of order in the hostels. He is helped by four prefects who are senior students appointed by him. The Superintendent personally takes the roll call every evening at 8-30 p. m., when all the boarders must be present except those on leave.

The College provides regular games in tennis, football, volleyball, hockey, cricket, carrom, ping-pong, and chess. All under graduate students have to play compulsorily on the College grounds one of the team-games, such as football volleyball, cricket and hockey thrice a week under the supervision of a member of the staff. Those who are in the first and second elevens play every day. Besides tennis is played regularly in the College. Two tournaments are annually held and large number of prizes given away. Students of the College also take part in outside tournaments, and teams are sent out annually in charge of a senior professor, to have experience of games in other places.

For boarders, attendance at the gymnasium is compulsory early in the morning. The Senior Assistant Surgeon is paid an allowance and visits the College whenever called and looks after the sanitation in the College premises. There is a small dispensary in the College which is daily attended by a paid compounder.

Beside the hostels, the College authorities have rented a two-storeyed house in the immediate vicinity of the College which accommodates 40 students. The inmates live under the general supervision of the Superintendent of the hostels.

The general demand for hostel accommodation is moderate as 565 out of 648 students on the roll are subjects of Holkar State and the guardians of most of them are residents of Indore.

The monthly tuition fees charged in the College are Rs. 7 for B.A. class, Rs. 9 for B.Sc. and M.A. classes, Rs. 11 for M.Sc., Rs. 10 for LL.B. Previous and Rs. 12 for Final LL.B. class. They are realised quarterly.

There are four kinds of scholarships awarded in the College all out of State funds. A sum of Rs. 950 is given away as competitive scholarship on the result of examinations and good conduct. About Rs. 1,600 is annually spent as Educational Uplift Scholarships to backward classes. Free studentship is allowed up to a maximum of 10 per cent of the number of students in the College. No free studentship and merit scholarships are available for post-graduate study. In each of the undergraduate classes the student who obtains the highest number of marks in all the College examinations in the two years' course in any subject is awarded a prize for each subject in each course of study. An essay writing competition is held annually and two prizes, one for the student of the Intermediate classes, and the other for those of the B.A. and B.Sc. classes, are given to the two best candidates. A medal called the Maharaja Shivaji Rao Medal is awarded to the senior B.A. or B.Sc. student who is considered to be the best all-round student in the College. A gold medal called Kedareswar Medal presented by the late Mr. K. B. Sen Roy in memory of his son is awarded to the student who stands first from the College at the B.A. Examination and reads for the M.A. course. Two prizes known as Cholmondeley Prizes are awarded to the students who stand first in the B.A. and the Intermediate Examinations from the College and another prize called Cholmondeley Prize is also awarded to the best all-round sportsman of the session. Six scholarships, of Rs. 5 each known as Col Tara Singh Scholarships, are awarded to poor and deserving students of the College.

Examination Results.—The results of the various University Examinations of 1935 are as follows:

Name of Examination.	Appeared.	Passed.
B.A. ...	70	46
B.Sc. ...	17	8
Previous LL.B. ..	79	47
Final LL.B. ...	47	39
M.A. Previous English ...	7	3
M.A. Previous Economics...	6	5
M.A. Final English ..	5	3
M.A. Final Economics
M.Sc. Previous Chemistry ..	4	2
M.Sc. Final Chemistry ...	2	2

In B.A. the first place in the University was secured by a student of the College.

7.—SANTANA DHARMA COLLEGE, CAWNPORE

The college had 466 students on its rolls during the year 1935-36 as against 424 in the previous year which were distributed among the various classes as follows. —

<i>M. A.</i>	<i>B. A.</i>	<i>LL. B.</i>	<i>B. Com.</i>	<i>Inter. in Commerce</i>
34	41	79	61	196

Staff.—No addition to the teaching staff was made during the year. Messrs. Autar Singh Upla, M. A., B. Com., and Satya Narain Pande, M. A., were, however, appointed part-time lecturers in Commerce and Hindi respectively to supplement the work of the permanent staff during the year 1935-36.

Games and Sports.—Prof. L. C. Tandon continued to be incharge of the College Games and Sports. The students of the college took part in the various tournaments—University and Inter-collegiate—and won several positions and medals. Boating in the college is a special feature of this institution. The pavilion whose construction began last year was completed during this year and well furnished. Students are daily seen taking various kinds of physical exercises in the evening at the College Pavilion which has, in fact, become the centre of the athletic activities of the college. The work of improving the college playgrounds has been taken in hand and it is expected that we shall be able to add to the number of existing playgrounds before long.

Examination Results.—As usual, our results at the various University and Board Examinations continued to be very satisfactory. The first position in the M. A. Final Examination in Hindi was secured by a student of this college while the 2nd position in the B. Com. Examination in the University was won by a student of ours. Besides, our students in the Intermediate Examinations fared well and secured distinctions in several subjects. The percentage of passes in the Board and University Examinations was higher than that of the Board and the University.

Hostels.—The College Hostels were looked after by Mr. Ganga Ram Talwar, M. A. (Prev.), B. Com., LL.B. Assistant Warden who worked under the guidance of the Principal who resides in the College compound and visits the Hostels very often. Dr. N. Man Singh, M.B., B.S., Medical Officer of Health of the College continued to be incharge of the College Dispensary which is being run in the hostel for the benefit of the hostellers. It is gratifying to note that the health of the students during the period under report has been excellent. There has been addition to the indoor games provided in the Common Room of the Hostels. The special feature of the year has been the holding of a tournament of the indoor games in the Hostel by the hostellers. Prizes were given away by the

Principal and light refreshment was served to the players and guests. Discipline continued to be satisfactory.

Scholarships and Prizes—The Principal secured special donations from the gentry of Cawnpore and moffasl and awarded stipends to a very large number of students. More than 110 students got financial help. Government and University merit scholarships continued to be enjoyed by the students of this college.

Extra-Academic Activities—The various literary and social associations of the college viz S. D. College Union, S. D. C. Literary Association, S. D. C. Law Association, S. D. C. Kumar Sabha, B. N. Historical Association, Hindi and San-krit Association, etc., continued their activities. This year witnessed the holding of a Provincial Debate under the auspices of the S. D. College Literary Association which was done in memory of our late lamented Swami Dayanandji, Visitor of the College. The debate was a grand success and different colleges of the Provinces took part in it. The prizes were given away by Mr. D. P. Khaitan of Calcutta. Mr. D. P. Mehrotra, who is the patron and the founder of the S. D. C. Literary Association and who represents the Principal on the Union continued to take active interest in this Association as well in the College Union.

Library and Museum.—Our Library has grown very big and there is hardly any place left in it for the location of any more almirahs in it. A scheme for extension or construction of a separate library is under consideration of the Management. There are at present about 8,000 volumes in the library, the value of which is more than Rs. 34,000. The number of dailies and magazines in the library was increased during the year under report and it is gratifying to note that some generous editors of papers have kindly promised to give their issues free to the Library. In this connection the name of S. Mangal Singh, M. A., B. Com., Editor of the Khalsa Review, Lahore and a product of this institution is worth mentioning. Prof. L. C. Tandon continued to remain incharge of the Library throughout the year and take a lively interest in its management. S. Autar Singh, M. A., B. Com., continued to be the College Librarian.

Mr. B. P. Gupta continued to be the Curator of the Museum.

College Finances.—The finances of the college continued to be satisfactory. Deputations were sent out by the College Management led by the Principal himself and donations were collected to strengthen the maintenance fund of the college. The Government granted a recurring grant of Rs. 33,900 during the year under report. A non-recurring grant of Rs. 1,600 was sanctioned by the Government for the purchase of typewriters.

8.—BAREILLY COLLEGE, BAREILLY.

History of the College.—This College had its origin in a Government School which was established in Bareilly in 1837, and in 1850 was raised to the status of a Government College. During the mutiny of 1857, the buildings were badly damaged and the College was re-opened in 1858. In 1876, the College was abolished, but was re-opened in 1883 in the form of College classes attached to the Bareilly High School. Its existence was again threatened in 1902, but a fresh endowment raised by subscriptions and supplemented by liberal grants from Government enabled the College to become an independent institution. In 1906, it was transferred to the present buildings which were erected on a site presented by His Highness the Late Nawab of Rampur and opened on 17th July 1906, by Sir James John Digges LaTouche, K C S I., Lieutenant-Governor of the United Provinces of Agra and Oudh.

The College was affiliated to the University of Calcutta until 1887, and to the University of Allahabad until 1927, when it passed under the jurisdiction of the newly incorporated University of Agra.

Throughout its long history, this college has received generous assistance, not only from Government, but also from public-spirited people of Rohilkhand, Kumaon and other parts of India. Among the original subscribers to the College Fund were the Most Hon'ble the Marquis of Ripon, K. G., A. O. Hume, Esqr., H. H. the Maharaja of Garhwal, His Highness the Nawab of Rampur, Raja Madhava Rao Venayak Peshwa Raja Kalka Prasad Misra, Raja Jai Kissen Dass, C.S.I., of Moradabad, Raja Jagat Singh of Jaipur, Munshi Newal Kishore C.I.E., of Lucknow, Maharam Swarnamayee C.I. of Kasim Bazar, Murshidabad, and others. When the College was moved to its present site, the Endowment Fund was increased and handsome donations were received from Raja Kishan Kumar of Moradabad, Rai Sheo Balkish Rai Bahadur of Lakhimpur Kheri-Oudh, and Rani Narain Kuer of Amroha. In 1928, Srimati Ganga Devi and Sharma Devi Sahibas generously contributed Rs. 20,000 for the erection of the Brij Mohan Lal Memorial Science Block. In 1930-31, Rani Mahalakshmi Bai of Lakhta Etawah, Lt Raja Kali Charan Misra, and Khan Bahadur Sirdar Mohammad Rahimdad Khan of Bareilly and others made a liberal contribution towards the construction of the New Block.

Constitution.—The general control of the College is vested in a Board of Control, having the Commissioner of the Rohilkhand Division as President and consisting of 50 members, 5 of whom are *ex-officio* and the rest drawn from among the noblemen and gentlemen of the Division who have subscribed not less than Rs. 100 to the College Fund. The Executive Management is in the hands of a Managing Committee of 15 members, 3 of whom are *ex-officio*, and the rest elected from the Board of Control for a term of three years.

Financial position.—The financial position of the College, due to the generous Government grant, is stable. The Endowment Fund now amounts to Rs. 2,98,300 and the Permanent

Scholarships, Medals and Prizes Fund to Rs 17,100. The main sources of income are.

- (a) Government Grants,
- (b) Endowments vested with the Treasurer, Chaitable Endowments, Allahabad
- (c) Contributions by District and Municipal Boards.
- (d) Fees.

Buildings.—The College is well situated in a very pleasant and healthy locality. The main building is a handsome edifice consisting of a central Hall, Staff Common Room and the Union Office, flanked on either side by class rooms. Adjacent to it, there are six separate blocks:—

1. The Library Hall with eight spacious class rooms
2. The Principal's Office, Principal's class room and the College Office.
3. The Physics Laboratory and Lecture Theatre.
4. The Brijmohan Lal Memorial Science Block, consisting of the Chemistry Laboratory, Lecture Theatre and Balance Room.
5. The College Hostel with annexes.
6. The Nethercole Pavilion consisting of 3 rooms and a deep verandah.

These buildings, as well as the Principal's and the Vice-Principal's Bungalows and the Quarters of the Hostel Superintendent, are contained within extensive and beautiful gardens and grounds with good playing-fields and lawn Tennis and Badminton Courts, covering an area of 3½ acres

Subjects taught—(a) *University Section*—Students are prepared for the following University Examinations. —

1. M.A. in English, Mathematics, Economics and Hindi.
2. M.Sc. in Mathematics.
3. LL.B —All subjects.
4. B.A. in English, Economics, History, Philosophy, Urdu, Hindi, Persian and Mathematics.
5. B.Sc. in English, Physics, Chemistry and Mathematics.

(b) *Intermediate Section*—The College prepares candidates for the Examinations of the Intermediate Board, U. P., in the following.—

1. Intermediate Arts—English, History, Economics, Logic, Mathematics, Persian, Sanskrit, Urdu and Hindi
2. Intermediate Science—English, Physics, Chemistry, Mathematics and Economics.

3. Intermediate Commerce—English, Book-keeping and Accountancy, Business Methods and Correspondence, Elementary Economics and Commercial Geography, Stenotyping and Elements of Banking.

Staff.—The Staff is at present constituted as follows.—

Principal,

- A. C. Dutt, M.A. (Allahabad and Lucknow), M.R.A.S. (England), F.R.S.A. (London).

Library.—The College has a well equipped Library containing more than 10,000 Volumes. In 1935-36, the sum of Rs. 3118-0-8, was spent on the purchase of new books and journals. The Library has been re-catalogued according to the modified Dewey Decimal System.

Laboratories.—The Physics and Chemistry Laboratories are well-equipped and afford ample accommodation. The annual expenditure is over Rs. 2,500. In each laboratory there is sufficient bench accommodation for 32 Intermediate and 20 B Sc students to work at a time.

Magazine.—The College Magazine has been remodelled and is now published thrice in each session. Its aim is to reflect the life of the College. A member of the Staff is Editor-in-Chief and he is assisted by an Editorial Board of teachers and a student Editor.

Associations.—The Academic Council consists of Senior members of the Staff. It discusses topics of academic and administrative interest to the institution and acts as an Advisory Board to the Principal. The students of the College are learning valuable lessons in organization and responsibility by running societies, and to an increasing extent by managing their own affairs. The following societies function satisfactorily.—The English, Scientific, Economics, Philosophical and the Historical Societies, the Law Association, the Hindu Piacharini Sabha, the Anjuman Tarraqi-e-Urdu and the College Union. In 1935-36, the College Union staged a play in aid of the Poor Student's Fund and a profit of over Rs. 400 was made. It conducts College and Divisional Debates, and sends out representatives to compete in Inter-Collegiate Debates. Under the auspices, a Social Service League has been formed which is doing useful work in running night classes for poor boys of the vicinity, for conducting "First Aid to the Injured" classes, maintaining an Infirmary Section, forming a Unit of St John Ambulance Brigade and undertaking the rural uplift scheme for the betterment of village life. Its S. P. C. A. work has not been very encouraging. The Old Boys' Association with a membership of over 200 is in a flourishing condition.

Hostel.—The College Hostel consists of both single and double rooms, a Common Room, and a Mohammadan Dining Room, and has accommodation for 80 students. A Mohammadan contractor caters for Mohammadan students, at the rate of Rs. 12 per messman for each student, while Hindu students make their own messing arrangements the Hostel providing utensils, as far as possible. Every provision is made for separate messes for members of different castes. The messing charges vary from Rs. 10 to Rs. 12. Since 1934-35, several Moslem Boarders have

formed a mess of their own which is rather economical but not very steady in existence.

The Hostel is under the personal charge of a Resident Warden, assisted by two monitors, and under the direct supervision of the Principal. The general health of the Hostel has been good and the discipline maintained has been satisfactory. A qualified medical officer visits the Hostel daily.

Games—The College has three playing fields, for Hockey, Cricket and Football, nine hard and four grass tennis courts, all in the College compound. The management of games is in the hands of a member of the staff and considerable interest is taken in Hockey, Football, Cricket, Volley-ball, Tennis and Badminton. Games are compulsory for First and Third Year students and Hostellers. An open air Gymnasium has been constructed. The Staff Club, where Members of the staff meet for recreation after Tennis, Badminton and Volley-ball is in a very flourishing condition. The College has been anxious to raise a platoon of the University Training Corps, and information has been received that the formation of a platoon at Bareilly College has been included in the re-organization scheme of the U. T. C. which cannot be sanctioned at present owing to lack of funds.

Medical Inspection.—All the Hostellers and the mess servants are examined thrice in the year by the Medical Officer attached to the Hostel and a regular register is maintained.

Fees.—The College and the Hostel charges are as follows—

The College has a well-established Library containing over 9,150 volumes and considerable additions are being made during the current year. There is also a Reading Room for which we get nearly all well-known periodicals on literary and scientific subjects. It also has well equipped Laboratories for Physics, Chemistry and Biology.

Since October 1928, the College is publishing a Magazine of its own. At present it is published only thrice a Session, but we hope soon to make it a quarterly journal.

The College has several institutions such as the College Union, Dramatic Club, Sanskrit Literary Society, History Seminar, Bazma-i-Idab, the English Literary Club and the Hostel Association, which provide many interesting literary and social activities. The College holds all the three championship trophies of the Rajputana Inter-College Tournament.

Hostel.—Attached to the College is the spacious and comfortable hostel in two blocks having accommodation for about 70 students. The bouders are supervised by one of the senior members of the Staff, who resides in the Hostel. The average cost for living in the Hostel is Rs. 180 per student per session.

The Hostel is visited by the Government Additional Civil Surgeon and Senior Assistant Surgeon and the health of the boarders is carefully watched. A record is also maintained of the periodical medical examination of students.

Games.—Games are compulsory for all students, and they play Hockey, Football, Cricket, Volley-ball and Tennis. The College also maintains a Troop of Rover Scouts.

Fees.—The tuition fee is Rs 10 per mensem for the degree students (charged for 10 months only) excluding recreation and Reading Room fees which are Re. 1 and annas 4 respectively per month.

Scholarships.—There are about 6 scholarships of the values varying from Rs 1 to Rs. 10 per month tenable in degree classes, and in addition to these, free and half-freeships are allowed in deserving cases, according to the U. P. Educational Code. The scholarships are paid from Endowment Funds only.

Endowment.—The income from endowments is Rs. 1,947 annually.

10.—DAYANAND ANGLO-VEDIC COLLEGE, CAWNPORE.

The College was founded in the year 1919 by the D. A -V. College Trust and Management Society, U. P., in memory of the late Swami Dayanand Saraswati, founder of the Arya Samaj movement and the great social and religious reformer of the 19th century. The College is Catholic in its character and is open to students of every race and creed.

General.—Special features of the College are the following:—

1. Religious and moral instruction in accordance with the broad principles of Vedic Theology is given in addition to the secular education required for the various University and Intermediate Board Examinations.

2. Students are brought in close personal touch with their professors, who not only supervise their studies but also see that they make proper use of their opportunity to develop a good moral character.

3. Simple living and high thinking is the guiding principle for all who work in the College, as professors or as students.

The ultimate control of the College is vested in the D. A. V. College Trust and Management Society. The Society is assisted by a Managing Committee and a local Executive Committee. The sources of income are. (a) Government Grant, (b) Fees, (c) Donations and Subscriptions, (d) Interest on endowments.

The College is situated in the Civil Lines, near the District Courts. The College building is now practically completed; only finishing touches remain to be given. The building comprises two blocks—(1) Main Block, consisting of a Central Hall 72' x 57', twenty lecture rooms and a few smaller rooms; (2) Science Blocks consisting of six rooms (30' x 36'), four of them at present used for practical work; 4 rooms 20' x 30' and six smaller rooms. The College Hostel is situated quite near the College, just across a road, and provides accommodation for about 200 students.

Subjects taught.—The College comprises four departments.—(a) Arts, (b) Science, (c) Commerce and (d) Law. The Intermediate classes attached to the College are recognised as an Intermediate College by the Board of High School and Intermediate Education, U. P., and prepares students for Intermediate examinations in Arts, Science and Commerce, conducted by the Board. The post-Intermediate classes prepare candidates for the following examinations of the University.—

M. A. Examination	Economics and Philosophy
LL. B. Examination ..	All subjects prescribed by the University.
B. A. Examination. . . .	English, Mathematics, Sanskrit, History, Economics, Hindi, Philosophy, and Politics.

Number of Students—The number of students in the post-graduate and Degree classes at the end of the academic year 1935-36 was as follows:—

Arts 147, Science 54, Commerce 63, Law 94.

Libraries, Laboratories, etc—The College Library contains more than six thousand volumes. It is not a large collection, but considering the fact that the Library has been built up only during the last sixteen years, the number of books is not inconsiderable. So far as quality is concerned, the collection is quite good inasmuch as the books are largely recent standard books. The laboratories provide ample accommodation for practical work in Physics and Chemistry upto the B. Sc. standard and are well equipped. There is no provision for research. An economic museum may soon be established. The College maintains a Magazine in English, which has also a section in Hindi. It is issued three times a year. The following associations are maintained in the College:—

- 1 The College Union
- 2 The College Legislative Assembly.
- 3 Historical Association
4. Economic Association.
- 5 Philosophical Association.
- 6 Science Association.
- 7 Commerce Union.
- 8 Hindi Sahitya Samiti

Hostel.—The College Hostel is situated quite near the College and provides accommodation for about 300 students. Professor Kalka Prasad, M.A., resides on the premises and acts as the Warden. A whole-time compounder is engaged and a Medical Officer visits the Hostel daily. There is no provision for Military Training of students. The College has been endeavouring to secure the establishment of U. T. C. at Cawnpore, but so far all efforts have failed. The cost of living naturally varies from student to student but the average is probably Rs. 30 a month.

Fees.—The following tuition fees are charged:—

	Rs.
M. A.	8
LL. B. Previous	8
LL. B. Final	10
Degree Classes	7/8

Every student pays Rs. 1 a month for Reading Room, Sports and completion of College Buildings. Hostel Fee for resident students is Rs. 4-12 for a single seated cubicle and Rs. 3-12 for other seats. This includes charge for electric light also.

Scholarships and Stipends.—The Scholarships and stipends current during the year for Degree and Post Graduate classes were as follows:—

Name of Scholarship.	No.	Value.
1. Agra University Scholarship	1	30
2. Government Scholarships and Stipends	8	156
3. Government Kumaon Centenary Scholarship	1	30
4. Garhwal Kahatriya Scholarship	2	24

Physical Exercises and Games.—Provision is made for physical exercises. The College maintains Football, Cricket Hockey, Volley-Ball and Tennis teams. Basket Ball, Badminton and Indian Games are also played. There is also a Boating and Swimming club attached to the College. Games and Sports are managed by a Sports Committee, which has on it representatives of the staff and the students. The Principal, is the President and Professor Rajhunnath Sahai Saksena, M. A., B. Com., the Secretary of the Committee.

11.—VICTORIA COLLEGE, GWALIOR.

This institution is supported entirely by the Gwalior Durbar and is under the control of the Inspector-General of Education of the Gwalior State.

The College Building is a fine one, situated in an open space just outside the town of Lushkar. Attached to the College are a Gymnasium, a good Library, a well equipped Laboratory and suitable playing fields.

On admission to the College, every student undertakes that while a member of the College, he will take no active part in politics.

12.—ST. ANDREW'S COLLEGE, GORAKHPUR.

Foundation and History of the College: The College was founded by the Church Missionary Society in 1899, and the first classes (for Intermediate students) were held in a building near the site occupied by the St. Andrew's School. The College was moved to its present site in 1914 by Dr. Garfield Williams, now Dean of Manchester, who was then Principal of the College, and who raised the College to the B. A. standard. The Science block and the Hostel were added during the Principalship of the Revd. A. C. Pelly (1916-34).

On May 1st 1934, the Church Missionary Society handed over the management of the College to the National Missionary Society of India, at a nominal rent, in the first place for an experimental period of 3 years

Management : The College is at present under the management of a Governing Body appointed by the National Missionary Society of India which also appoints the Principal. The Governing Body consists of 17 members, and includes educationalists, local residents of Gorakhpur and members of the teaching staff, and comprises both Christians and non-Christians. This body meets at least once a year, and considers and passes the budget. Its proceedings are reported to the National Missionary Society.

The Principal has authority to make and terminate appointments to the staff, subject to the confirmation by the Governing Body.

Staff : During the first two years after the taking over the College by the National Missionary Society, the majority of the old members of the staff were retained provisionally, until May 1936; and the present Governing Body has now resolved that all the members of the staff who held permanent appointments under the Church Missionary Society will be confirmed under permanent agreements with effect from July 1936. The old Provident Fund of the teaching staff, which had been formed under the C. M. S., has been continued by N. M. S., under the same rules. Each member contributes at the rate of -/1/- in the rupee, and the College contributes at the same rate.

There are no Leave Rules; each case is considered on its own merits.

Finance : The only endowments are :

- (1) College Reserve Fund, which stands at present (July 1936) at Rs 6,689, and is placed on fixed deposit and current account with the Allahabad Bank.
- (2) The Auxiliary Fund, into which special donations etc. are credited, and from which special expenses not covered by the budget for the year are met. This fund also is placed with the Allahabad Bank.

During the past year the College received Rs. 35,508 from fees and other private sources, and Rs. 29,210 from grants from the Government

Site, Building etc The College stands in a large plot of ground in the Notified Area, centrally situated near the Post and Telegraph Office. At one end is the English Church and next to it the Principal's bungalow. At the other end is the Arts College flanked on one side by the hall, on the other by the Science Laboratories. Between the college and the Principal's Bungalow is ample room for several playing fields, but space is actually available for one Hockey field only, the arrangement of several existing bungalows breaking up the otherwise available space. The presence of these bungalows, however makes it possible for almost half the members of the staff to live actually in the college precincts.

The buildings are well-suited for a small college. The laboratories for Intermediate Physics, Chemistry and Biology are excellently designed, and could, with very little extra cost, be made available for B. Sc. work.

The library, which is on the upper floor, is surrounded by 6 small rooms which are designed for tutorial work, the intention being that the teacher should keep the books in his own subject in his class-room and also have immediate access to the main library.

There is a staff room, and a special room set apart for the use of the Union Society.

The Hostel was enlarged in 1935, and now accommodates 30 students and has quarters for the Resident Warden and Sub-Warden, and a large Common Room. Three of the rooms are three-seated, and the remainder single-seated. The kitchens and bathrooms were built in 1933, and are exceptionally well appointed.

Electric Light was installed in the Hostel in June 1936.

Students: (i) *College Societies.* There is a College Union Society for promoting debates, social service, reading room and other social activities. All the students are members of the Union Society.

There are also informal associations in connection with Science, Literature, Sanskrit, Philosophy, etc.

(ii) *The College Athletics* are under the supervision of four members of the staff, and as far as possible all students are encouraged to take part in the games, or physical training. The playing field, tennis courts, etc., on the College compound enable all the students who desire to take part in games to do so daily.

(iii) *Medical inspection.* The local health officer inspects the College once a term and gives advice to the students as to care of eyes, teeth, etc.

(iv) *The Hostel* is under the management of the Warden, with the assistance of the Sub-warden.

(v) *Supervision of day students.* All the Intermediate students are divided into small groups for tutorial work in English and the tutors-in-charge of these groups are asked to make themselves acquainted as far as possible with the personal needs of the students in their group.

Administration: There are two office clerks and one Library clerk. The registers are kept according to the requirements of the Intermediate Board and the University of Agra. A record book is kept in which notes are made regarding the work of each student by the professors and Principal, including references to participation in games, social activities, etc. Reports are issued to parents and guardians when any special occasion requires.

New methods of keeping the College Cash books and stock books have been brought into operation during the present year,

in accordance with the recommendations of the Government Auditors.

13—CHRIST CHURCH COLLEGE, CAWNPORE.

History.—This College was founded in 1899 by the late Bishop G. H. Westcott, M.A., D.D., who became its first Principal. College classes were, at the outset, held in the High School building. In 1896 the College was affiliated to the University of Allahabad up to the B. A. standard and a separate building which became the nucleus of the present College building was erected a year later. M. A. classes were opened in 1899. The College also maintained law classes for some years. In pursuance of the educational policy embodied in the Intermediate Education Act of 1921, and the Allahabad University Act of 1921, the College discontinued its degree classes and became an Intermediate College in 1923. When proposals for the re-establishment in the Province of an affiliating University began to be mooted, the College decided to revert to its former status of a combined Degree and Intermediate College. Permission to reopen B. A. classes was obtained from the Allahabad University, and in July 1926 a First Year B. A. class was formed.

Additions have been made from time to time to the main building. In 1908 a Science Lecture Room and Physical and Chemical laboratories were built. In 1911 the Reading Room was enlarged and converted into a library. The College hall was enlarged and refurnished in 1916. A Retiring Room for women students was provided, in 1931, and a Common Room for men students was built in 1934.

Management, etc.—The College is under the general control of the Lucknow Diocesan Board of Missions and a Governing Body, of which the Right Reverend the Lord Bishop of Lucknow is *ex-officio* Chairman. The expenses of the College are met from fees, Government grant and contributions made by the Society for the Propagation of the Gospel. The total recurring expenditure estimated for 1935-36 is Rs. 87,014.

Instruction.—The College is recognised for the Intermediate Examination in Arts and Sciences by the Board of High School and Intermediate Education, U. P., and affiliated to the University of Agra up to the B. A. standard, up to the M. A. and M. Sc. standards in Mathematics and up to the M. A. standard in Political Science. For the B. A. Examination instruction is given in English, Philosophy, History, Economics, Mathematics, Political Science, Hindi and Persian. Care is taken not to let the classes grow too big, for a special point is made in this College of allowing individual attention and great importance is attached to written work. Upon entering College every student is assigned to the special care of a member of the staff who acts as his tutor and guide. Every class up to the B. A. standard is given the benefit of reading at least some English with an English member of the staff.

Library—The College has a good library consisting of about 7,000 volumes, and there is also a regular supply of select newspapers and journals. The Library is in charge of a member of the staff who is assisted by a whole-time librarian. Books have been catalogued and indexed on the Dewey system.

Hostel.—The College Hostel is composed of four courts. There is accommodation for 75 students and for four members of the staff. Most of the rooms are single. The monthly fee (Rs. 6, 5 or 4 according to the room occupied) covers charges for electric light, necessary furniture, servants and medical attendance.

Playgrounds and Athletics.—There are extensive playgrounds both in the College compound and behind the Queen's Park. Facilities are provided for the following games and sports: Cricket, Football, Hockey, Volley-ball, Swimming and Rowing. Physical training is given under the direction of a competent member of the staff, and a gymnasium has been provided.

Literary and Social Activities.—The College Institute organises the social side of College life. All present members of the College and such old students as like to join are members of the Institute. An Annual Dinner and occasional social gatherings are arranged by the Institute.

Fortnightly debates are held under the auspices of the College Parliament which provides students with a training ground in the art of Public Speaking.

The Historical and Economic Society encourages the study of sociological subjects, while the study and development of the Vernaculars is promoted by the Bazm-i-Urdu and the Hindi Sahitya Parishad. There is also a Mathematical Society.

Prizes and Scholarships.—Prizes for general good work are awarded in each class annually. There are endowments for the award of a Persian Prize and an Athletic Championship Cup. Six scholarships of the total value of about Rs. 50 per month are awarded to poor and meritorious students at the discretion of the Principal.

Examination Results—Forty-five candidates appeared at the B A Examination in 1935. Of these thirty-two passed, sixteen being placed in the Second Division. Three students were awarded University Scholarships, standing 4th, 6th and 7th in the University. One of the latter was also awarded the University Gold Medal for scoring the largest number of marks in English.

In the M. A. Previous Examination in Political Science nine candidates appeared and eight passed, and in the Final M. A. Examination in this subject two candidates appeared and one passed. In the M. A. and M.Sc. Examinations in Mathematics four candidates passed the Previous Examination out of the five who appeared, while one of the two candidates who appeared at the Final Examination was successful.

Library.--There are 7345 volumes in the library. About rupees two thousand are spent annually on purchase of books. A card index catalogue is kept up-to-date. Besides, there is a printed catalogue, supplements to which are printed at the end of every year. There is a full time librarian incharge.

A Reading room is attached to the library. Magazines on a variety of subjects and daily papers are supplied.

Besides the General Library, there are class libraries in which books are graded according to the calibre of the students by Readers who suggest to students reading of particular books, and check in the tutorial periods whether the students have done the prescribed reading.

Tutorial Instruction.--In addition to the usual class lectures, tutorial direction and instruction is imparted to individual students once a week. Lecture notes taken down in the class, essay and other composition work, analysis of books done at home, and questions set in monthly tests to every student are inspected, corrected and assessed by every Reader in his subject.

Athletic and Social Activities --Students are required to put a minimum of 75% attendance for the days games are played. The College provides facilities for Football, Volleyball, Hockey, Athletic Sports, Tennis, Basket Ball and Badminton (for girl students only).

There is an up-to-date Gymnasium where gymnastic and callisthenics exercises are given under the supervision of a qualified Physical Instructor.

Literary debates in Hindi and English are regularly held. There is an Historical Society and study circles for promoting interest in current problems of Politics, Economics, Religion and Literary and Scientific topics of every day interest.

There is a Music Club to give training in the arts of vocal and instrumental music to Amateurs.

A college excursion and a common dinner are held every year. The College Annual day is celebrated by having inter-class sports, dramatic performances and a social gathering in which the Old Boys and the guardians of the students participate.

The College magazine is published twice every year.

Hostel.--There is a hostel attached to the College. The number of students in residence is 33.

Scholarships and Medals.—Two scholarships of Rs. 120 per annum tenable for two years are awarded annually in order of merit to students who pass the Intermediate Examination from this College.

A Gold Medal is awarded to the student who stands first in the B.A. Examination.

Number of students.—The number of students on rolls are :

Junior B A.	..	43
Senior B A.	..	45

15.—AGRICULTURAL COLLEGE, CAWNPORE.

Management—The College had its beginning in an Agricultural School established by the Government in early nineties at Cawnpore for the training of Kanungoes under the Department of Revenue, U. P. In 1906 the school course of two years was elaborated into a Diploma course for 3 years and the school was raised to the status of a College. This constitutes the first step in the evolution of the present Degree College.

From 1906 to 1913 the College Diploma was a qualification for entry into the Subordinate Service of the Agricultural Department and the grade of Supervisor Kanungoes under the Revenue Department. In the autumn of the latter year a separate school was started at Hardoi for the training of Kanungoes and the College was reorganized on the lines of educational institutions with the Principal as the Chief administrator and disciplinary officer. The management was vested in a Governing Body consisting of public men and Government officials with the Director of Agriculture as its Chairman.

Since then the College ran two courses, a junior Vernacular course of two years mainly for the sons of zamindars and a Diploma course of 4 years, after High School examination, as the main course. The affiliation of the College to the Board of High School and Intermediate Education, U. P. in 1925 for the Intermediate Examination at the end of the second year of the Diploma Course marks the next step in the history of the College. Then in April 1930 came affiliation with the Agra University. The responsibility for the junior Vernacular course passed over to the Agricultural Schools at Bulandshahr and Gorakhpur.

The reorganization of 1932 embodied in Government Resolution No. 118-A, dated July 23, 1932, marks the final step so far in the evolution of the College. The management and control of the educational work has been unified. The College now consists of 4 sub-sections:—

- (1) *Section of Agriculture* dealing with Agriculture, including Horticulture, Agricultural Engineering, Dairying and Animal Husbandry ;

- (2) *Section of Agricultural Botany*, dealing with Botany and Plant Pathology ;
 (3) *Section of Agricultural Zoology*, dealing with Zoology, Entomology and Veterinary Science ;
 (1) *Section of General Science*, dealing with Chemistry, Physics and Mathematics

The total area of the College estate is a little under one square mile including instructional farm, gardens, playgrounds, etc. The buildings include spacious laboratories and lecture theatres, a large double storied library, staff quarters, College hostels, dairy and farm buildings. The main area of the College and surroundings is situated outside Municipal limits, $5\frac{1}{2}$ miles from the Cawnpore Central Station.

The College is financed by the U. P. Government.

Students in Degree classes There is no post-graduate course. The number of students in the degree classes at present is.—

3rd year	38
4th year	43

Library.—The new library building of the College is large and spacious. It contains the collections of the Department of Agriculture of the last quarter of a century. The annual expenditure on books and periodicals is Rs. 4,000 and the staff consists of a librarian and an assistant librarian. The library serves the public and the whole of the Department of Agriculture.

Laboratories.—There are 7 extensive laboratories with upto date fittings, mainly devoted to teaching. There is no College museum but the opening of one has been put off due to financial stringency.

Magazine.—The College does not publish a separate magazine but the College staff contribute to the Departmental magazine.

Associations.—There is a students Union. It is intended to train students in the management of their own affairs and consist of the important sections of Games, Social Activities, Library, Science Society and the like.

Residence—Students are required to reside in the College hostels and in special cases in residences approved of by the Principal. There are 7 hostels for ordinary accommodation and one for special accommodation in which the charges are as follows.—

	Rs.	a	p.	
Special quarters ..	10	0	0	per mensem per set
Ordinary hostels, single seated.	3	8	0	per student per mensem.
Ordinary hostels, double.	3	0	0	„ „
Ordinary hostels, three.	1	13	0	„ „

Residences of Members of the staff.—A number of Government buildings are available as staff quarters. Most of the staff is resident on the premises. The Principal's residence is opposite the College while that of the Warden is near the College hostel. Each hostel has a House Superintendent who is also a member of the staff and who resides on the spot.

Cost of living.—For students who will not occupy special quarters, the cost of living exclusive of fees, room rent and occasional travelling expenses, is approximately Rs. 28 per mensem made up as follows:—

		Rs.	s.	p.
Students Union fee	...	2	0	0
Mess	...	12	0	0 to Rs. 15
Medical Fees	...	0	4	0
Sundries		10	0	0
Total		25	0	0 to Rs. 28

Games — Attendance at games is compulsory

Military training.—None at present, but the University Training Corps will be open to the students of the College

Medical Inspection.—(1) Any student falling sick must at once report the fact to the Superintendent in charge of the Boarding House in which he resides, the Medical Officer attends the Dispensary a 3-15 p. m. on working days and at 3-45 p. m. on Fridays.

(2) In no case is permission given to the students to leave the College precincts on medical certificate, unless the certificate includes a distinct recommendation that the student be sent home.

Discipline —(1) Students are not permitted to leave the Government estate at any time without permission from the Principal or other disciplinary officer deputed by him.

(2) Students are not allowed outside the Boarding House precincts after 8 p. m.

(3) All lights must be extinguished between 10 p. m and 4 a. m.

(4) No guests are allowed to sleep in the Boarding House without permission first having been obtained from the Warden or the Boarding House Superintendent before 1 p. m.

(5) No person will be permitted to take employment as a servant of a student personally, or of the students collectively unless his name be previously entered in the register kept for the purpose.

(6) Students while in residence are expected to be neatly and tidily dressed. The wearing of Khaki shirts and short trousers at field practical work and at games is essential.

(7) Students are not allowed to keep conveyance without permission from the Principal.

(8) Students are not permitted to keep dogs.

(9) Students are not allowed to keep fire arms without permission from the Principal.

Messes.—Several messes are maintained and students must join one or other of these unless special exemption (which will only be given in exceptional circumstances) has been obtained from the Principal.

Students are required to obtain the sanction of the Principal before subscribing to any periodical publication.

Fees.—The following fees have been fixed by Government

		Rs.
Degree Courses	Entrance fee	15
	Monthly fee	... 5

Fees are charged for ten months during the year. Entrance fees must be paid on receipt of intimation that the candidate's application is accepted and until this is done no candidate can claim admission. No claim for a refund is entertained. Monthly fees are due on the first of each month for which they are chargeable.

While no fee is charged for entry in the College annual examination, a fee of Rs. 25 per student is charged by the Board of High School and Intermediate Education for the Intermediate Examination in Agriculture.

Scholarships and Freeships.—A certain number of stipends and remission of fees tenable for the whole course are available and are awarded in consideration of students' circumstances.

These stipends may be withdrawn if the conduct or work of the holder is reported unfavourably. They are definitely for students who are unable to support themselves. Before such are granted, clear evidence of the applicant's inability to support himself at the College will be required.

In addition, there are a certain number of merit scholarships of Rs. 12 and Rs. 6 per mensem awarded to the students on merit as judged by the results of the Annual examination. These are tenable for one year only and carry with them remission of fees.

The grant of a stipend carries with it remission of fees including the admission fee. In the case of students granted remission of fees only without stipend, the concession carries with it remission of the admission fee. Should a candidate be admitted to the College without stipend or remission of fees and at some subsequent date his fees are remitted or he is granted a stipend, this concession will have no retrospective effect, that is, there will be no refund of fees.

Endowments, Medals and Prizes—The following medals are endowed and are awarded annually:—

- (1) Subhiah Memorial Medal for Chemistry and Botany combined.
- (2) Sukhbir Sinha Medal for proficiency in the theory and practice of Agriculture
- (3) Harcourt Butler Medal (founded by Mr. W. C. DeNoronha) for the all round best student
- (4) Irwin Gold Medal (founded by Mr. W. C. de Noronha) for best record in Practical Agriculture.
- (5) Chandrapal Memorial Medal for the student who stands first in Intermediate Agriculture Examination from Agricultural College, Cawnpore.

Prizes are awarded annually to the students who stand first in the half-yearly examination in each subject. Sports prizes are also awarded including several cups.

Admission of Non-U. P. Students.—Rules for the admission of students not-domiciled in the United Provinces, to the Agricultural College, Cawnpore.

1. Applications will be considered subject to there being vacancies and only on the recommendation of the local Government or Political Agent concerned in the case of students nominated by the local Government or an Indian State respectively.

2. In the case of students coming at their own expense suitable recommendations from persons of influence or official status should accompany the application.

3. A fee of Rs. 1,000 per annum will be charged for each student nominated by the local Government or by an Indian State and of Rs. 500 per annum from a student not domiciled in the United Provinces, who is admitted on his own application.

4. The above fees will include only charges for tuition, but Students' Union charge (at Rs. 2-8-0 per mensem) for athletic and social activities of the College and hostel rent will be separate charges.

5. Before admission, a deposit must be made by, or on behalf of the student, of a sum sufficient to cover (1) subsistence costs for a period of ten months, (2) caution money which will be returned when the student leaves College finally after deduction of outstanding dues. The subsistence cost deposited by, or

on behalf of a student will be paid to him in monthly instalments. At the close of a session, should the student continue his course at the College, the above deposits must be paid prior to his admission to the new session. The cost required to cover the first item shall be at the rate of Rs. 250 per annum (subsistence costs for ten months at the rate of Rs. 25 per mensem) and Rs. 10 for tours and books in addition to the return fare for journey from and to Cawnpore at the commencement and end of the vacations.

6. No student not domiciled in the United Provinces will be admitted if his admission prejudices the claims of candidates domiciled in the United Provinces who may be found suitable for admission. The number of students not domiciled in the United Provinces admitted shall not exceed three per annum.

Admission.—Applications for admission will be received direct by the Principal or through the Officer-in-charge of the Circle in which the applicant resides. Applications should be made on the prescribed form which can be obtained by applying to the Principal. The session commences in July and applications should normally be made as soon as possible after March 1st, previous. This applies also to candidates for the degree course who are appearing for the School Leaving Certificate in the year of application. Applications should be accompanied by certificates of character from influential persons having personal knowledge of the applicant.

Educational qualifications for admission.—The qualifications for admission to the Degree course is the same as for other Degrees of Universities in the United Provinces.

Students must pass the Intermediate Examination in Agriculture of the Board of High School and Intermediate Education before they are admitted to the 3rd year class of the College, or must have passed the Intermediate Examination of the Board of High School and Intermediate Education or of a University with Chemistry and Biology prior to direct admission to the second year of the Intermediate course of the Agricultural College.

Prospects.—The courses are mainly designed to assist members of the Agricultural community who will return to manage their own estates. In the case of larger landholders whose means are such that they are not directly dependent on their own exertions, the Degree Course offers in addition, a sound education designed to give the student an interest in his own property and its improvement.

Prospects of Graduates.—Possession of the Degree of B. Sc., in Agriculture qualifies for entry into the Subordinate Agricultural service at a starting pay of Rs. 80 per mensem. Appointments to posts in the Subordinate Agricultural Service are made by the Director of Agriculture, United Provinces, who is guided by the results in the final examination.

Occasionally chances of appointment for passed students occur in the Court of Wards, Co-operative Banks, the Revenue and Irrigation Departments, Native States and on private

estates Co-operative Banks are now undertaking a large amount of agricultural work in providing good and improved seed and implements to their members; they are establishing seed depots and seed farms and are installing pumping plants for irrigation from wells and rivers. They are also devoting attention to cattle breeding. Co-operative Dairies are also being established in the Province.

together with the Heads of the four teaching sections of the College.

The Council is expected to replace the College Governing Body in course of time.

16 —DUNGAR COLLEGE, BIKANER.

History of the College.—The College was started as an Intermediate College affiliated to the U. P. Board in July 1928. Degree classes were started in July 1933, and the College affiliated to the Agra University.

The College is financed and managed by the Bikaner Durbar, and tuition is given free to all students. At present the College is located temporarily in the Dewan Sahib's Bungalow, pending its removal to the spacious Dungar College building, temporarily occupied by the Sadul High School.

Subjects and Examinations—The College is recognised by the Board of High School and Intermediate Education for Rajasthan, Ajmer-Merwara, Central India States and Gwalior for Intermediate Examination in Arts, and by the Agra University for B. A. Examination in Arts in the following subjects:—

Inter Arts —English, Mathematics, Logic, Hindi, Sanskrit, Economics and History.

B. A. —English, Mathematics, Philosophy, Hindi, Sanskrit, Economics and History.

Staff and subjects they teach.

M. N. Tolani, M. A. (Bombay and Cantab.)	Principal and Professor of Philosophy.
G. F. Papali, M. A. (Madras and London), Ph. D. (London),	Professor of English.
H. L. Pasricha, M. A. (California), Ph. D. (London),	Professor of Economics.
Mr Jugal Singh, M.A., LL.B. (Alld.), Bar-at-law, Diploma in Education and Psychology (London).	Professor of Philosophy.

Mr. S. P. Kaushik, M. Sc. (Allahabad).	Lecturer in Mathematics.
Mr M. R. V. Krishna Rao, M. A. (Madras).	Lecturer in English.

Library.—With the new Degree College, a practically new Library has been started with only 533 volumes taken over from the Library of the old Intermediate College. The College has spent, between July 1935 to June 1936, a sum of Rs 4,500 on the Library and at present the number of books in the College Library is 1580 volumes.

Books have been classified according to Dewey Decimal system with Cutter's author number for book mark. The catalogue has been prepared on cards. The cards have been

arranged in a Cabinet in two sets. The first set is the author catalogue arranged according to the subject; in the second set the title and subject cards have been arranged alphabetically just like a dictionary. The ledger charging system is being followed, as this has been found suitable for the College Libraries. Besides the Library there is an up-to-date Reading Room for the students, where a variety of dailies, weeklies and monthlies are placed on the table for the benefit of the students.

Tutorial classes.—In addition to the usual class-work regular tutorial classes have been started, and effort is made to see that every student receives individual attention at the hands of his Professors.

Athletic and Social activities.—Attendance at Games is compulsory. The College maintains a Physical Instructor; and a Non-Commissioned Officer from the Army trains batches of students in Physical Training and Drill. The College provides facilities for Foot-ball, Volley-ball, Hockey, Tennis and Athletic Sports.

The College Union is incharge of students' debates and organises various social activities, excursions, occasional dinners etc.

The College Magazine has also been started and at present only one issue a year has been brought out. In the near future two issues will be published every year.

Medical inspection.—The State Medical Department conducts a medical examination every year of all students. The result is reported to the guardians and to the Director of Education.

Hostel.—There is a Hostel attached to the College. The number of students in residence this year is 27.

Scholarships.—Along with free Collegiate Education the Bikaner Durbar has sanctioned four merit scholarships to be awarded to students for general proficiency, on the result of the Board Examination; and twenty poverty scholarships, five for each class of the total value of Rs. 840 a year. The total value of both is Rs. 1,200 a year.

The number of students.—The number of students on roll are

First Year class	35
Second Year class	40
Third Year class	21

APPENDIX 4.

List of Recognized Hostels and other Details

[Vide CHAPTER XXII.]

(1) Kayasth Hostel, Agra, (recognized under Executive Council Resolution No. 12 of August 2, 1929).

(2) Radhasoami Educational Institute Hostel (University Block), Dayal Bagh, Agra, (recognized under Executive Council Resolution No. 6 of October 4, 1929)

(3) Digamber Jain Boarding House, Agra, (recognized under Executive Council Resolution No. 102 of November 28, 1929).

(4) Pathak Brindaban Vedic Ashram (Chaubey Hostel) Agra, (recognized under Executive Council Resolution No. 149 of March 11, 1930).

(1).—KAYASTH HOSTEL, AGRA.

The Kayasth Hostel, Agra, owes its existence to the energetic efforts of a small band of students who, realising the difficulties of outside students who come to Agra for the purpose of study, brought the necessity of constructing a hostel at Agra to the notice of the Kayasth Students' Association, Agra. The proposal received a good deal of encouragement from the members of the community, and was successfully moved in the Kayasth Conference held at Farrukhabad in 1921. From 1922 onwards it began to take a definite shape when, thanks to the selfless devotion of Mr. Ashrafi Lal, Pleader, and the kind generosity of Agra College Managing Committee, a suitable plot of land adjoining the hostel was obtained from the Agra College. The work of construction was commenced on 1st March, 1923, on which date the late Hon'ble Justice Gokul Prasad of Allahabad High Court performed the foundation-laying ceremony.

The plan of the hostel consists of a double storied building of 80 single-seated rooms, 40 each in two rows, with a big hall in the middle connecting the two blocks. Up till now 19 rooms have been constructed with the generous help mostly of local gentlemen of Agra. The Government of U. P. also was pleased to contribute Rs. 10,000 towards the cost of the said 19 rooms.

Management.—For purposes of management, a double system of Government, very much like that in the Provincial Government, has been introduced. There is a division between the Reserved (*s.g.*, pertaining to discipline, finance, etc.) and the Transferred (*s.g.*, pertaining to health, sanitation, education, etc.) subjects. The former are managed by the Warden and his Executive Council, consisting of the Sub-Warden and the Prefect, and responsible to the Association through the President and his managing committee; the latter by the Warden acting with the Ministers, (elected by the House consisting of the inmates of the hostel) and responsible to it. The system was for the first time introduced by the Warden, Mr. B. N. Varma, M. A., LL. B., in 1929 with a view to give the students an

insight into the working of the present system of provincial administration, and preparing them to take up the responsibilities of a good citizen in later life, but besides its educational value, the system has done immense good to the hostel. The planting of a small beautiful garden and the electric installation in the hostel are the most brilliant results of its manifold activities.

The hostel is also under the general supervision of the Principal, Agra College, who arranges inspection every fortnight, and gives his valuable suggestions. The Department of Health is under Dr G. N. Kapoor, M. B., B. S., who takes a keen interest in the health of the students and examines them periodically.

The donations for the construction of the hostel are raised only from people belonging to the Kayasth Community; but it is not a sectarian institution in so far as the hostel is open to members belonging to all castes and creeds. It is affiliated to Agra University, and students reading in the local colleges affiliated to Agra University can be admitted. The examination results of the students residing in the hostel have, so far, been uniformly good; and one of the boarders has done credit to the hostel by competing successfully at the P. C. S. Examination in 1929.

(3)—RADHASOAMI EDUCATIONAL INSTITUTE
HOSTEL (UNIVERSITY BLOCK),
DAYAL BAGH, AGRA

The Managing Committee of the R. E. I., Dayal Bagh, have constructed a block of rooms known as the "University Block," in the vicinity of their College Hostel for the residence of University students, it is intended to serve as a hostel for the Old Boys of the Institute who after passing their Intermediate Examination join the Degree colleges in the City and wish to be allowed to enjoy the amenities provided in Dayal Bagh. It is in every way a self-contained Hostel and comprises two rows of five rooms each, opening into a common corridor. The rooms, measuring 18' x 13' each are well planned, well ventilated and fitted with electric light.

The "Block" is under the charge of a whole time resident Warden, who is a graduate, and is assisted by a Captain selected from amongst the post-graduate boarders. The boarders enjoy all the privileges of the other hostellers of the Institute, and are required to live under a rigid discipline, which, while enabling them fully and freely to participate in the educational, social and athletic activities in their respective colleges imposes upon them certain necessary restrictions to ensure the high standard of character demanded by the Institute. They are required to keep strict study hours, to carry out the daily routine fixed by the authorities with punctuality and generally to behave in a manner that may be an example to their junior fellow students.

There is a spacious common room available to the boarders which is well supplied with papers and magazines, and as Old Boys they are allowed a free access to the Institute Library and to participate in the corporate intellectual life of the Institute.

The health of the boarders is looked after by a competent Medical Officer (an Assistant Surgeon), who is assisted by the necessary hospital staff. though, thanks to the fine climate, the supply of pure milk, butter and *ghes* from the Institute Dairy, and to the spiritual atmosphere and elevating activities of the colony, there is very little demand for medical assistance by the residents of the "Block."

(3)—DIGAMBAR JAIN BOARDING HOUSE, AGRA.

The foundation stone of the Digambar building was laid in the year 1908 but it began to be used as a Boarding House only in 1916 when eight rooms were ready.

At present there are 32 seats. Rooms are all single seated with the exception of one which is larger than the others and is used as a double seated room. They are well ventilated and airy and all are fitted with electric light.

The Boarding house is built on an excellent site on the main road leading from the Drummond road to Jumna Bridge and has a very large compound to the east and west of the building.

It maintains two tennis courts and has a common room provided with indoor games, magazines, newspapers and a small library. Provision is also made for football and volley-ball etc. There is one Jain temple in the centre which is a special feature of the hostel. The hostel also provides residential quarters for the warden.

A religious teacher has been engaged to impart religious teaching to the students free of charge.

Room rent is Rs. 4 per month and one rupee less is charged from every Jain student (i. e. Rs. 3. per month only). Light and games charges are extra. They are collected by the boarding house but the Fund is managed by a committee of Students.

The Hostel is intended principally, but not exclusively for Jain students, getting education in any of the colleges at Agra.

The Boarding house has got a Trust consisting of five members. Besides this trust the hostel is under the management of a Governing Body with L. Sunder Lal Jain as its Secretary. Dr. Mangal Sen is our medical advisor and also a member of a managing committee.

The inmates of the house have been maintaining good health and they have shown good results at the various examinations.

Besides fees, other sources of income are subscriptions and donations by the community and the Hostel authorities have to spend a good deal of money for the welfare of students. A garden and lawns are maintained for the sake of good health. Plain living and high thinking being the motto of the hostel great attention is paid to the every day life of each individual boarder and every effort is made to regulate their lives in such a way as to make them healthy, intelligent, moral, social and religious.

(4)—PATHAK BRINDABAN VEDIC ASHRAM
(CHOUBEY HOSTEL), AGRA.

The Pathak Brindaban Vedic Ashram was founded in 1892 by the late Raja Jai Kishan Das Bahadur, c. s. i. in memory of his father.

The management of the hostel was put under the control of a Board of Trustees of which Raja Jai Kishan Das was the life President.

After the death of Raja Jai Kishan Das, his son the late Raja Parmanand worked as President of the Trust. Since January 1924 his grandson Kunwar Jagdish Prasad, c. s. i., c. i. E., O. B. E., I. C. S., has been working as the President.

The hostel is open to the admission of Brahmin students preference being given to Chaturvedi Brahmins. Under certain conditions non-Brahmin students may also be admitted.

The students residing in the hostel get rooms free of rent and several other facilities.

*Convocation Procedure.

[*Vide* CHAPTER XXV.]

1. The candidates for degrees, must, 15 clear days before the date fixed for the Convocation, inform the Registrar in writing of their intention to be present. Regular students and ex-students must send this information through the Principals concerned. No candidate shall be admitted to the Convocation who has not sent in his name to the Registrar within the prescribed time. In exceptional cases, the Vice-Chancellor may permit candidates who have not sent in their names to the Registrar within the prescribed time, to be admitted to the Convocation, provided their applications are received by the Registrar not later than 48 hours before the time of the Convocation and are accompanied by a fee of Rs. 2 in each case.

2. Such candidates as are unable to present themselves in person at the Convocation will be given their Diplomas direct by the Registrar, on application and on payment of a fee of Rs. 10 in each case. The applications of regular students and ex-students shall be forwarded by the Principals of their respective colleges.

3. Candidates at Convocation shall wear the gowns and hoods appropriate to their respective degrees. Male candidates shall either appear bareheaded or wear turbans. No candidate shall be admitted to Convocation who is not in proper academic dress, prescribed by the University.

4. For the award of degrees at Convocation regular students and ex-students shall be formally presented to the Vice-Chancellor, by the Principals of their respective colleges, or by their accredited representatives and in their absence by the Registrar. The Registrar shall also present all private candidates attending the Convocation.

5. Diplomas to graduates attending Convocation will be supplied to them in the Convocation Hall, before the Convocation begins.

No Diploma will be issued on the day of the Convocation after the Convocation.

6. The Chancellor, the Vice-Chancellor, and the Registrar will wear their special robes. Members of the Senate, Executive Council and Academic Board will wear the proper academic costume of the University of which they are graduates or that prescribed for the degree of Master of Arts of the Agra University. They shall wear a black square cloth cap with silk tassel or a turban or the academic head-dress of the University of which they are graduates.

**Vide* Executive Council Res. No 70 of Oct 30 1926.
Amended by the Executive Council on Dec 20, 1932.

7 The Chancellor, the Vice-Chancellor, Members of the Senate, Executive Council, and Academic Board shall assemble in the meeting room at the appointed hour and shall walk in procession in the following order to the Convocation Hall:—

13. In all cases the candidates shall be presented in the following form:—

"Sir, I present to you (of
College) who has (or have) been examined, and found
qualified for the degree of to which
I pay that he (or they) may be admitted."

14. The names of the candidates for *each degree* in the order specified in No. 12 above, other than Doctors, shall be read out by the Principals of Colleges or the Registrar, as the case may be, in the prescribed form and the candidates from each college, while their names are being called out, shall stand in their places and remain standing until the names of all

candidates of that college for the degree have been read, when they will resume their seats.

15. When all the candidates for the same degree have been presented, the Vice-Chancellor shall say " Let the candidates who have been presented for the degree of . . . stand "

The Vice-Chancellor shall then admit the candidates to the degree in the following words :—

" By virtue of the authority vested in me as Vice-Chancellor of Agra University, I admit you to the degree of . . . in this University, and I charge you, throughout your life, to prove worthy of the same "

16. After the degrees have been conferred, recipients of University medals and prizes, and representatives of colleges which have won University Athletic Challenge Trophies shall be called out individually by the Registrar and shall stand before the Chancellor, or the Vice-Chancellor, who shall present the medals, prizes or trophies.

17. When all the candidates have been admitted to their degrees, and the medals, prizes and trophies have been presented, the Convocation address will be delivered.

18. After this the Vice-Chancellor will (with the Chancellor's permission if he is present) declare the Convocation closed and the procession will leave the Convocation Hall in the same order as that in which it entered, the graduates standing.

On the first or title page the number of pages the Book or the Register contains, shall be entered and the entry shall be signed by the Registrar. Corrections shall be made in *red ink* and attested. Erasures shall on no account be permitted.

2. *Receipts*

- (i) All moneys received either by cheque or by cash payments shall, unless in exceptional circumstances, be deposited intact in the Agra Branch of the Imperial Bank of India not later than the first day on which the Bank shall be open following the payment.
- (ii) *Payments by cheques* --All cheques should be made payable to the Registrar. They shall be endorsed by him and paid into the University Account at the Bank and shall be entered in the Daily Register of Income and in the Cash Book under the proper head.
- (iii) *Daily Register of Income*. Money received by Money order, Cash, Postage stamps, Cheques or Insured letters or credited direct into the Bank shall be entered in the Daily Register of Income under its appropriate head. For facility of reference, the Serial No of the entry in the Register shall be noted on the Money-order coupon or other connected papers. The Registrar shall compare the entries in the Register with the Money-order coupons, etc. and sign the daily totals and Money-order coupons, etc. The amount shall then be entered headwise in the Cash Book.
- (iv) Receipts shall be granted for all moneys received by cheques, Money orders, Postage stamps, Insured letters or in cash or credited into University account direct into the Bank. All receipts

shall be signed by the Accountant and countersigned by the Registrar.

Receipt forms shall be in Foil and Counterfoil and shall be machine numbered consecutively. The forms shall be bound in books each containing 100 forms. On the front page of each book shall be entered the first and last numbers of the receipt and the date of issue, and the entry shall be signed by the Registrar. He shall keep the books in his personal charge and shall issue the books as required, one book at a time. Before issuing a new book the Registrar shall satisfy himself that the forms in the book last issued have all been used under his signature. No manuscript receipt forms shall be issued and no unnumbered receipt forms shall be kept in the Office.

The numbers of the receipts shall be continuous for each year.

- (c) All remittances to the Bank shall be accompanied by a *chalan* which shall be prepared in duplicate in the bound books supplied by the Bank, separate *chalan* books being used for cheques and for cash payments. The counterfoils shall remain in the books and the foils shall be kept by the Bank. The counterfoil should contain the Bank stamp after payments have been made. The *chalan* books shall remain in the personal custody of the Accountant but all amounts entered therein shall be compared by the Registrar with entries made in the Cash Book and in the Bank Pass Book as noted below:—

The Bank Pass Pass shall remain with the Registrar and shall be sent to the Bank on the first day of each month and at such other times as the Registrar may think fit to be written up-to date. After it has been received from the Bank, the Registrar shall compare the receipt entries therein with the entries in the *chalan* counterfoils, and in the printed receipt forms which are issued by the Bank for such payments as are made direct by the payee into the Bank for the credit of the University Account. After comparison, such receipts shall be filed.

3. *Disbursements*

- (1) The funds of the University shall be used only for the purposes indicated in the Budget as passed finally by the Executive Council and considered by the Senate, or for those purposes with such variations as may from time to time be authorized by the Executive Council.
- (2) Expenditure shall ordinarily be met by means of cheques drawn on the Bank but petty expenditure may be met from the permanent advance. The

cheque book shall remain in the personal custody of the Registrar under lock and key. On each occasion after the Pass Book has been received from the Bank after make up [rule 2 (6) above], the Registrar shall compare the entries on the debit side in the Pass Book with the counterfoils in the cheque book and satisfy himself that the entries tally with the cheques issued by him.

- (iii) All bills presented for payment, confidential printing accounts excepted, shall be checked by the Accountant who shall be responsible for the correctness of the charges. He shall certify to their correctness and initial them before passing them on to the Registrar.

(a) *Salaries and Office Contingencies*—The Registrar shall pass all payments on account of the salaries of the staff and servants, for contingencies up to the limit under each head in the sanctioned Budget. The salary of the Registrar shall be drawn by him on the authority of a pay order signed by the Vice-Chancellor.

(b) *Travelling Allowance*.—The Registrar shall have authority to pass and pay all Travelling Allowance bills incurred through journeys made after due authorization, up to the limits of the sanctioned Budget allotment. Should this sum be exhausted before the end of the financial year, he should seek the authority of the Executive Council to pay, and should at the same time inform the Council by what readjustment he proposes to find the money.

(c) *Stock*. Expenditure on account of purchase of stock, furniture and Library books shall be subject to the approval of the Vice-Chancellor. The Registrar shall pass for payment all bills for articles so approved, up to the limit of the sanctioned Budget allotment, and no payment in excess of this shall be passed without the approval of the Vice-Chancellor and the Executive Council.

Notwithstanding anything contained in the above rule, the Registrar shall have power to spend not more than Rs. 25 at any one time and not more than Rs. 200 in any financial year on articles coming under the terms of this paragraph.

(d) *Printing*.—(i) *Confidential printing*—The accounts of confidential printing shall not be subjected to audit by the auditors, but they shall be scrutinised by the Vice-Chancellor who shall certify that he has checked the accounts and that they have been destroyed in his presence. This certificate shall be made available for inspection at the audit every year.

(ii) The Registrar shall place and pass payment on account of all orders for printing Minutes, Forms, Notices, Examination answer-books, etc. within the limits of the sanctioned allotment. Should the allotment be reached before the end of the financial year, the Registrar

* Amended by the Executive Council Resolutions Nos. 72 and 73 of Aug. 28, 1930

trar shall report to the Vice-Chancellor and Executive Council for further orders

Examiner's Fees.—The Registrar shall certify and pass for payment all bills for remuneration of Examiners, subject to the *proviso* above regarding excess over Budget allotment.

4 Salaries fall due on the first day of the month following that for which the salary is paid.

5. Income Tax and subscriptions to Provident Fund shall be deducted from salaries before payment is made

6. Contingent charges for sums below five rupees need not be supported by vouchers. A certificate by the Registrar that the amounts have been disbursed shall suffice. All charges above Rs. 5 shall be supported by vouchers which must be filed in order and have a number corresponding to the number of the account as entered in the Contingent Register.

7 The Registrar shall have an imprest of Rs. 900 to meet emergent petty expenses. The amount of the imprest shall be kept with the Accountant who shall give an acknowledgment for the amount held by him on the first day of each financial year. The expenditure incurred from the permanent advance shall be entered in the Contingent Register as well as in the Cash Book, and the Register and the Cash Book shall be placed before the Registrar for signature. All accounts of recoupment of permanent advance shall be under the signature of the Registrar.

*8. *Security Deposit* The Accountant shall furnish a security deposit of not less than Rs. 500 and not more than Rs. 1,000, either in cash or in Government Securities. The amount of the actual deposit to be demanded from the Accountant will be determined by the Executive Council in each individual case. The Accountant shall be entitled to any interest accruing on the deposit.

NOTE.—The present Accountant, Babu Shyam Lal Saxena, shall be required to furnish a deposit of Rs. 500 only.

9. *Cash Book entries and relation to other books* All moneys received and spent shall be immediately brought to account in the Cash Book. It shall, as far as possible, be submitted to the Registrar each day; and after the close of each month, when the Bank Pass Book has been made up, the entries shall be compared. If both books have been correctly posted, the balance according to the Cash Book less the cash in hands of the Accountant plus the amount of uncashed cheques will agree with the amount in the Pass Book

The totals of the different kinds of income in the Daily Register of Income shall be entered in the Cash Book and reference of the page of the Register shall be made in the Cash Book against the entry.

*Amended by Executive Council Res. No. 114 of Nov. 15, 1984.

Beside the Cash Register there shall be maintained an abstract register of all transactions which appear in the Cash Book. There shall be columns corresponding to all the main heads under Income and Expenditure (rules 2 and 3) and under each head all transactions shall be entered daily. On the basis of this Register there shall be prepared each month an abstract progressive total of receipts and expenditure which will show (a) the Budget figures, (b) the amounts realised or spent, as the case may be, up to the end of the month, (c) the balance remaining to be realised available for expenditure for the rest of the financial year.

A copy of the statement, signed by the Registrar, shall be submitted to the Vice-Chancellor before the 15th day of the succeeding month.

10. *Trust Funds*.—The Council shall, from time to time, give instructions regarding the investment of moneys received for the endowment of medals, prizes, etc. The interest accruing from such investments, together with any sum left over after investing any round sum, shall be kept in a savings bank account and withdrawals shall be made when necessary for the provision of medals or prizes, etc.

11. *Budget*.—The Budget for the ensuing year shall be prepared by the Accountant during the month of July and submitted to the Registrar by August 1. The Registrar shall present the Draft Budget to the Vice-Chancellor (and the Finance Committee) before August 15.

The Draft Budget shall be considered by the Executive Council before the last day of August, and as soon as it has been approved by the Executive Council, a copy shall be sent to Government. Further procedure shall be according to Section 33 of the Act.

The Budget estimates shall be accompanied by Schedule showing differences from the budget of the previous year and explanatory notes showing clearly the reasons for such differences.

The Executive Council shall, before the end of April, approve of any particular item of new expenditure, for which a special demand is to be made to Government for the provision of funds.

12. The following books of Accounts and Registers and Receipts shall be maintained as per forms prescribed:—

- (1) Cash Book.
- (2) Salary Book and Acquittance Roll.
- (3) Graduate's Enrolment Register.
- (4) Classified Abstract of Income.
- (5) Classified Abstract of Expenditure.

*MARSHALL: Principles of Economics, Books I, III, V

*FISHER: The Nature of Capital and Income.

*FIGOU: The Economics of Welfare, Part I.

CLARK: Essentials of Economic Theory.

*TAUSSIG: Principles of Economics.

CANNAN: Wealth.

BROWN: International Trade.

CARR-SAUNDERS: Population Principles of Economic Planning.

Paper I (b)—*History of Economic Thought*, including the History of Socialism.—Mercantilism. The Physiocrats. Adam Smith and the Manchester School, Malthus, Ricardo, Carey, Bastiat, Senior, Sismondi, List. Utopian or Bourgeois Socialism: Saint-Simon, Fourier, Owen. Proletarian Socialism: Louis Blanc, Proudhon, John Stuart Mill, Marshall. Scientific Socialism: Rodbertus, Lassalle, Karl Marx. The German Historical School: Roscher, Hildebrand, Knies, Schmoller. The Austrian School: Menger, Wieser, Bohm-Bawerk. Modern Socialism.

Books recommended:

*HANEY: History of Economic Thought.

*GIDE and RIST: History of Economic Doctrines.

*KIRKUP: History of Socialism.

HEARNESHAU: Survey of Socialism.

OTHMAR SPANN: Types of Economic Theory.

CANNAN: Review of Economic Theory.

COLE: Guild Socialism Restated.

Paper I (c).—*Essay*. A large number of general subjects shall be the topics for essay, out of which a candidate will have to choose one. These subjects should be so chosen as to have at least one from the subjects prescribed under Groups I and II in the course.

Paper II (a).—*Economic Development and present economic conditions of India and England* with special reference to

the period after 1760.—The Manor. The Guilds. The Domestic System. The Agricultural Revolution. The Industrial Revolution. The Factory System. Changes in Transportation and Marketing, and their effects. Similar material for India, as far as possible. Brief history of the inventions between 1760 and 1790, and their economic effects. The State and labour. The modern economic structure. Trade unionism. Wage contract. Money, credit, and banking. Public finance. Tariff. The history of inventions and of the status of labour to be treated briefly.

Books recommended :

*MEREDITH : Economic History of England.

*VERA ANSTEY : Economic Development of India.

*GADGIL : The Industrial Evolution of India.

GRAS : Introduction to Economic History.

LIPSON : Economic History of England.

KNOWLES : Economic Development of the British Overseas Empire, Vol. I (Tropical).

KNOWLES : The Industrial and Commercial Revolution in Great Britain during the 19th Century.

CRESSY : Outline of Industrial History.

Paper II (b).—*Financial Organization* :—

Social importance of money. Principles of currency circulation. Services and nature of money movements and distribution of money. Value of money. Stability of the value of money. Credit and prices. Measurement of variations in the value of money. Deferred payments. Bi-metallism. Convertible and inconvertible paper money.

The Processes of inflation and deflation. Their effects on the value of gold, prices, foreign exchanges, purchasing power parity, international trade, and State finance. Stabilisation of monetary standards. Effects of international debts.

Brief history of Indian currency up to 1893. Measures taken in 1893 and 1899. The gold exchange standard. The gold standard reserve. Amalgamation of the gold standard and paper currency reserves. Council and Reverse Council Bills. The proposed gold bullion standard.

Banking: organization, operation. The cheque system. Bank notes. Convertibility. Reserve system: fixed fiduciary and proportional. The Indian banking system: the Imperial Bank of India, joint-stock banks, exchange banks, Government Treasury system, indigenous banking, co-operative banks, savings banks. Central Reserve bank for India.

Books recommended :

*CASSELL : Money and Foreign Exchange after 1914.

*B. E. DADACHANJI : Indian Currency and Exchange. .

MARSHALL : Money, Credit and Commerce.

FISHER : The Purchasing Power of Money.

SPALDING : Eastern Exchange, Currency and Finance.

CASSELL : Memorandum on the World's Monetary Problems (League of Nations).

COLE : Money.

PAUL EINZIG : Exchange Control. .

PAUL EINZIG : Bank for International Settlements (4th edition).

KISCHARD ELKIN : Central Banks (4th edition).

Report of the Central Banking Enquiry Committee.

Paper II (c).—*The State and Economic Welfare*.—(This course is a study of the relative efficiency of public and private activities as a means to certain economic ends). Taxes, Loans, and other kinds of revenue. Their effects upon production and distribution and their other effects. Public Expenditure. Its effects upon production and distribution. The economic basis of expenditure for the security of life and property, for sanitation and education. Loans and Budgets. Social Insurance, including workmen's compensation and insurance against unemployment. Government regulation of Production. Adulteration. Control of food and drugs. Factory Legislation. Prices and Monopolies. State aid to industries. Public Research and Information Bureau. Government Control of Public Works and Public Utilities. Indian Finance: decentralization. Provincial contracts. Changes since 1920. Meston award. Financial position of the Provinces.

Books recommended :

- *SHIRAS : The Science of Public Finance.
- *CLOW : History of Factory Legislation in India.
Report of the Taxation Enquiry Committee.
- DALTON : Public Finance.
- SEAGER : Social Insurance.
- PIGOU : Economics of Welfare (Chapters dealing with Government control).
- Indian Workmen's Compensation Acts.
- Indian Factory Acts.
- Report of the Indian Industrial Commission.
- Report of the Indian Economic Enquiry Committee.
- SILVERMAN : Economics of Social Problems.
- AMBEDKAR : The Evolution of Provincial Finance in British India
- LAYTON : Memorandum on Indian Finance.
- Simon Commission Report, Vol. II.
- CLOW : State and Industry.
- Federal Finance in India.

Consult—

- ADARKAR : Federal Finance in India.
- J.P.C. Report.

Paper II (d).—*Labour Problems and Social Welfare.*—Life of the Labouring Classes in Typical Indian Industries. Wages and hours. Trade Unions: Their Principles, achievements, and possibilities in England and India. Labour Disputes. Arbitration and Conciliation. Works Committees and Trade Councils. Profit-sharing, Co-partnership, and Producers' Co-operation. Social Welfare Work, and Social Service Agencies in India. Housing projects in India and England. Debt and Co-operative Credit for Employees. Unemployment, Labour Agencies, and Labour Exchanges. (Social Insurance, Workmen's Compensation, and Factory Legislation, which are included in the course, are to be reviewed briefly). Methods of paying wages.

Books recommended :

- *CLOW : History of Factory Legislation in India.
- CLAY : Problems of Industrial Relations.
- CLOW : History of Working Class Movement in England, Parts I—III.
- *PIGOU : Economics of Welfare, Part III.
- JOHN LEE : Principles of Industrial Welfare.
- A. WILLIAMS : Co-partnership and Profit-sharing.
- BOWI : Sharing Profits with Employees.
- Reports on Social Welfare. Work of the Calcutta and Bombay Leagues. The Tata Iron and Steel Company and the British India Corporation, Cawnpore.
- BOWLEY and BURNETT-HURST : Livelihood and Poverty.
- NETTLEFOLD : Practical Housing.
- *Report of the Indian Labour Commission.

Paper II (e).—*Rural and Municipal Economics*.—Land Tenures. Agricultural Improvements, Irrigation, and Communications. The importance and possibilities of village industries. District Board finance. Contrast between Rural and Municipal Problems. Congestion, Town Planning, Building Regulations, Sanitation, Municipal Finance. Consolidation and sub-division of holdings. Livestock and Agriculture. Water power. Marketing of Agricultural products. Financing of Agriculture. Short and long term loans. Land mortgage banks. Forests. Soil erosion. Famines: history and preventive and remedial measures. Village industries: present condition, causes of decay, lines of improvement. State in relation to Agriculture. Demonstration farms.

Books recommended :

- DARLING : The Punjab Peasant in Prosperity and Debt.
- NURSE : Agricultural Economics.
- MUKERJI : Foundations of Indian Economics.
- HEARNE : The Existing Constitutional System of British India.
- MARRIS and GARDNER : Indian Administration.

BADEN POWELL : Land Revenue System of British India.

U. P. Municipal Manual.

U. P. District Board Act.

U. P. District Board Manual.

Report of the Royal Commission on Indian Agriculture.

Paper II (f).—*Theory and Practice of Statistics*.—Scope and utility of statistics. Enumeration, compilation and tabulation of data. Averages. Dispersion. Skewness. Graphic Method. Accuracy. Index numbers. Interpolation. Association. Contingency. Correlation. Sampling. Common errors in Statistics.

Books recommended :

BOWLEY : Elements of Statistics.

BOWLEY : Elementary Manual of Statistics (second edition).

YULE : An Introduction to the Theory of Statistics.

Harvard Economic Series :—Review of Economic Statistics.

SECRIST : Introduction to Statistical Methods.

Statistical Abstracts for British India.

BODDINGTON : Statistics for Commercial Students.

BOWLEY and ROBERTSON : Report on the Census of Production in India.

Paper II (g).—*Co-operation*.

HISTORICAL.—Robert Owen. Communistic Colonies. The Rochdale Pioneers. The English Co-operative Wholesale Society; Raiffeisen and Schulze-Delitzsch systems. Outline of Irish, Italian, and Russian systems.

THEORY.—Co-operative Production. Industrial Co-operation. Co-operation in Agriculture. Co-operative Marketing. Co-operative Distribution. Co-operative Credit.

INDIAN.—Co-operative Organization. Primary Rural Societies. Provincial and Central or District Banks.

Books recommended :

*C. R. FAY : Co-operation at Home and Abroad.

B. POTTER : The Co-operative Movement in Great Britain.

CATHERINE WEBB : Industrial Co-operation.

E. A. PRATT : The Organization of Agriculture.

R. B. EWBANK : Indian Co-operative Studies.

KAJI : Co-operation in India.

*HENRY WOLFF : Co-operation in India.

H. CALVERT : The Law and Principles of Co-operation in India.

*Report of the McLagan Committee on Indian Co-operation.

M. L. DARLING : European Co-operation.

JOHN MATTHAI : Agricultural Co-operation in India.

TALMAKI : Co-operation in India and Abroad.

Paper II (b).—*Transport*.—

RAILWAY.—Capital and working expenses. Application of the laws of productivity. Combination. Competition and monopoly in transport. Determination of rates and fares. Classification of goods. State regulation of rates and fares. State ownership and management.

INDIAN RAILWAYS.—Present situation. Finance. Controlling authority. Determination of rates and fares. Systems of management.

ROAD.—Transport of goods and merchandise. Types of vehicle. Rural transport. City transport. The motor bus. The tramway. Competition and monopoly in road transport. Determination of rates and fares. Classification, administration, and maintenance. Taxation of road vehicles. Water transport—inland and oceanic.

Books recommended :

*DOUGLOUS KNOOP : Outlines of Railway Economics.

*ACWORTH : Elements of Railway Economics.

*MARSHALL : Industry and Trade, Book III, Chapters 3-6.

Report of the Acworth Committee.

*FENELON : Economics of Road Transport.

Report of the Indian Road Development Committee.

*Report of the Indian Mercantile Marine Committee.

FENELON : Transport Co-ordination.

SRINIVASAN : Theory of Rates and Fares in India.

KIRKNESS AND MITCHEL : Report of the Road and Railway Competition Committee.

Co-ordination and Development of Transport (Final Report), H. M. S. Office, London, 1931.

Paper II (i).—*International Trade and Foreign Exchange*.—International trade : theory, comparative costs. Interpretation in terms of goods and prices. Advantages and disadvantages of international trade. Effects of the operation of the laws of increasing and diminishing returns upon international trade. International value. Money in international trade. Effects of price variation on the course of international trade.

Foreign Exchange.—Par of exchange : mint par, par of exchange in cases of currencies of different metals and inconvertible paper money. Fluctuations of exchanges : causes and correctives.

Tariff Policy.—Free trade, protection, Imperial preference dumping.

Books recommended :

*BASTABLE : Theory of International Trade.

TAUSSIG : International Trade.

*FLUX : Principles (relevant chapters).

*CLARKE : A. B. C. of Foreign Exchange.

WHITEAR : Foreign Exchange.

EINZIG : International Gold Movement.

Report of the Indian Fiscal Commission.

HARROD : International Economics (Cambridge University Press).

Paper VII.—Essay.

POLITICAL SCIENCE.

(For the Previous and Final Examinations of 1938.)

There shall be *seven* papers, including one on Essay. The Essay must be taken in the Final Examination. Of the rest, *any three* may be taken in the Previous and the *remaining three* in the Final.

Papers and Books recommended :

Paper I.—Ancient and Mediæval Political Thought.

PLATO : Republic.

ARISTOTLE. Politics.

DUNNING : A History of Political Theories, Vol. I.

BARKER : Plato and his Predecessors.

GIERKE : Political Theories of Middle Ages, with Maitland's Introduction.

HEARNshaw : Some Mediæval Thinkers.

Paper II.—Modern Political Thought.

HOBBS : Leviathan.

LOCKE : Second Treatise on Government.

ROUSSEAU : Social Contract.

J. S. MILL : Liberty.

MERRIAM AND BARNES : A History of Political Theories
Recent times.

GREEN : Lectures on the Principles of Political Obligations.

BOSANQUET : Philosophical Theory of the State.

LASKI : Grammar of Politics (Part I only).

BERTRAND RUSSEL : Roads to Freedom.

FOLLET : The New State.

Paper III.—Public Administration.

WILLOUGHBY : Principles of Public Administration.

D. BURNES : White Hall.

H. FINER : British Civil Service.

T. L. HEATH : The Treasury.

GYAN CHAND : The Financial System of India.

Manual of Procedure of the Legislative Assembly.

Government of India Act and rules made thereunder.

Paper IV.—Modern Constitutions of India, Great Britain,
Australia, France, U. S. A., and Italy.

Government of India Act.

Rules made under the Government of India Act.

OGG : English Government and Politics.

BRYCE : Modern Democracies, Vols. I and II.

VILLARI : The Fascist Experiment.

Papers V and VI.—*Any two* of the following:—

(1) Ancient Indian Political Thought and Institutions.

Kautilya : Arthashastra (Translated by Sham Shastri).

Mahabharata, Santiparvam (Rajadharma).

Manusmriti, Chapter VII.

BENI PRASAD : Theory of Government in Ancient India.

(4) Ancient and Mediæval Political Institutions.

SIDGWICK : Development of European Polity.

GREENIDGE : Greek Constitutional History.

GREENIDGE : Roman Public Life.

ARNOLD : Roman Provincial Administration.

Cambridge Ancient History (relevant chapters).

JENKS : Law and Politics during the Middle Ages.

(5) International Relations.

PEARS HIGGINS : Studies in International Law and
 Relations.

BUELL : International Relations.

TOYNBEE : Survey of International Affairs.

HOWARD ELLIS : The Origin, Structure and the Working
 of the League of Nations.

SHIELS : Ten Years of World Co-operation.

MOON : Imperialism and World Politics.

(6) Principles of Sociology.

GIDDINGS : Principles of Sociology.

TYLER : Primitive Culture.

HOBHOUSE : Social Development.

GINNSBERG : Social Psychology.

MACDOUGALL : The Group Mind.

GRAHAM WALLAS : The Great Society.

Paper VII.—Essay.

MATHEMATICS.

(Same as for M. Sc.)

B. Sc. EXAMINATION, 1938.

MATHEMATICS.

There will be *three* papers :—

I. (a) *Algebra*.—Inequalities, Simple continued fractions, Elementary theorems on convergence and divergence of series ; Binomial theorem for any rational index ; Exponential and logarithmic series ; Partial fractions and easy determinants.

(b) *Analytical Geometry*.—Straight line, circle, parabola, ellipse, hyperbola and the reduction of the general equation of the second degree to standard forms. The above to be treated by rectangular and polar co-ordinates only.

(c) *Trigonometry*.—Inverse trigonometrical functions, De Moivre's theorem, summation of trigonometrical series, hyperbolic functions, expansion of trigonometrical functions.

II. (a) *Differential Calculus*.—Limits, differentiation of a function of a single variable, successive differentiation, use of Taylor's and Maclaurin's theorems, indeterminate forms, maxima and minima for a single variable, partial differentiation, tangents, normals, asymptotes, double points, curvature, envelope and simple curve tracing.

(b) *Integral Calculus*.—Standard forms ; methods of substitution, Integration by parts, and easy reduction formulæ. Rectification of plane curves, quadrature, surfaces and volumes of solids of revolution.

(c) *Differential Equations*.—Ordinary differential equations of first order and first degree, and linear equations with constant co-efficients.

III. (a) *Statics*.—General conditions of equilibrium of a particle and of a rigid body under the action of forces in one plane, virtual work, friction, centre of gravity, common catenary, Hook's Law.

(b) *Dynamics of a Particle*.—Velocity and acceleration, Newton's Laws of Motion, work and energy, rectilinear motion, projectiles in vacuum, circular and harmonic motions, simple and cycloidal pendulums, impact.

(c) *Hydrostatics*.—Fluid pressure, pressure on immersed surfaces, conditions of equilibrium of a floating body, centre of pressure.

Or

Elementary Astronomy.—Celestial sphere, fundamental definitions, the Earth, the Sun, and the solar system, determination of the first point of Aries, the Moon, Eclipses, Time, determination of terrestrial latitude and longitude by simple methods.

NOTE.—No knowledge of Spherical Trigonometry is required.

Books recommended —

PARKAR : Astronomy.

BARLOW AND BRYAN : Mathematical Astronomy.

PHYSICS.

The examination will consist of *two* papers and a practical test. Candidates must obtain minimum pass marks in the practical examination as well as pass in the total of the theory papers.

The subjects of the papers will be—

Paper I. General Properties of Matter, Sound, and Heat.

Paper II. Light, Electricity, and Magnetism.

The following is the detailed syllabus :—

General Properties of Matter:—Law of Gravitation. Elementary problems on attraction, *e. g.*, attraction of a sphere and spherical shell on internal and external points, attraction of a disc and attraction of any closed surface on a point just outside. Definition of potential and its determination in simple cases. Definition of equipotential surface and lines of force, and elementary propositions connected there with. Definition of Elasticity.—Hooke's Law, Modulus of rigidity. Young's Modulus. Theory of the bending of a rod supported at both ends. Bulk modulus Definition of Moment of Inertia and Radius of Gyration. Calculation of Moment of Inertia of a sphere, a rectangular bar and a cylinder about any axis. Boyle's Law. Modern vacuum pumps. Oscillations of a simple pendulum and simple harmonic motion. Compound Pendulum. Surface tension and its determination, Definition

of Viscosity. Determination of the viscosity of liquids and gases by the flow through a capillary tube. Units and dimensions. Determination of the Gravitation constant.

Sound.—Nature of sound waves. Determination of velocity of sound. Its connection with the elasticity and density of the medium. Reflection and refraction of sound. Lissajou's Figures. Vibrations of strings and columns of air. Forced, free and maintained vibrations. Resonance. Methods of determining the frequency and wave-length of notes. Interference of sound waves. Applications of the equation $Y = a \cos \frac{2\pi}{\lambda} (vt - x)$ to problems of interference. Doppler's principle. Experimental methods of analysing complex sounds. Musical scales and Temperament.

Heat.—Construction and theory of thermometers. Coefficients of expansion and their variation with temperature. Unit of heat and calorimetry. Specific heat, Latent heat. Vapour pressures and their determination. Hygrometry. Radiant heat. Its reflection, refraction, absorption and emission. Prevost's theory of exchanges. Conductivity. Comparison and simple determination of conductivities of solids. Deduction of simple gas laws from kinetic theory of gases. Change of state and critical temperature. Van der Waal's equation. Determination of mechanical equivalent of heat. First and second laws of thermodynamics. Indicator diagrams. Carnot's Heat engine. Cycle of a real steam-engine. Thomson's Scale of temperature. Entropy. The four thermodynamic relations and the Latent heat equation.

Light.—Determination of the velocity of light. Elementary mathematical formulæ relating to the reflection and refraction of light. Thin lenses and combinations of lenses. Dispersion and spectrum analysis. The construction of achromatic lenses. Telescopes and microscopes. Ramsden's and Huyghen's eye-pieces. Elementary knowledge of the structure of the eye and defects of vision. Undulatory theory of light. Rectilinear propagation of light. Deduction of the laws of reflection and refraction. Interference of light. Newton's Rings and colours of thin films. Michelson Interferometer. Diffraction. Diffraction Grating. Double refraction in uniaxial crystals. Plane, circularly and elliptically polarised light. Rotation of plane of polarisation. Use of polarimeter.

Magnetism.—Laws of Magnetic Force. Magnetic Potential. Potential and force due to a small magnet and a magnetic shell. Action of one magnet on another. Magnetic Induction.

Susceptibility and permeability. Hysteresis. Ferro-, Para- and Dia-magnetism. Terrestrial Magnetism. Determination of H and dip.

Electricity.—Laws of electro-static force and their experimental proof. Electric field. Gauss's Theorem-Potential and its calculation in simple cases. Condensers and calculation of capacities. Electro-static Induction, Di-electric constant. Tubes of force and energy of the electro-static Field. Quadrant and absolute electrometers. Frictional and Inductive machines. Electrostatic Units.

Primary, secondary and standard cells. Magnetic Fields due to electric currents. Electrodynamics. Galvanometers. Ohm's Law. Krichoff's Laws. Properties of conjugate conductors. Measurement of Resistances. Potentiometer. Joule's Law. Thermo-electricity. Peltier and Thomson effects. Thermo-electric diagrams. Electro-magnetic Induction. Self and Mutual Inductances. Growth and decay of currents. Induction coil. Alternating currents. Impedance and Reactance. Power Factor. Choke Coil and Transformer. Electrolysis and Electro-chemical Equivalents. Absolute and practical units and their dimensions. Elementary Theory of Dynamos and Motors. Electric Oscillations. Generation and detection of electro-magnetic waves and their relation to light. Three electrode valves. Characteristic curves. Crystal and single valve receivers. Discharge of electricity through

gases. Cathode rays, Determination of $\frac{e}{m}$ and charge of

electrons. X-rays, Elements of Radio-activity, Isotopes.

EXPERIMENTS IN PRACTICAL.

- (1) The Balance.
- (2) Young's Modulus by stretching.
- (3) Young's Modulus by bending of a bar.
- (4) Experimental determination of Moments of Inertia.

- (5) Determination of Surface Tension by a Capillary tube.
- (6) Modulus of Torsion—
 - (a) Statical method.
 - (b) Dynamical method.
- (7) Sonometer.
- (8) Weight Thermometer.
- (9) Specific Heat by the method of Cooling.
- (10) Constant Volume Air Thermometer.
- (11) Constant Pressure Air Thermometer.
- (12) Dew Point and Humidity.
- (13) Determination of J. by Mechanical Method.
- (14) Sextant.
- (15) Index of refraction by Total Reflexion.
- (16) Determination of Index of Refraction by the Spectrometer.
- (17) Focal lengths of mirrors.
- (18) Focal lengths of lenses.
- (19) Magnifying power of Telescopes and Microscopes.
- (20) Determination of Wave-length by a Diffraction Grating.
- (21) Determination of H.
- (22) Magnetic Maps of Straight and Circular Currents.
- (23) Variation of the Magnetic Field due to a Circular Current along the Axis.
- (24) Comparison of E. M. F.'s by the Tangent Galvanometer.
- (25) Determination of Specific Resistances.
- (26) Determination of the Resistance of Galvanometer by Thomson's method.
- (27) Determination of the internal resistance of a Cell by Mance's Method.
- (28) Resistance of Accumulators.
- (29) Potentiometer.
- (30) Determination of J. by the Electrical method.

- (31) Reduction Factor of a Tangent Galvanometer.
And *any five* of the following :—
1. Searle's method for Young's Modulus and Modulus of torsion.
 2. Surface Tension either by Jager's method or by the detachment of a plate.
 3. λ by Clement and Desorme's method.
 4. Conductivity of a metal.
 5. Kundt's tube.
 6. Melde's Experiment.
 7. Photometry.
 8. λ by Biprism or Lloyd's mirror.
 9. λ by Newton's rings.
 10. Determination of the strength of Sugar solutions by a Polarimeter.
 11. Comparison of Capacities.
 12. Dip by Earth Inductor.
 13. Carey Foster's Bridge.
 14. Platinum Resistance Thermometer.
 15. Characteristic Curve of a Triode Valve.

CHEMISTRY.

The examination in Chemistry will comprise *two* papers and a practical examination. Candidates must obtain minimum pass marks in the practical examination as well as in the total of the theory papers.

The course prescribed for the Intermediate Examination, together with the following :—

Physical and Inorganic.—Atomic theory. Avogadro's hypothesis and its application. Determination of equivalents. Specific heats of elements and compounds. Isomorphism. The periodic classification of elements. Methods of determining atomic and molecular weights. Kinetic theory of gases. Law of mass action and its applications. Ionic theory of solutions. Osmotic pressure, influence of solutes on freezing and boiling points. Laws of electrolysis, electro-chemical

equivalents; determination of conductivity, transport numbers. Avidity of acids and bases. Elements of catalysis, colloids, spectrum analysis, thermo-chemistry, atomic structure, atomic numbers and isotopes. The relation of physical properties to chemical constitution.

The occurrence, preparation and properties of the following elements and of their important compounds, treated especially with regard to the periodic classification. Outlines of the main metallurgical processes of the metals indicated, by an asterisk. Hydrogen, Argon, Helium, Li, *Na, *K, *Cu, *Ag, *Au, Mg, Ca, Sr, Ba, *Zn, Cd, *Hg, B, *Al, C, Si, Sn, *Pb, N, P, As, Sb, Bi, O, S, Cr, F, Br, Cl, I, Mn, *Fe, Co, *Ni, and *Pt. Principal chemical manures. Outline of the nitrogen cycle.

Practical.—Qualitative analysis of mixtures of substances containing not more than four of the following radicals, positive or negative, by dry and wet methods:—

NH₄, Na, K, Mg, Ca, Sr, Ba, Zn, Mn, Ni, Co, Al, Cr, Fe, Cu, Bi, Hg, Cd, As, Sb, Sn, Pb, Ag, CO₃, S, SO₃, SO₄, F, Cl, Br, I, NO₂, NO₃, ClO₃, also borate, acetate, oxalate, phosphate.

Acidimetry and alkalimetry, iodometry (using thiosulphate, arsenite, permanganate and dichromate). Titration of iron with potassium permanganate and dichromate, standardization of permanganate by oxalic acid. The volumetric determination of silver as chloride and as thiocyanate.

Gravimetric estimation of Ba, Cu, Ag, Pb, Zn, Fe, chloride and sulphate.

Organic.—The rise, development and characteristics of organic Chemistry. Methods of purification and tests of purity of organic substances. Methods of ultimate analysis, qualitative and quantitative. Determinations of empirical formula and molecular weights. Structural formula, Homology and Isomerism. The occurrence, preparation, properties and structure of the following:—

Acyclic hydrocarbons, saturated (up to pentane) and unsaturated (the first members). The petroleum industry. Halogen derivatives, mono-, di-, tri-, tetra-, &c.

Alcohols saturated (the first four): industrial alcohol. Fermentation, and elementary knowledge of enzymes, yeast, bacteria and moulds. Glycol, glycerol and their derivatives. Manufacture of glycerol and its nitrates.

Ethers. Aldehydes and ketones.

Monobasic fatty acids saturated (up to butyric). Vinegar, soaps and candles manufactures. Oils and fats. Acid halides, acid anhydrides, amides and esters.

Mercaptans.

Amines, nitro-paraffins. Cyanogen and derivatives. Urea.

Organo-metallic compounds of zinc and magnesium.

Haloid acids, cyanacetic acid, amino-acids. Hydroxy-monobasic acids (glycollic and lactic). Optical isomerism. Ketonic acids (aceto-acetic). Tautomerism.

Dibasic acids (carbonic, oxalic, malonic and succinic) and derivatives. Acids malic and tartaric.

Acid citric.

Glucose, fructose, sucrose, starch and cellulose (only a general view of occurrence, properties and reactions). Manufactures of sugar, paper and cellulose-derivatives.

Proteins, their occurrence and general characteristics in an elementary way.

Cyclic aromatic hydrocarbons, benzene, toluene and naphthalene. Coal gas and coal tar distillation. Characteristics of aromatic compounds. The following derivatives of the above three, the halogen, the nitro-, the amino-, and the sulphonates. The diazo-reaction.

Phenol, catechol, resorcinol, pyrogallol, quinol, and the naphthols. Benzyl alcohol, benzaldehyde, benzoic acid, benzoyl chloride. Salicylic and phthallic acids.

Pyridine.

Practical.—

Systematic Identification of the following organic compounds, including (1) the determinations of their boiling- or melting-points, (2) the detection of the elements

contained, (3) the application of tests characteristic of the groups contained and of the compounds themselves, and (4) wherever possible, the preparation of a derivative in a pure condition :—

Benzene, naphthalene, methanol, ethanol, glycerol, phenol, formaldehyde benzaldehyde, acetone; pyrogallol; acids formic, acetic, oxalic, tartaric, citric, benzoic and salycilic; ethyl acetate; glucose, sucrose and starch; chloroform, iodoform, B-bromonaphthalene; urea, aniline.

Books recommended :

CAVEN : Foundations of Chemical Theory.

WALKER : Introduction to Physical Chemistry.

CAVEN AND LANDER : Systematic Inorganic Chemistry.

SMITH AND KENDALL : Introduction to Inorganic Chemistry

PARTINGTON : Text-book of Inorganic Chemistry.

MELLOR : Modern Inorganic Chemistry.

COHEN : Theoretical Organic Chemistry.

PERKIN AND KIPPING : Organic Chemistry.

OSTWALD : Foundations of Analytical Chemistry.

CAVEN : Qualitative Analysis.

MOLLOW PERKIN : Qualitative Analysis.

BRUCE AND HARPER : Practical Chemistry.

CAVEN: Quantitative Chemical Analysis; Part I (Blackie).

ZOOLOGY.

The examination will comprise *two* papers and a *practical* examination. Candidates must obtain the minimum pass marks in the practical examination as well as in the total of the theory papers.

The following Syllabus is prescribed :—

The general principles of Biology treated in an elementary manner, comprising the theory of evolution with the general notions of variation, heredity, and adaptation.

The elementary principles of the geological and geographical distribution of animals.

The structure and the phenomena of the animal cell.

Reproduction, sexual and asexual; Parthenogenesis; metamorphosis; alternation of generations.

The structure, habits, development and the economic importance (if any) of the non-chordata as illustrated by—

Protozoa	... Amœba, Paramœcium, Euglena, and Malarial parasite.
Porifera	... Sycon or any other sponge.
Cœlenterata	... Hydra, Obelia.
Platyhelminthes	... Liverfluke, and Taenia.
Annulata	... Pheretima, Nereis and Leech.
Echinodermata	... Starfish (general characters and external features only).
Arthropoda	... Prawn, Locust (if not available, Cockroach). Anopheles, Housefly, and Scorpion.
Mollusca	... A fresh-water Mussel and Pila or any other Pond Snail.

The principal characteristics, structure and habits of the chordata as illustrated by—

Acrania—

Hemichorda	... Balanoglossus.
Urochorda	... Ciona or any other ascidian.
Cephalochorda	... Amphioxus.

Craniata—

Pisces Scoliodon or any other Elasmobranch, and external features of a bony fish (skeleton excluded).
Amphibia	... The Frog.
Reptilia	... Hemidactylus or any other lizard.
Aves Columba. (The skeleton of Gallus may be substituted.)

Mammalia ... The general characters of the Prototheria and Metatheria; *Lepus*, Squirrel or Rat; *Canis* (skull only).

The outlines of the development of *Ciona*, amphioxus, frog, chick, and rabbit. Amnion and Allantois, Placentation.

The elementary physiology of the various organs of the animal body, as illustrated by the Frog and Rabbit.

Paper I—shall comprise the non-chordata, the structure of the animal cell, the subjects of Reproduction and Histology and the general principles of Biology.

Paper II—The Chordata, Vertebrate Embryology, Physiology, Geological and Geographical distribution.

PRACTICAL COURSE.

Candidates will be required to show a knowledge of simple microscopic technique and to dissect and describe the following animals:—

Amœba, Paramœcium, Sycon, Hydra, Obelia, Pheretima, Nereis, Leech, Starfish (external features only), Prawn, Cockroach, Scorpion, Unio, Pila, Balanoglossus (external features only), *Ciona*, Amphioxus (dissection omitted), Scoliodon or any other Elasmobranch, Frog, Lizard, Pigeon, and Rabbit, Squirrel or Rat.

Osteology of dogfish, frog, lizard, fowl, rabbit, dog's skull, and Echidna (limbs and limb girdles only).

Note-books containing a complete record of laboratory work must be produced at the practical examination.

Books recommended—

PARKER AND HASWELL: Text-book of Zoology (Macmillan), Vols. I and II.

WIEDERSHEIM AND PARKER: Comparative Anatomy of Vertebrates.

BOURNE: Comparative Anatomy of Animals, Vols. I and II.

PARKER AND BHATIA: Text-book of Zoology for Indian Students.

DENDY : Outlines of Evolutionary Biology.

MARSHALL and HURST : Practical Zoology (Smith Elder).

THOMSON : Outlines of Zoology.

KINGSLEY : Comparative Anatomy of Vertebrates.

K. N. BAHL : Pheretima.

E. M. THILLAYAMPALAM : Scoliodon.

BAINI PRASAD : Pila.

BORRODAILE : Invertebrata.

BOTANY.

The examination will comprise *two* papers and a *practical* examination. Candidates must obtain minimum pass marks in the practical examination as well as pass in the total of the theory papers.

The following syllabus is prescribed :

1. The anatomy (including histology) of the vegetative and reproductive organs of Phanerogams and Cryptogams treated from the comparative and functional standpoints.

A general knowledge of the plant-cell and plant-tissues. The cell contents and their micro-chemical reactions. An elementary knowledge of plant ecology.

2.—The morphology, physiology, and life-histories of :—

Thallophyta—

(a) Bacteria.

(b) Algae ... Pleurococcus, Ulothrix, Oedogonium, Vaucheria, Chara, Oscillatoria, Fucus, and Polysiphonia.

(c) Fungi ... Cystopus, Rhizopus, Saccharomyces, Morchella, Eurotium, Ustilago, Puccinia and Agaricus.

Bryophyta—

(a) Hepaticæ ... Riccia, Marchantia and Anthoceros.

(b) Musci ... Funaria or other moss.

Pteridophyta—

(a) Filicinae ... Aspidium or other fern, Marsilia.

(b) Lycopodiinae... Selaginella.

Spermaphyta—

- (a) Gymnosperms ... *Cycas* and *Pinus*.
- (b) Angiosperms ... A detailed knowledge of the structure and life-history of a typical flowering plant and the characteristic features and economic importance of the following families :—

Gramineæ, Palmæ, Liliaceæ, Musaceæ, Caryophyllaceæ, Ranunculaceæ, Papaveraceæ, Cappari-
daceæ, Cruciferae, Rosaceæ, Leguminosæ, Ruta-
ceæ, Euphorbiaceæ, Malvaceæ, Violaceæ,
Myrtaceæ, Umbelliferae, Asclepiadaceæ, Con-
volvulaceæ, Labiatae, Solanaceæ, Acanthaceæ,
Rubiaceæ, and Compositæ.

3. Vegetable Physiology—

- (a) An elementary knowledge of plant anatomy from the physiological standpoint.
- (b) Nutrition—Chemical constituents of the plant; the essential constituents of plant food; the absorption of water and dissolved substances; water conduction; transpiration; assimilation of Carbon and Nitrogen; the utilization and transference of the products of assimilation and reserve materials; special processes of nutrition.
- (c) Respiration—General facts.
- (d) Growth—General facts; the effect of external influences on growth.
- (e) Movements—Protoplasmic movements; imbibition movements; heliotropism; geotropism; contact stimuli and their effects; movements of irritability.
- (f) Reproduction—Vegetative reproduction; sexual reproduction, including double fertilization; cross and self-pollination; dispersal of fruits and seeds; germination.

4. An elementary knowledge of variation, heredity, evolution and plant-breeding.

5. Elementary plant ecology.

Paper I—shall comprise the Morphology, Physiology and life-histories of the Cryptogams and Gymnosperms.

Paper II—shall comprise the Morphology, Physiology, and life-histories of Angiosperms, General Plant Physiology, General Biology and Ecology.

PRACTICAL COURSE.

The dissection of plants and parts of plants. The preparation, staining, and study of microscopical sections of plants and the principal varieties of plant tissues. The uses of stains and other re-agents, and the micro-chemical reactions of protoplasm, starch, and cellulose with its derivatives.

A practical study of the typical plants enumerated under section 2; the referring of plants and parts of plants to their appropriate position in the given schedule of classification.

The description of plants and parts of plants in technical language.

Simple experiments in Plant Physiology.

Note-books containing a complete record of laboratory work must be produced at the *practical* examination.

Books recommended—

SCOTT: Structural Botany, Vols. I and II.

STRASBURGER: Text-book of Botany.

STRASBURGER AND HILLHOUSE: Practical Botany.

COULTER, BARNES AND COWLES: Text-book of Botany.

WILLIS: Flowering Plants and Ferns.

CAVERS: Practical Botany.

PALLADIN: Plant Physiology.

BRIMBLE: Everyday Botany.

HOLMAN AND ROBBINS: Text-book of General Botany.

GAGER: General Botany.

MILITARY SCIENCE.

There will be *two* papers and a *practical* test:—
Paper I.—Military Organization, administration, and tactics.

This will include—

- (1) Principles of war, with historical illustrations, and their application to operations in the field with special reference to Infantry, *i. e.*, Protection (Advance guards, Rear guards, and outposts); Attack and Defence.
- (2) Characteristics of Fighting Troops, Cavalry, Infantry, Artillery, Aircraft, Tanks, and Armoured Cars.
- (3) Organization of fighting troops.
- (4) Information, reconnaissance from the air and on the ground.
- (5) Composition and transmission of orders (operation orders, reports and messages); means of communication in the field.
- (6) Field works,—cover, obstacles, trenches, water supply and sanitation.

Reference Books—

Field Service Regulations. Vols. 1 and 2 (Government publication).

Infantry Training, Vol. 2 (Government publication).

Manual of Field Works (Government publication).

Manual of Military Hygiene (Government publication).

Historical Illustrations to F. S. R.

PAKENHAM WALSH : Elementary Tactics.

MARSHALL FOCH : Principles of War.

Manual of Map-reading and Field sketching (Government publication).

PENDLEBURY : Tactics.

Paper II.—Military Law (Indian).

This will include—

- (1) Indian Army Act.
- (2) Arrest and investigation of charges.
- (3) Court martial.
- (4) Evidence.
- (5) Civil offences.
- (6) Duties in aid of the Civil Power.
- (7) I. T. F. Act.

Reference Books—

Manual of Indian Military Law (Government publication).

O'Donnell: Manual of Indian Military Law (abridged).

PRACTICAL WORK.

The candidates will be required to pass a practical test in (a) map-reading, (b) field-sketching, and (c) elementary tactical exercises (platoon).

ENGLISH.

[Same as in the General Section prescribed for the B. A. Examination. (See page 1.)]

M. SC. EXAMINATION.

MATHEMATICS.

PREVIOUS.

(For the Examination of 1937.)

Paper I.—(i) *Algebra*.—Convergence of infinite series and of infinite products; simple tests for uniform convergence of series; expansion of Sine and Cosine in an infinite product.

Book recommended :

HOBSON : Plane Trigonometry.

(ii) *Theory of Equations*.—General properties of equations, relations between roots and co-efficients, symmetric functions of the roots, transformation of equations, algebraic solutions of the cubics and biquadratics, sums of powers of roots, Sturm's theorem, approximate solutions of numerical equations, determinants.

(iii) *Vector Analysis*.—Fundamental notions, addition, subtraction and multiplication of Vectors, simple geometrical and mechanical applications.

Book recommended :

WEATHERBURN : Elementary Vector Analysis.

Paper II.—(i) *Differential Calculus*.—Theorem of mean values; Taylor's theorem; maxima and minima of functions of two or more variables; multiple points; change of variables; Jacobians.

(ii) *Integral Calculus*.—Cauchy's definition of an improper integral; definite integrals including Beta and Gamma functions; multiple integrals; Green's and Stoke's theorems; volumes and surfaces of solids; use of Fourier's series.

- (iii) *Differential Equations*.—Ordinary equations of the first order; general linear equations with constant co-efficients; linear equations of the second order, including transformations to standard forms and variation of parameters; homogeneous equations and exact equations; simultaneous differential equations with constant co-efficients; total differential equations; partial differential equations of the first order.

Paper III.—(i) *Analytical Geometry of three dimensions*.—Plane, straight line, reduction of the general quadratic equation to standard forms, properties of a quadric surface referred to its principal axes.

- (ii) *Analytical Geometry of two dimensions*.—Homogeneous co-ordinates, tangential co-ordinates, families of conics, invariants and co-variants.

Paper IV.—(i) *Analytical Statics*.—Strings in two dimensions; centres of gravity; virtual work, stability, systems of forces in two or three dimensions.

- (ii) *Dynamics of a particle in two dimensions*.—Central forces, motion in a resisting medium, constrained motion, hodographs and revolving curves.

•
FINAL.

(For the Examination of 1938.)

The examination shall consist of *four* papers as follows:—

COMPULSORY.

Paper I.—(i) *Theory of Aggregates*.—Cantor's and Dedekind's theory of irrational numbers; arithmetical theory of limits; linear sets; limiting points and derivatives of point sets; descriptive terminology of point sets; enumerable aggregates; power and content of an aggregate; definition of measure.

- (ii) *Theory of Functions of a real Variable.*—Continuity and discontinuity of functions of a single variable, properties of continuous functions, maxima and minima of a continuous function, derivatives of functions, Mean Value theorem, Riemann's integration, Fundamental theorem of the integral calculus, Mean value theorems in integral calculus, the continuity of the sum function of an uniformly convergent series, differentiation and integration of series.
- (iii) *Theory of Functions of a Complex Variable.*—Conformal representation of one plane on another; integration of a regular function; Cauchy's theorem, residues; development in power series; Taylor's and Maclaurin's series and Laurant's series.

Paper II.—(i) *Statics.*—Attractions and potentials of rods, discs and spheres; Gauss's, Laplace's and Poisson's theorems.

- (ii) *Rigid Dynamics* in two and three dimensions.—Moments and products of Inertia, Principal axes, Momental Ellipsoid and definition of ellipsoid of gyration. D. Alembert's principle. Motion about a fixed axis, centre of percussion. Motion in two dimensions. Principles of momentum and energy. Lagrange's equations in generalised co-ordinates. Euler's Dynamical and Geometrical equations.

Papers III and IV.—*Any two* of the following:—

- (i)—*Spherical Harmonics.*—Linear partial differential equations with constant co-efficients, Monge's methods, solution in series of Legendre's, Bessel's equations and hyper-geometric series, solutions of Laplace's equations in spherical, cylindrical and ellipsoidal co-ordinates, expansion of a function to surface harmonics, application to potential problems.

Books recommended :

MACROBERT : Spherical Harmonics.

GANESH PRASAD : Spherical Harmonics, Part I.

(ii)—Hydro-mechanics

Hydro-statics.—Laws of fluid pressure ; general conditions of equilibrium in a fluid ; uniformly rotating liquid ; equilibrium of floating bodies, including metacentric formulæ ; equilibrium of gaseous liquids (excluding capillarity and oscillation of floating bodies).

Hydro-dynamics.—Lagrangian and Eulerian methods, continuity, bounding surface condition, velocity, potential and current function, sources and sinks, motion of circular and elliptic cylinders in two dimensions, motion of a sphere in a liquid, simple waves, vibrations of a string and of air in tubes.

Book recommended

BESANT and RAMSAY : Hydro-mechanics, Parts I and II.

(iii)—Elliptic Functions and Vector Analysis.

Elliptic Functions.—General properties of elliptic functions ; Weierstrassian and Jacobian elliptic functions, including the Sigma and Zeta functions ; elliptic integrals ; simple geometric and mechanical applications.

Books recommended :

GOUSAT : Mathematical Analysis.

HANCOCK : Elliptic Functions.

Vector Analysis.—The Scalar and vector products of Vectors ; gradient of a scalar function and the curl and divergence of Vector functions. The line, space and volume integrals of Vector functions with the standard transformation formulæ. The linear Vector functions. Simple applications to differential geometry, attraction and potential.

Book recommended :

WEATHERBURN : Advanced Vector Analysis.

(iv)—Spherical Trigonometry and Spherical Astronomy.

Spherical Trigonometry, including the general properties of Spherical triangles.

Spherical Astronomy—Fundamental Instruments: Celestial sphere; Atmospheric refraction; Precession and Nutation; Time; The Ecliptic; The Equation of Time; Aberration; Parallax; Eclipses; Rising of the Sun and the Moon; Twilight; Determination of position on earth; Planetary Phenomena.

Books recommended :

SMART : Astronomy.

BALL : Spherical Astronomy.

TODHUNTER AND LEATHEM : Spherical Trigonometry.

(v)—Solid and Differential Geometry.

Systems of quadrics, surfaces and curves in space, including the associated developables and Frenet's formulæ, fundamental forms, Gauss's characteristic equation and the Mainardi-Codazzi relations, lines of curvature, conjugate lines, asymptotic lines, geodesics and geodesic curvature.

Books recommended :

BELL : Solid Geometry.

FORSYTH : Differential Geometry (1st three chapters)

EISENHART : Differential Geometry.

PHYSICS.

(For the Previous and Final examinations of 1938.)

The following is the detailed syllabus (in addition to what is included in the B. Sc. course) :—

Paper I.—*Heat*. Measurement of high and low temperatures. Absolute Temperature and correction of gas thermometers. Kinetic Theory of Matter. Molecular dimensions.

Andrew's Experiments. Equation of state. Change of state and liquefaction of gases. Conductivity and its absolute determination.

Thermodynamics and heat engines. Radiation. Application of Thermodynamics to Radiation. Quantum Theory of Radiation. Debye's Theory of specific heats. Nerast's Heat Theorem.

Paper II.—*General Properties of Matter.* Theory of compound Pendulums. Determination of Gravitation constant. Simple Theory of Elasticity. Theory of surface tension. Elementary Theory of waves and ripples. Viscosity of liquids and gases. Compression and dilatation of liquids. Diffusion. Modern Air-Pumps.

Sound. Vibrations and waves. Plane and spherical waves of sound. Elementary theory of vibration of strings, bars, plates, membranes and pipes. Fourier's Theorem and its applications to vibrations of strings. Forced vibrations and resonance. Simple Theory of resonators. Combinational Tones. Maintenance of vibrations. Theory of singing flames. Concord and discord. Musical Scales. Theory of Vowel sounds.

Paper III.—*Electricity and Magnetism.* General Theory of Magnetic, Electric and electro-magnetic fields. Electro-magnetic Induction. Alternating currents. Electrical and Magnetic measurements, D. C. and A. C. measuring instruments. Dynamos, alternators, Motors, Transformers and Accumulators. Electrolysis. Thermo-electricity. Electric Oscillations. Maxwell's Equations and Electro-magnetic waves. Wireless Telegraphy and Telephony.

Paper IV.—*Electron Theory.* Conduction of electricity through gases. Ionisation currents. Mobility and diffusion of ions. Ionisation Potentials. Cathode rays. Determination of e/m and of the electronic charge. Photo-electricity. Thermionics. The nuclear theory of the atom. Determination of the nuclear charge and the number of electrons in the atom. Positive ray analysis and mass spectrograph. Production, reflection, refraction, and diffraction of X-rays. Measurement of wave lengths of X-ray and X-ray spectrographs. X-ray spectra. Radio-activity and Radio-active Transformations. Dynamics of the Electron.

Variation of the mass of the electron with velocity. Radiation from accelerated Electrons. Electrical Theory of Matter, Magnetons.

Paper V.—*Light, including elements of Spectroscopy.* Theory of image formation. Cardinal points. Spherical and chromatic aberrations. Aplanatic points. Theory of Diffraction. Concave and Echelon gratings. Interferometers. Lummer plate. Theory of double refraction. Interference of Polarised light. Spectroscopy of infra-red and ultra-violet. Elements of the electro-magnetic theory of light and its application to reflection, refraction, dispersion and absorption. Magneto and Electro-optics. Series spectra. Elementary knowledge of Bohr's Theory of atomic spectra. Propagation of light in moving media and special theory of Relativity.

Paper VI.—One of the following subjects:—

(a) *Meteorology.*

Theoretical.—Thermodynamical properties of gases; determination of heights from pressures and temperatures at different levels.

Isothermal, convective, and radiative equilibrium of the atmosphere. Comparison with actual conditions existing in different parts of the world.

Buys Ballot's Law; cyclonic and anti-cyclonic motions, influence of change of temperature-gradient with height on change of wind with height.

Turbulence—Taylor's eddy conductivity and eddy viscosity. Wind in the lower layers of the atmosphere.

Thermodynamics of moist air, Neuhoff's diagram and T- θ diagram. Radiation—solar and terrestrial.

General ideas about waves and disturbances in superposed layers of air with horizontal and inclined surfaces of separation.

Meteorological Optics: Blue of the sky. Twilight colours Halos. Coronas. Rainbows.

General circulation of the atmosphere; trades and anti-trades; monsoons, cyclones of the subtropical and tropical seas.

(b) *Spectroscopy.*

Various methods of producing spectra; prism spectroscopes of various types; concave grating; echelon grating; Lummer plates. Littrow spectrographs, vacuum grating spectrographs. Infra-red spectrometer. Photography of infra-red and ultra-violet spectra. Determination of wave-lengths by interference methods. Band spectra; series spectra, series formulæ and notations. Relation of atomic constants and series spectra; general principles of quantum theory of line spectra; Bohr's theory; Resonance and ionisation potentials. Energy diagrams. Correspondence principle. Kossell and Sommerfeld's Displacement Law. Emission and absorption spectra of elements; Stark effect, Zeeman effect. Fine structure of lines; thermal excitation; Ritz's law. Laws of emission and absorption; Continuous spectra from black bodies and other substances. Application of spectroscopy to astrophysics. Theories of dispersion and absorption.

(c) *X-rays.*

Phenomena in vacuum tubes; generation of X-rays, high voltage generators; X-ray bulbs; different methods of setting up an X-ray establishment.

Study of properties of X-rays, secondary X-rays, characteristic X-rays, absorption co-efficient of characteristic X-rays, ionisation by X-rays, scattering of X-rays.

Laue's discovery of the diffraction of X-rays by crystals, Bragg's method of reflection; crystal analysis by Bragg's method of reflection; crystal analysis by the Debye-Scherrer method, and the Laue method, X-ray spectrometers; Moseley's work on the measurement of wave-lengths of characteristic X-rays. Siegbahn's work; X-ray absorption spectra.

(d) *Wireless Telegraphy and Telephony.*

Historical introduction.

Generation, reflection, refraction, polarisation and propagation of Hertzian waves, oscillatory discharge, generation

of short waves, and their identity with dark heat rays. Early methods of wireless telegraphy radiation to long distances; reception.

Radio-frequency measurements of capacity, resistance, self and mutual inductance, and current. Coupling, measurement of wave-length; wave-meters.

Various types of antennae; theory of radiation from antennae.

Thermionic valves, their theory and uses.

Theory of thermionic currents; characteristic curves of valves; the triode valve as detector, amplifier, and generator of waves. Principles of regeneration. Multi-stage amplification for high and low frequency.

Telephony :—

Different kinds of microphones: modulation, loud-speakers.

Transmitting circuits; receiving circuits; heterodyne reception.

Propagation; atmospherics and day-light effect.

Uses—broadcasting; meteorological.

Practical.

The scope of work is approximately indicated by the following.—

I. Heat.

1. Steam Calorimeter.
2. Conductivity.
3. Platinum Thermometer.
4. Thermo-couple.
5. Determination of J.
6. Determination of Stefan's Constant.

II. General Properties of Matter and Sound.

1. Katers' Pendulum.
2. Viscosity of Liquids and Gases.
3. Variation of Surface Tension with Temperature
4. Stroboscopic Determination of Frequency.
5. Kundt's Tube.

III. Electricity and Magnetism.

1. Standardisation of Ballistic Galvanometer.
2. Self and Mutual Induction.
3. Capacity of condensers.
4. Hysteresis.
5. Potentiometer.
6. Carey Fosters' Bridge.
7. Kelvin Bridge.
8. A. C. Measurements.
9. Wireless receiving sets.

IV. Electron Theory.

1. Quadrant Electrometer.
2. Cathode-ray Oscillograph.
3. Measurement of e/m .
4. Measurement of charge of an electron.
5. Measurement of Photo electric currents and of 'h'.
6. Ionisation by Alpha-rays and Alpha-ray tracks.
7. Diffraction of X-rays.

V. Light.

1. Adjustment and Calibration of Spectrometer.
2. Constant Deviation Spectrometer.
3. Biprism.
4. Michelson Interferometer.
5. Fabry and Perot Interferometer.
6. Elliptically and Circularly polarised light.
7. Verification of Fresnel's formulae of reflection and refraction of light.

VI. (a) Meteorology.

- (1) Different types of clouds, General physical processes involved in their formation. Nephoscopes and their use for measuring wind direction and velocity.
- (2) Practical knowledge of self-recording instruments of a first class meteorological observatory.
- (3) Pilot balloons, following and working out single theodolite, double theodolite and flag methods.
- (4) Sounding balloons, meteorographs. Calibration, working out of records and interpretation.

(b) Spectroscopy.

- (1) Arc and Spark spectra.
- (2) Quartz spectrograph.
- (3) Concave Grating.
- (4) Determination of Wave-lengths—Hartmann Formula
- (5) Lummer Gehecke Plate.
- (6) Zeeman effect.
- (7) Spectrophotometer.
- (8) X-ray Spectrograph.

(c) X-rays.

- (1) Practice with X-ray tubes.
- (2) Bragg's reflection method of X-ray analysis—
(The wave-length, crystal constants and determining the structure of crystals).
- (3) Practice with the X-ray Spectrometer; wave-length of characteristic lines.
- (5) Absorption and scattering of X-rays.
- (6) Ionisation by X-rays.

(d) *Wireless Telegraphy and Telephony.*

- (1) High frequency measurement of capacity ; self and mutual inductance ; resistance.
- (2) Measurement of wave-length.
- (3) Characteristic curves of triode valves.
- (4) Practice with different detectors.
- (5) Crystal detectors and valve detectors.
- (6) Practice with transmitting sets.
- (7) Practice with amplifying sets.

CHEMISTRY.

PREVIOUS.

(For the Examination of 1937.)

NOTE.—Candidates will be required to pass in the written as well as in the practical examination separately.

There will be *three* papers as follows :—

Paper I.—Inorganic.

Paper II.—Organic.

Paper III.—Physical.

In each paper questions will be set on History.

Inorganic.—The elements specified for the B. Sc. course in more detail, including their modes of occurrence and chief metallurgical processes. A general knowledge of the less common inorganic compounds and of important rare elements.

Standard analytical methods outside the B. Sc. course. Gas analysis. The use of Lunge's Nitrometer.

Organic.—The B. Sc. course extended so as to include the simpler synthetic dyes, non-benzenoid rings, natural bases, terpenes, sugars, organo-metallic compounds, other compounds containing sulphur. Enzymes and examples of their industrial use, the chemistry of carbon assimilation (the whole treated in an elementary and representative manner). The theories of geometrical isomerism, optical activity, steric hindrance.

Preparation and systematic detection of organic compounds. Ultimate (or "elementary") analysis.

Physical.—The B. Sc. course extended so as to include the theory and practical methods of determination of vapour density, osmotic pressure, molecular weight, heat of reaction, velocity of reaction, strength of acids. Electro-analysis, spectroscopy, and photo-chemistry. The phase rule, equilibrium, the periodic law, surface phenomena.

Historical.—Outlines of chemical history from the time of Boyle.

FINAL.

(For the Examination of 1938.)

NOTE.—Candidates will be required to pass in the written as well as in the practical examination separately.

Students who have passed the Previous may present *any* one of the following branches of Chemistry :—

(1) Inorganic, (2) Organic, (3) Physical, or (4) Applied.

Notice must be sent to the Registrar by the 15th August, of the branch which the student intends to present at the ensuing examination and, in the case of (4), the industry or manufacture to which he is attached.

A student, offering Inorganic, Organic, or Physical, shall present a thesis dealing with original work done by him in his selected branch. The thesis, type-written and in duplicate, must reach the Registrar not later than one week before the date fixed for the written examination.

In each of these three branches there will be *two* papers in addition to the thesis.

In branch (4) Applied Chemistry, the procedure for testing the fitness of a candidate will be decided as occasion arises.

Inorganic.—More recent discoveries, methods and theories, including an acquaintance with original papers. Reaction at high and low temperatures, examination of alloys and minerals and the practical use of the spectroscope. History of Inorganic Chemistry.

Organic.—More recent discoveries, methods and theories, including an acquaintance with original papers. History of Organic Chemistry

Physical.—More recent discoveries, methods and theories, including an acquaintance with original papers. History of Physical Chemistry.

Applied.—The principle has been laid down that a candidate will be expected to show that he has *bona fide* devoted himself to some important industry or manufacture and has acquired a reasonable degree of efficiency under all three of the following heads:—

- (i) *Technical*.—He should have *either* (a) performed systematic analytical control, or (b) engaged in systematic research, or (c) introduced improved methods of mechanical handling, application or distribution of power, etc.
- (ii) *Economic*.—He should have acquired some knowledge of sources and markets, of costing (including plant, power, labour, control, distribution, depreciation, etc.) and of disposal or utilization of by-products and waste.
- (iii) *Foreign*.—He should have studied the methods in use in other countries, as far as ascertainable by him.

ZOOLOGY.

PREVIOUS.

(For the Examination of 1937.)

- A.—The structure, development, Bionomics, and Distribution in space and time of typical representatives and of other examples illustrative of general characters of the principal sub-divisions of each phylum of the Non-Chordata.
- B.—The general principles of Biology, comprising the various theories of Evolution and the subjects of Variation, Adaptation, etc.

The standard of examination is approximately indicated by the following text-books :—

PARKER AND HASWELL : Text-book of Zoology, latest edition, two volumes.

SEDGWICK : Text-book of Zoology.

The student is expected to consult other books of reference as well.

There will be *three* papers :—

Paper I will deal with the Comparative Anatomy and Embryology of Protozoa, Porifera, Coelenterata, Platyhelminthes, Nematelminthes, Trochelminthes, Molluscoida and Echinodermata.

Paper II will deal with the Comparative Anatomy and Embryology of Annulata, Arthropoda and Mollusca.

Paper III will deal with the history and general principles of Biology, including the facts and theories of Evolution, and the subjects of Variation, Adaptation, Selection and Isolation.

Candidates must produce at the practical examination their preparations and note-books containing a complete record of laboratory work.

FINAL.

(*For the Examination of 1938.*)

The subjects for examination shall be—

A.—The structure, Development, Bionomics and Distribution in space and time of typical representatives and of other examples, illustrative of general characters of the principal sub-divisions of the Chordata.

B.—A detailed knowledge of one of the two groups to be announced at least one year previous to the date of the examination. The groups selected until further notice are—

(a) Fishes, and

(b) Reptiles.

C.—A thesis recording original work done by the candidate together with a review of recent literature on the problem investigated by him.

A candidate will be required to offer Papers I and II and either (a) or (b) or (c) of Paper III.

Paper I will deal with the Comparative Anatomy and Embryology of the Chordata.

Paper II will deal with the facts and theories of Heredity, Sex, Experimental Morphology, Experimental Embryology, Biometrics, Vertebrate palaeontology, and Zoogeography.

Paper III (a) will deal with the Fishes.

Paper III (b) will deal with the Reptiles.

Paper III (c) Thesis.

PRACTICAL EXAMINATION.

A selected subject shall be studied as much as possible from the practical standpoint. A selected group shall be studied primarily from the local fauna available in the United Provinces and also from other examples of important types.

Candidates must produce at the practical examination their preparations and note-books containing a complete record of laboratory work which will be taken into consideration in determining the results of the examination.

BOTANY.

(For the Previous and Final Examinations of 1938.)

NOTE.—Candidates will be required to pass in the written as well as the practical examination separately.

For the M. Sc. Examination in Botany, Previous and Final, there shall be the following five papers and thesis or Special paper as indicated below :—

Paper I. Thallophytes.

Paper II. Bryophytes and Pteridophytes.

Paper III. Gymnosperms, Cytology and General Biology.

Paper IV. Angiosperms.

Paper V. Physiology and Ecology.

Thesis, or special paper on “Study of fungous pest of crops in the United Provinces of Agra and Oudh.”

Out of the five papers, candidates may take any three for the Previous examination, and the remaining

two papers and the thesis or special paper for the Final examination.

Two of the three papers set for the M. Sc. Examination shall be common for Previous and Final examinations every year.

1. The systematic morphology, physiology, and life histories of the typical representatives of the principal groups of Thallophyta, Bryophyta, Pteridophyta, Gymnosperms, and the Angiosperms.
2. A knowledge of the more important fossil types.
3. Physiological plant Anatomy and Ecology.
4. A knowledge of "Soil Bacteria" and "Soil fungi".

Candidates will also be expected to study the phenomena of Nutrition of Lichen Algae, Lichen Fungi, and reproduction of Lichens.

5. Plant Physiology.
6. Study of Cytology including the following:—
Protoplasm, Plastids, Somatic mitosis, Meiosis, Fertilisation, Determination of Sex, Linkage, Cytological basis of Mendelism.
7. Fundamental facts of variation and heredity and the theories of evolution.
8. Principles of plant-breeding.
9. Special paper on "Study of fungous pests of crops in United Provinces of Agra and Oudh."

Or

Thesis recording original work done by the candidate and a brief review of recent literature on the problem investigated by him. Two typed copies of the thesis should be submitted a week before the examination.

For the M. Sc. (Previous) Examination of 1937, there shall be the following papers:—

Paper I. Thallophytes.

Paper II. Bryophytes and Pteridophytes.

Paper III. Gymnosperms, Cytology and General Biology.

For the M. Sc. (Final) Examination of 1938, there shall be the following papers:—

Paper I. Angiosperms.

Paper II. Physiology and Ecology.

Thesis or Special paper.

Practical Examination.

The examination shall comprise the following:—

1. Detailed study of representative types of different groups prescribed in the syllabus.
2. Study of physiological plant anatomy.
3. Cytological study of suitable specimens.
4. Demonstration of important phenomena of plant life.
5. Referring of plants to their families or sub-families.
6. Detailed study of diseased crop plants and the technique connected with work on the life histories of the parasites infecting them or a study of the larger aspects of the subject taken up by the student for his thesis.
7. *Viva voce* examination on subjects for the practical examination.

The following books are recommended:—

THALLOPHYTES.

WEST AND FRITSCH : British Freshwater Algae.

WEST : Algae.

SMITH : Algae.

HARSHBERGER : Mycology and Plant Pathology.

GWYNNE-VAUGHAN : Fungi.

GWYNNE-VAUGHAN AND BARNES : Structure and Development of Fungi.

Cereals, fibres, oil-seeds, roots, legumes, fodders and miscellaneous.

Principles underlying rotation of crops; Distribution of cropping schemes according to soils and climate with special reference to the United Provinces; Cropping schemes for the following classes of farming:—

- (i) Mixed arable.
- (ii) Intensive.
- (iii) Extensive.
- (iv) Dairy.
- (v) Stock, including pasture.

Factors affecting cropping schemes; improvements in grades of soil by judicious cropping; Acid and the alkali soils and their improvements by suitable cropping.

(2) IRRIGATION AND DRAINAGE.

Irrigation.—Necessity for irrigation by artificial means; sources of water for irrigation; wells, reservoirs and canals; Canal systems in India and the United Provinces; Productive and Protective Canals, working of canals; Types of outlets; Hydraulic formulæ for discharge and methods of measurement; Canal rates, feasibility of charging by actual volume, meters, Modules, semi-modules; comparative outturn of irrigation appliances; Hydraulic terminology including cusec, duty of water, head of water ventage, osra bandi, water requirements of different crops; Losses by evaporation and seepage; Economy of water; Different systems of irrigation and their relative advantages, over irrigation and the attendant evils; Research in joint field of Agriculture and canal irrigation sources remaining untapped in the United Provinces.

Drainage.—Objects of drainage; Conditions requiring drainage; Types of drains; Relative costs; Cost of drainage in relation to crop production; Depth to be laid. Types of outlets, systems of drainage channels.

(3) SOIL DEVELOPMENT.

General Soil Management.—Practices of cultivation as regards time of cultivation and the implements used. Levelling; precaution to be taken; prevention of scouring; sub-soiling costs: Machinery used in sub-soiling and levelling; soil sickness, including toxicity, acidity and alkalinity; Soil micro-organisms.

Manures.—Necessity of manures; Time of manuring and method of application; Conservation of manures; Effect and valuation; Units.

Land Development.—Improvements by scientific treatment of land otherwise unproductive; Capital outlay; Probable profits and time taken for a return on investment; Reclamation of acid and alkaline lands; Afforestation of waste lands unsuitable for cultivation; probable returns on investment, development of shallow soils, eradication of pernicious weeds, improvement of pasture land, cost of such improvement, well-boring, capital outlay and probable returns on idle lands, investment—agricultural, in machinery, for land development, precautions to be taken, probable return on such investment, poultry, goat, and sheep-farming, outlines of improved practices of suitable breeds, their care and management, probable outlay and returns.

Practical I.—Crop Culture.

(a) Practical study of the field and garden crops, their methods of cultivation, improved and indigenous, yield and cost per acre; Storage and disposal of produce.

(b) Special attention will be devoted to the following crops representing their classes:—

Field Crops.—Sugarcane; Wheat; Rice; Oats; One fodder grass; Lucerne; Cotton; Sunn-hemp; Arhar; Potato; Mustard; Linseed; Tobacco.

Vegetable Crops.—Cauliflower; Carrot; Onion; Tomato; Brinjal; Chillies.

Garden Crops.—Mango; Lime; Guava; Banana; Papaya; Ber.

(c) Students are expected to be familiar with methods of cultivation elsewhere and other matters of general interest connected with the special crops.

(d) The students will visit—

(i) Holdings of the cultivators, and

(ii) Government and private farms and gardens.

(e) The record of the field operations and reports on the places visited will be produced at the final examination.

Paper II.—*Farm and Estate Management; Engineering.*

1. FARM MANAGEMENT.

Principles underlying successful management of farm maintained for—

(a) Experiments;

(b) Demonstrations;

(c) Profits.

Layout of Farms.—General survey of land, layout of fields, roads, buildings, irrigation and drainage channel; fencing.

Farm Labour.—Its organisation; allotment of duties; training of unskilled labour; methods of increasing efficiency.

2. AGRICULTURAL STATISTICS.

Scope and utility of Statistics.—Compilation and tabulation of data; averages; dispersion; Graphic method; Diagrams; Accuracy; Index numbers; Co-relation.

The study of the above to be based on the following data from the United Provinces and India:—

Acreege under crops; Average yield of crops; Irrigated area; Area under improved varieties; Spread of improved seed; Cattle, Meteorological conditions; Exports and Imports.

3. COMMERCIAL FARMING.

Principles underlying commercial farming with major occupation of—

- (a) Crop Production,
- (b) Cattle Breeding, and
- (c) Dairy Farming

capital outlay ; requirements of capital for recurring expenses ; effects of distance from market ; transport arrangements ; disposal of produce : practice in working out capital requirements for commercial farms under various conditions in the province, methods of economizing expenditure ; simple systems of accounts for untrained managers.

Practical II—Farm management.

- (a) Working of improved implements and machinery ; their cost, and working expenditure.
- (b) Survey and layout of farms for—
 - (1) Experiments ;
 - (2) Demonstrations ;
 - (3) Profit.
- (c) Layout of—
 - (1) Orchards ;
 - (2) Public gardens.
- (d) Methods of marketing.
- (e) The students will visit the following :—
 - (1) Holdings of the cultivators ;
 - (2) Government and private farms and gardens ;
 - (3) Factories utilising agricultural products ;
 - (4) Centres of allied industries ;
 - (5) Markets for agricultural products and requirements.
- (f) The following record will be maintained by the students to be produced at the final examination :—
 - (1) The record of the implements and machinery used.
 - (2) Reports on the places visited.

Paper IV.—Dairying and Animal Husbandry ; Veterinary Science.

(1) DAIRYING AND ANIMAL HUSBANDRY.

The object of this course is to deal with the dairyman's aspect of the course rather than the chemist's.

(I) Milk and its products:—

Milk : its constituents, food value of milk ; Secretion of milk in the udder ; Factors influencing the quality and quantity of milk produced ; Adulteration of milk and how to detect it.

Production of clean milk, including cost per unit : Grading of milk ; Treatment of milk for marketing, such as standardizing, pasteurising, homogenising, sterilizing and bottling. Humanizing of milk ; Conveyance of milk and distribution ; Bacterial and legal standards of milk ; Milk contracts ; Problems of milk supply in our cities.

Vitamins in milk ; Milk enzymes ; contamination of milk and cream ; Milk fermentations ; growth of micro-organisms in milk.

Cream ; its composition ; Different methods of obtaining cream, such as shallow and deep pan system, water dilution system and centrifugal system ; Efficiency of cream-separators ; Varieties of separators ; The separator bowl, speed of the bowl ; separating temperature ; Factors affecting the percentage of fat in cream ; The causes of vibration of the separator ; The essentials for successful separation ; Advantages of creaming by a separator over the gravity system.

Ripening of cream ; Object of ripening ; Ripening temperatures, natural cream ripening ; Starters, natural starters, pure culture starters, ripening cream with starters.

Neutralization of cream for butter-making, importance of neutralization of cream for butter-making ; The preparation and use of lime as a neutralizer.

Butter : its composition, making of butter from ripened cream, sweet cream and whole-milk ; Points of good butter ; Judging of butter ; Estimation of water in butter.

Ghee : manufacturing ghee from (a) cream and (b) butter ; comparison with the indigenous method.

Cheese ; Quality of milk for cheese ; Varieties of Indian cheese such as—

- (a) Milk cheese, and
- (b) Cream cheese.

Manufacture and uses of milk-sugar, milk powder and condensed milk, and casein composition and uses of separated milk, butter, milk and whey; Comparison of profits by sale of daily produce such as whole milk, cream, butter, ghee and cheese.

(2) Refrigeration of dairy products and construction of cold-store.

(a) Refrigeration of dairy products; Importance of refrigeration; The two systems of refrigeration *i. e.*, Natural and Mechanical; Natural system, including ice-bunker method, insulated ice-house method and gravity brine method. Mechanical system; Its history; Principle involved, different ways of effecting refrigeration by the comparison system, such as the brine circulation system, the direct expansion system and the cold air blast system.

(b) Construction of cold-store:—Location of cold-store in the dairy, Material required; size, construction of floor, walls, roof, door and windows; Ventilation and painting,

(3) Dairy utensils and Machinery:—

Utensils and machinery of the cow-shed, the yard and the butter-house; Minimum requirements of a dairy in utensils and machinery; Cost and upkeep; Power requirements; Steam and electricity for dairy purpose.

(4) Live-Stock:—

(a) Judging of cows, bulls, bullocks and young stock; Systems of establishing and maintaining the herd; Study of important breeds of cattle of the whole of India; The cattle breeding problem and how to improve it; Comparison of important breeds of exotic and indigenous cattle, results achieved with important breeds of improved stock; Improvement of sheep in India.

(b) Animal Breeding:—Aims of the breeder, selection, systems of breeding such as grading, crossing, line breeding and in-breeding; Variation, kind of variation, such as morphological,

functional and mutational; The Mendelian rule as applied to cattle improvement; Pedigree, heredity and prepotency of farm animals.

- (c) General management; Selection, care and management of the sire; Raising of dairy calves; marking of calves for identification; Dehorning; Raising of the dairy heifer, care and management of milch stock, such as housing, regularity and gentleness in handling, exercise and grooming, watering, milking, supplying mineral matter, giving the cow a rest; drying off the cow, mating, breeding or condemnation; Introduction of new animals into the herd.

(5) Feeds and Feeding :

The digestion of feeds; The determination of digestibility of food-stuffs; Relative values of feeding stuffs; The production values of feeding stuff; Kellner's starch values, Computation of rations for maintenance, growth and production of milk and other utilities by well-known feeding standards, including Armsby, Kellner, Wolf-Lehman and Haecker; Recent work on feeding standards in India; Feeding of weaned calves, Pregnant cows and cows just calved.

Feeding stuffs and their classification, mixing of rations; care in handling and preparation of rations, Hay-making, silage making and the soiling system.

(6) Farm Buildings :—

Location of farm buildings; Grouping of the different farm buildings; such as dairy-milking-sheds, milk-recording room, shed for calves, dry and young stock sheds, calving sheds, bull-sheds, godown, silo-tower, implement-sheds, chaffing-shed, water trough, isolation yard and menials quarters.

- (a) Dairy building—amount of floor space; Arrangement of floor space; Construction of foundation, walls and roofs; Ventilation, cost per sq. ft.

- (b) Milking shed—importance of good milking-shed, different types of sheds, space required per

head of cattle; construction of floor, feeding troughs, gutters, walls and roof; Ventilation and requirements, in air and light; Ties. Stanchions and partitions.

- (c) Construction of other buildings, such as milk recording room; Shed for calves; Dry and young stock sheds; Calving boxes; Bull sheds; Godown; Silo tower; Implement shed; Chaffing shed; water trough; Isolation yard and menial quarters, cost per sq. ft.

(7) Dairy Farm Management :—

Labour requirements in the care of cattle; Causes of loss of time in dairy routine work and their effect on production; Efficiency of labour in the dairy Cropping scheme for the supply of green fodder to the dairy cattle all the year round; Study of cattle and dairy registers :—

(8) General :—

Capital and recurring cost of cattle breeding scheme. Schemes for starting dairy firms with main purpose of—

- (a) Milk Production.
- (b) Butter Production.
- (c) Cheese Production.

(2) VETERINARY SCIENCE.

(1) (a) Elementary physiology of cow, ox, and horse; their requirements, in food and water.

(b) Stables—Their construction and hygiene for sick and pregnant animals; Ventilation; Drainage.

(c) Infectious and contagious diseases—Their cause and mode of dissemination; General measures for prevention.

(d) Description, Symptom, Diagnosis and Treatment of the following diseases of cattle :—

- (1) Anthrax, (2) Foot and mouth disease, (3) Hæmorrhagic septicaemia, (4) Rinderpest, (5) Black quarter, (6) Cow Pox, (7) Tick fever, (8) Rheumatism, (9) Tympanitis. (10) Impaction of rumen, (11) Indigestion, (12) Gastritis, (13) Diarrhoea, (14) Pneumonia, (15) Tuberculosis, (16) Simple ailments.

(e) Simple obstetrics ; Common forms of abnormal parturition ; Treatment of diseases accompanying parturition ; Treatment of the diseases of new born calf.

(f) Poisons commonly used to destroy cattle ; Their symptoms and treatment.

(g) First aid in cases of injury ; Treatment of simple wounds, sores and tumours.

Practical III.

(1) DAIRYING AND ANIMAL HUSBANDRY.

1. Grooming of calves, milch cows and other dairy cattle.
2. Artificial feeding of young calves which have been weaned.
3. Mixing of feeds and preparing balanced rations for dairy cows and other cattle.
4. Approaching and handling of the different dairy cattle.
5. Judging of dairy cows, heifers, bulls and bullocks by means of the score card system.
6. Purchasing of dairy cattle in the market.
7. Branding of young stock and adults.
8. Dehorning of young calves.
9. Handling and care of the bull.
10. Hygienic milking of cows and buffaloes.
11. Recording of milk.
12. Sampling of milk.
13. Cleaning of dairy utensils.
14. Preparation of churn, butter-worker and other such appliances.
15. Tests in milk and cream.—
 - (a) Fat percentage by Gerber's method.
 - (b) Specific gravity by means of lactometer.
 - (c) Solids-not-fat with the help of formula after noting the fat per cent and specific gravity.

-
- (d) Total solids both by evaporating the milk and with the help of Richmond's milk scale.
16. Detection of adulteration in milk.
- (a) Extraction of fat.
 - (b) Addition of water.
 - (c) Addition of separated milk or a combination of any of these.
17. The detection of stale or dirty milk.
18. Testing acidity of milk and cream.
19. Standardizing of milk.
20. Humanizing of milk.
21. Pasteurizing of milk.
22. Bottling of milk.
23. Sealing of milk-bottles and cans.
24. Fitting and adjusting of cream-separators.
25. Separating of milk.
26. Preparation of mother starter.
27. Neutralization of cream.
28. Natural cream ripening and ripening with the help of starters.
29. Butter making.
30. Judging of butter.
31. Packing of butter for the market.
32. Estimation of water in butter.
33. Casein making :—
- (a) Commercial casein.
 - (b) Rennet casein.
 - (c) Lactic casein.
34. Ghee making from—
- (a) Curd or Dahi as practised in villages.
 - (b) Cream and
 - (c) Butter.

35. Study of different dairy and cattle registers.

(2) VETERINARY SCIENCE.

- (a) Practical acquaintance with the external and internal anatomy of cattle.
- (b) Common external and internal parasites of cattle and methods of their eradication.
- (c) Familiarity with common medicines, their handling and dosage.
- (d) Simple surgery and bandaging.
- (e) Care of the sick animals.
- (f) Care at the time of calving and the handling of new born calves.
- (g) Diagnosis of ordinary and common ailments and diseases.
- (h) Throwing the animal ; Castration ; Shoeing.

Students will visit dairies and maintain record of laboratory work and out-door observations to be produced at the final examination.

Paper V.—*Pests, Diseases and Common Weeds.*

(1) Common Insect Pests of the United Provinces and their control.

- (a) The life-history and development of two typical insects, namely grass-hopper and butterfly.
- (b) Insects and agriculture.

The nature and extent of damage. Leaf eaters : Stem and root borers : Root eaters ; Flower and fruit eaters ; Fruit borers, Sap suckers ; Blood suckers ; Eaters of stored grain. Transmission of diseases of cultivated plants and animals.

(c) Methods of control :—

- (i) Biological control :—Resistance and immunity need for combining host resistance factors ; in plant breeding. Bacterial, Protozoan and fungoid diseases of insects and their use in pest control. Insect predators and parasites and their utilisation.

- (ii) Cultural Control:—Value of clean cultivation; Good tilth; manuring; irrigation and draining; Rotation; Resistant varieties, Alteration of seasonal dates and use of trap crops.
- (iii) Mechanical and physical methods:—Collection of eggs, larvae and adults; Cutting out dead hearts; Barriers; Grease bands; Shelter traps; Cleaning of stored grain; Light traps; Scent traps; Sun or machine heating of seed; Destruction of attacked fruits.
- (iv) Chemical control:—Insecticides; their preparation and employment; Contact and stomach poisons; Apparatus for application; Fumigation; Insectifuges and repellants.
- (d) The occurrence, life histories, attack and methods of control of the following pests:—

Orthoptera:—Khariff grass-hoppers (*Hieroglyphus* sp.).

Hemiptera.—Mustard bug (*Bagrada picta*); Rice gandhi (*Leptocoris varicornis*); Red cotton stainer (*Dysdercus cingulatus*) Sugarcane leaf-hopper (*Pyrilla* sp.); Mango Leaf-hopper (*Idiocerus* sp.); Sugarcane white fly (*Aleurolobus barodensis*); Mustard green fly (*Aphis brassicae*); Mango white bug (*Monophlebicus* sp.).

Lepidoptera:—Gram caterpillar (*Chloridea obsoleta*); Cut Worm (*Agrotis ypsilon*); Cotton spotted boll-worm (*Earias* sp.); Sugarcane stem borer (*Diatroea* sp.); Sugarcane root borer (*Emmalocera depressella*); Sugarcane top borer (*Scirpophaga nivella*); Maize and Juar borer (*Chilo simplex*); Cotton leaf roller (*Sylepta derogata*); Cotton Pink boll-worm (*Platyedra gossypiella*); Potato moth (*Phthorimoea operculella*); Grain and flower moth (*Sitotroga cerealella*).

Coleoptera:—Wheat weevil (*Calandra oryzae*); Pumpkin beetle (*Aulacophora abdominalis*).

Isoptera:—White ants (*Termitidae*).

Diptera:—Fruit and pumpkin flies (*Dacus* sp.).

(2) Common Fungus and Bacterial Diseases of U. P. and their control.

(a) Causes of disease in plants :—

- (i) Non-parasitic or Physiological.
- (ii) Virus-Sugarcane mosaic.
- (iii) Parasitic.

(b) Elementary study of the following parasitic Diseases :—

- (i) White Rust of Crucifers.
- (ii) Red yellow and orange rust of wheat.
- (iii) Black, green and blue mould of vegetables and fruits.
- (iv) Downy mildew of Sarson.
- (v) Powdery mildew of Peas and wheat.
- (vi) Late Blight (*Phytophthora infestum*) on potatoes.
- (vii) Smut of jowar and sugarcane.
- (viii) Ring disease of potatoes, Knowledge of control operations generally.

(3) Common Weeds of the U. P. and their control.

(a) Distribution of common weeds in the locality ; their injurious effects. Habits of growth and methods of prevention and eradication.

(b) Detailed study of—

- (1) *Zizyphus rotundifolia*.
- (2) *Corchorus acutangularis*.
- (3) *Desmodium triflorum*.
- (4) *Convolvulus arvensis*.
- (5) „ *Microphyllus*.
- (6) *Euphorbia hirta*.
- (7) „ *thymifolia*.
- (8) *Asphodelus tenuifolius*.
- (9) *Cyperus rotundus*.

-
- (10) *Setaria glauca*.
 - (11) *Saccharum spontaneum*.
 - (12) *Digitaria sanguinalis*.
 - (13) *Andropogon*.

Practical IV.—

(1) Acquaintance in field and laboratory with twenty-four insect pests and their life-histories. Field application of control measures, including preparation and application of standard insecticides.

(2) General knowledge of control operation for common Fungus and Bacterial diseases.

(3) Methods of prevention and eradication of Common Weeds.

The course will be studied entirely from a farmer's point of view. His interest will dominate over the scientific aspect of the study.

AGRICULTURAL CHEMISTRY.

PAPER I.

Plant Chemistry.—

Composition of plants and their products. Changes during germination, growth and ripening. Enzymes. Factors affecting the growth of plants.

Soils.—

Elementary geology necessary for the study of soils. Formation of soils. Constitution of soils. Colloidal properties of soil. Chemical and physical properties of soil. Bacterial changes in soil. Soil analysis and its interpretation. Fertility and sterility in soils. Chemical methods of reclamation and improvement of soils. Methods of soil classification. Climate and its influence on soils. Methods of soil surveys. Soil types with special reference to the soils of United Provinces.

Fertilizers and Manures.—

Classification of fertilizers and manures. Sources, manufacture and properties of the chief fertilizers and manures. Farm-yard manure, its making and storage. Materials of indirect fertilizing value. Theories of manuring. Law of Diminishing Returns. Analysis and valuation of manures.

Historical.—

Development of ideas in plant nutrition and relation of plant to soil.

PAPER II.

Feeding Stuffs.—

Chemistry of constituents of feeding stuffs, Carbohydrates, including sugars, starches, fibres and glucosides. Proteins, polypeptides and amino acids. Fats and oils. Benzene. Phenol, Salicylic acid, Tannin, Terpenes, Resins, Nicotine, Morphine, Quinine, Glucosides and Vitamines. Methods of analysis. Classification of feeding stuffs. Origin and preparation of commercial feeding stuffs.

Animal Nutrition.—

Digestion, absorption and metabolism. Maintenance and production. Growth, meat production, milk production and works. Valuation of feeding stuffs. Starch equivalent. Albuminoid ratio. Compounding of rations. Residual value of feeding stuffs.

Dairy Chemistry.—

Milk, butter and cheese and other dairy products. Vegetable ghee. Preservative and standards. Adulterant and substitutes.

Fungicides and Insecticides.—

Outline of the chemistry and action of the chief constituents of Fungicides and Insecticides.

PRACTICAL.

Qualitative examination of soils. Mechanical analysis. Estimation of organic matter and nitrogen. Estimation of potash, phosphoric acid, lime in soils soluble in strong HCl. Estimation of calcium carbonate, exchangeable bases and lime requirements of soils. Estimation of potash and phosphoric acid soluble in one per cent citric acid. Examination of drainage water. Estimation of ammoniacal and nitrate nitrogen in soils. Analysis of common manures and fertilizers. Detection of impurities and adulterants. Qualitative examination and recognition of proteins, carbohydrates and fats. Estimation of water, ash, sand, protein, fibre, and sugars in feeding stuffs. Qualitative and quantitative analysis of dairy products and their substitutes. Determination of acidity in milk. Recognition and use of preservatives in dairy products. Fats, total solids and specific gravity of milk. Water, salt, and volatile acids in butter. Water, fat and protein in cheese.

BOTANY WITH PLANT PATHOLOGY.Paper I.—*Botany.*

Reproduction.—Vegetative reproduction ; Sexual reproduction, including double fertilization ; Cross and self-pollination ; Dispersal of fruits and seeds ; Germination ; (with adequate attention to the physiological aspects of all these phenomena).

Systematic botany with special reference to Agricultural Plants, Fruit Trees and Common Weeds:—

Anonaceæ ; Papavaraceæ ; Cruciteræ ; Malvaceæ ; Linaceæ ; Rutaceæ ; Anacardiaceæ ; Leguminosæ ; Rosaceæ ; Cucurbitaceæ ; Umbelliferæ ; Compositæ ; Convolvulaceæ ; Solanaceæ ; Scrophulariaceæ ; Acanthaceæ ; Labiatae ; Amarantaceæ ; Euphorbiaceæ ; Urticaceæ ; Scitamineæ ; Liliaceæ ; Gramineæ and Pedaliaceæ.

General acquaintance with methods of preparation of botanical specimens and permanent glycerine slides.

Seeds. Identification of seeds of common crops and weeds ; their purity and germinating capacity.

Practical.

The practical work will be based on and co-ordinated with the theoretical course.

Note-books containing a complete record of laboratory work will be required to be produced at the Practical Examination.

Paper II.—*Plant Pathology.*

1. Mycology.

Fungi in general ; Morphology, physiology and classification ; Dissemination.

Study of the life-history of the following:—

Pythium ; Albugo ; Peronospora ; Phytophthora ;
Mucor.

Saccharomyces ; Peziza ; Nectria ; Claviceps ; Xylaria.
Erysiphe ; Phyllactinia ; Penicillium ; Aspergillus.
Ustilago ; Tilletia ; Puccinia ; Melampsora.
Agaricus Polyporus.
Botrytis ; Gloeosporium ; Collectotrichum ; Fusarium.
Alternaria ; Helminthosporium.

II. Bacteriology.

Bacteria in general, including role of bacteria in nature ;
Morphology and classification of bacteria ; Physiology of
bacteria (Elementary treatment) ; Asepsis and Antisepsis ;
Sterilization.

III. Diseases of Plants.

Causes of disease :—

- (a) Parasitic :—
 - (i) Mycological.
 - (ii) Bacterial.
 - (iii) Phanerogamic.
- (b) Virus.
- (c) Physiological.

Saprophytism and parasitism, symbiosis ; Specialization
of parasitism ; Methods of infection.

Principles of Control ; Predisposition ; Deterioration.
Methods of Control.

IV. Study of the following diseases and their control :—

(a) Parasitic :—

- (i) Mycological—Symptomatology ; Identification
of the causal organism.

Stem rot of papaya (Pythium) ; White rust (Cystopus) ;
Blight (Phytophthora) ; Downy mildew (Peronospora) ; Green
ear disease (Sclerospora) ; Brown rot of fruits (Sclerotinia) ;
Ergot (Claviceps) ; Powdery mildew (Erysiphe, Phyllactinia)
Soft rot [Penicillium, Aspergillus] ; Sooty mould [Meliola] ;
Smuts [Ustilago] ; Rusts [Puccinia, Melampsora] ; Timber

rot [Polyporus] ; Early blight of potato [Alternaria]; Red-rot of Sugarcane and Anthracnoses [Colletotrichum]; Wilt [Fusarium, Rhizoctonia] ; Leaf spot [Helminthosporium, Septoria] ; Lichens.

(ii) Bacterial :—

Symptomatology ; General characters of the causal organism of :—

Soft rot of vegetables ; Citrus canker ; Fire blight

(iii) Phanerogamic :—

Cuscuta ; Loranthus ; Orobanche

(b) Virus :—

Crinkle and Mosaic of potato.

Mosaic of tobacco and sugarcane.

(c) Physiological :—

Chlorosis ; Bordeaux injury.

Practical.

The practical work will be based on and co-ordinated with the theoretical course.

In Bacteriology practical the students should be familiar with :

(a) The preparation of culture media, namely Bouillon, glucose, milk and potato.

(b) Microscopic examination of bacteria ; Use of oil immersion lens ; Staining of bacteria ; Measuring of bacteria ; Gram's method of staining ; Demonstration of the spores of bacteria.

(c) Methods of identification of bacteria in outline.

Isolation culture and examination of *B. Subtilis* and *B. Carotovorus*.

Note-books containing a complete record of laboratory work will be required to be produced at the Practical Examination.

BOTANY WITH PLANT BREEDING.Paper I.—*Botany.*

(Same as under Botany with Plant Pathology.)

Paper II.—*Plant Breeding.*

Study of reproductive organs and modes of fertilization, artificial and natural.

Historical survey of plant breeding work; Nature and scope of breeding work in the United Provinces.

Variation; Nature, amount, causes and kinds; Fluctuating variability and Mutation.

Measurements of variations.

Fertilization process; hybridisation, its limits and technique. The inheritance of morphological and physiological characters of plants.

Theories of Evolution.

Mendelism and its bearing on plant breeding.

Selection; Fixation of new forms; Mass culture and pure lines.

Practical.

Students will be required to be familiar with the hybridisation technique, lay out of replication, numbering, labelling and recording for breeding purposes.

BOTANY WITH HORTICULTURE.

Paper I.—*Botany.*

(Same as under Botany with Plant Pathology.)

Paper II.—*Horticulture.*

Introduction—Sites and laying out; Cultivation and drainage; Methods and results of digging, trenching, ploughing, Sub-soiling, hoeing, raking and rolling.

Propagation by cuttings, layering, budding, grafting, gootee ; Pruning ; Raising and selection of stocks.

Methods of grading, packing, marketing, storing and preservation.

(1) Fruit gardening :—Methods, care and precautions required in raising nurseries of fruit trees and practical acquaintance with and care of mangoes, citrus varieties, guavas, grapes, bananas, papayas, loquats, lichis and ber (*Ziziphus Jujuba*).

(2) Vegetable gardening :—methods, care and precautions necessary in culture and seed raising of :—

Cole crops	... Cabbage, knol-khol, cauliflower.
Root crops	... Carrot, beetroot, turnip.
Bulb crops	... Onion, garlic.
Tuber crops	... Potato.
Legumes	... Peas and beans.
Cucurbitaceous crops	... Cucumber, torai, melons, pumpkins and gourds.
Miscellaneous crops	... Turmeric, ginger, tomato, brinjal, bhindi, chillies sweet potato.

(3) Flower gardening :—methods of propagation and seed raising.

Practical.

A thorough knowledge of the methods of propagation of all classes of Plants included in the above course will be required.

Students will keep a record of the field work which shall be produced at the examination.

ZOOLOGY WITH ENTOMOLOGY AND PARASITOLOGY.

Paper I.—Zoology.

(1) The general principles of Biology treated in an elementary manner, including the theory of evolution.

(2) The structure and phenomena of the animal cell. Reproduction, Sexual and asexual: Parthenogenesis; Metamorphosis, Alternation of Generations.

(3) Principles of classification; Special reference to Phyla containing animals of economic importance to agriculturists.

The general features, biology and economic importance of the following phyla and examples :—

Non-Chordata.

Phylum.	Class.	Example.
Protozoa	... Rhizopoda	... Amœba sp.
	Mastigophora	... Trypanosoma sp.
	Sporozoa	... Malarial parasite.
	Infusoria	... Paramœcium sp.
Coelenterata	... Hydrozoa	... Hydra sp.
Platyhelminthes	... Trematoda	... Fasciola hepatica.
	Cestoda	... Tœnia sp.
Nemathelminthes...	Nematoda	... Ascaris sp.
Annelida	... Chaetopoda	... Pheretima sp.
Arthropoda	... Crustacea	... Prawn.
	Insecta	... Grasshopper.
	Myriapoda	... Centipede, Millipede.
	Arachnida	... Scorpion, Mite, Tick.
Mollusca	... Gastropoda	... Pond Snail, Pila sp.
	Pelecypoda	... Fresh-water Mussel, Unio sp.

Chordata.

Craniata	... Pisces	... Scoliodon. Labeo sp. (Rohu) (External features only).
	Amphibia	... Frog.
	Reptilia	... Lizard. Poisonous snakes of India. (Recognition only).
	Aves	... Pigeon (excluding skeleton). Common fowl (skeleton only).
	Mammalia	... General characters of Prototheria and Metatheria: distinction between orders Ungulata, Carnivora, Rodentia, Insectivora, Chiroptera, Primates. Squirrel or rat. Dog (skull only).

(4) The outlines of the development of frog, chick and rabbit. Amnion and Allantois, Placentation.

Paper II—*Entomology and Parasitology.*

Entomology.

Biology and Taxonomy.

Insect structure and development as seen in grass-hopper and butterfly; embryology; post-embryonic development, metamorphosis; the exoskeleton; segmentation; the limbs; mouth parts, other appendages; wings and venation; musculature; digestive system; circulatory system; respiration; excretion; nervous system; sense organs; reproductive organs; Classification; the orders of insects.

Economic Entomology.

Orders and families of economic importance, classification, identification, life-histories, food plants, and economic status of major pest insects of world, important Indian pests not found in North India, all plant and animal insect pests of North India, pests of stored products, and insects of commercial

Natural control.

The balance of nature ; Climate ; disease ; parasites and predators. Artificial control.

Biological control.

Utilisation of diseases, parasites and predators ; cultural control ; susceptibility and resistance.

Chemical and Physical control.

Insecticides and fumigants ; preparation, uses, limitations and apparatus for application ; heat sterilization, crop storage.

Crop pests.—

The pests of the following crops in Northern India, and application of suitable control measures :—

- | | |
|--------------------------------|--|
| (1) Cereals | ... Wheat, barley, rice, <i>juar</i> , <i>bajra</i> , and maize. |
| (2) Fibres | ... Cotton, Sannhemp, patsunn. |
| (3) Oilseeds | ... Castor, linseed, mustard. |
| (4) Legumes | ... Peas, groundnuts, <i>arhar</i> , gram. |
| (5) Fodders | ... <i>Juar</i> , lucerne, <i>guar</i> , oats. |
| (6) Miscellaneous crops. | ... Sugar-cane, tobacco. |
| (7) Cole crops | ... Cabbage, knol-khol, cauliflower. |
| (8) Roots | ... Carrots, beetroot, turnip. |
| (9) Bulbs | ... Onion, garlic. |
| (10) Tubers | ... Potato, sweet potato. |
| (11) Cucurbitaceous crops. | ... Cucumber, <i>torai</i> , melons, pumpkins and gourds. |
| (12) Miscellaneous vegetables. | ... Turmeric, ginger, tomato, brinjal, <i>bhindi</i> , chillies. |

Beneficial insects of commercial value : Silk worms, bees, and lac insects.

Practical.

Field and laboratory acquaintance with local pests ; breeding and record of the life-histories.

Collection of insects, pinning, setting and classification.

Application of control methods in field and store, including preparation and use of insecticides.

Parasitology.

The identification, biology and economic status of parasitic and pathogenic species of Protozoa, Platyhelminthes, Nemathelminthes and Arachnida.

Phylum.	Class.	Example.
Protozoa	... Rhizopoda	... Amœbæ.
	Mastigophora	... Trypanosoma sp.
	Infusoria	... Balantidium.
	Sporozoa	... Babesia, Theileria.
Platyhelminthes	... Trematoda	... Fasciola hepatica.
		Schistogomum bovis.
	Cestoda	... Tœnia Saginata.
		„ Magrinata.
		„ Crassicolis.
Nemathelminthes	... Nematoda	„ Echinococcus.
		... Tylenchus sp.
		Heterodera sp.
		Ascaris sp.
		Anchylostoma sp.
		Filaria sp.
Annelida	... Hirudinea	Strongylus sp.
		Hirudo sp.
Arthropoda	... Arachnid	... Fowl-mite, Ticks.

Practical.

Identification of example. Laboratory acquaintance with their general characters, Elementary laboratory technique. Examination of guts and excreta for parasites and eggs.

ZOOLOGY WITH ANIMAL BREEDING.Paper I.—*Zoology*.

(Same as under Zoology with Entomology and Parasitology.)

Paper II.—*Animal Breeding*.

1. Anatomy and Cytology of Reproduction :

Reproductive organs of fowl, rabbit, goat and cattle ; their anatomy and function ; Histology and cytology of germ cells, Chromosomes. Mechanism of maturation and fusion of sex cells.

2. Theories and mechanism of inheritance :

Variation, Natural selection, Adaptation, Origin of species, Definition of species. Varieties. Mutations. Domestication. Artificial selection ; reversion.

Breeds and pedigrees.

Mendelian rules of heredity : Interpretation of chromosome behaviour ; their function in inheritance of characters ; linkage of characters ; sex linkage ; sex determination.

Galton's theory. Bruce-Low system of breeding. Lines and families. In-breeding. Out-crossing. Cross-breeding.

3. Procreation and Development :

Fertilisation. The embryo. Outlines of embryonic development of chick and rabbit. The foetus. Gestation. Parturition. Post-natal development and nourishment. Provision of milk in mammals.

4. Objects and aims of breeding. Poultry for eggs, table or general utility. Rabbits for table, fur, *pelts*. Sheep for meat, wool. Goats for milk, meat, draught. Pigs for meat, bristles. Horses for strength, speed, draught, riding. Cattle and buffaloes for milk, work.

5. Typical breeds of domestic animals and their characteristics :

Poultry (Fowls, Ducks, Geese, Turkeys, Guinea-fowl).
Rabbit. Sheep. Goats. Pigs. Horses, asses
and mules. Cattle. Buffaloes. Camels.
Elephants.

6. Principles and practice of breeding :

Selection and fixation of breed. Maintenances of purity, improvement within breed. Application of Mendelian laws and Bruce-Low system. Pedigrees. Stock registers. Inbreeding and out-crossing in practice. Cross-breeding for utility and for combination of characters for permanent fixation.

7. Breeding for Indian requirements :

The characteristics of selected breeds of domestic animals with special reference to Indian conditions and requirements. Consideration of the merits and failings of each breed, with particular attention to breeds of cattle for work and for milk. Selection of stock. Inheritance through sire and dam. Milk and work records. Thriftiness. Weeding out :—

Poultry. Sheep. Goats. Pigs. Horses. Asses. Mules.
Cattle. Buffaloes. Camels.

8. Breeding hygiene :

Care of breeding stock. Mating: Sterility, causes and precautions. Care of pregnant females. Delivery. Care and maintenance of young stock. Common pests and diseases, their prevention and treatment.

9. Stock accounting.

Practical.

Elementary anatomy of reproductive organs. Elementary cytology of oogenesis, spermatogenesis. Maturation and fusion of sex cells. Embryonic and foetal development. Experience of poultry and cattle breeding and maintenance records and accounts. Visits to poultry, horse and cattle breeding farms.

Practical work with the college herd, and visits to poultry, horse and cattle breeding establishments in addition.

RURAL ECONOMICS.

Paper I.—RURAL ECONOMICS.
